**School Libraries Supporting Students with Hidden Needs and Talents** Karla Bame Collins, 2024-10-03 Together librarians and specialists can create experiences to reach all learners in their buildings including those with hidden needs and talents. While school librarians are experts at collaborating with classroom teachers too often they overlook the specialists in their buildings as key collaborative partners. Focusing on the many specialists who work with students Karla Bame Collins provides information about their roles and responsibilities and discusses how school librarians can collaborate to improve learning for all students including those with hidden needs disabilities and talents that are not easily detected and may go undiagnosed. Because librarians work with every student but may not always be informed about each student's particular needs it's important for them to know whom in the school to turn to for information. Librarians will gain ideas for working with students to provide the best possible learning environment for each. This practical book looks at the whole school library environment collection instruction space and programming and offers many ideas for

librarians to collaborate with other educators and specialists for the good of all students
