On Deadline Managing Media Relations Fifth:

On Deadline Carole M. Howard, Wilma K. Mathews, 2013-03-01 Media relations professionals must know how to stay ahead of the game to be effective in today's complex world. It is no longer enough that they craft news releases, orchestrate interviews, and build sustaining relationships with reporters. Their multiple roles now include planner, crisis manager, communicator, counselor, and strategist. Called virtually an encyclopedia of media relations by one reviewer, the Fifth Edition covers relationships with reporters, spokesperson training, news conferences, and special events; integrating media relations into marketing communications plans; crisis management; global media relations; ethics; establishing a media policy within the organization; measuring results; and becoming a counselor to management. Its practical advice and how-to ideas draw on current case studies, most involving social media, and the authors' extensive experience in the U.S. and around the world. With a clear and fast-moving style, the Fifth Edition maintains its status as the foremost book on media relations in the corporate and nonprofit sectors. It is a must-read for prospective and current media relations professionals dedicated to maximizing their organizations' results.

On Deadline Carole Howard, Wilma Mathews, 1994 This second edition maintains its status as the only full-length text on media relations in the corporate and nonprofit sectors.

It presents all the tools necessary to plan and implement a successful media relations program, from relationships with reporters, crisis management, and global media relations to spokesperson training, ethical and legal issues, news conferences, and special events. New case studies illustrate the multiple roles of media relations professionals as planner, crisis manager, communicator, counselor, and strategist in a world that encounters ubiquitous messages dispersed at the speed of light.

This two part volume examines current pedagogical modules research directions and other emerging issues in public relations and communication management in Africa In comparison to its Western and Asian counterparts the literature on public relations management in Africa is limited and much of it is examined through the lenses

of Western philosophies and pedagogies that do not generally resonate with Africa's socioeconomic political and cultural contexts. This book aims to change that. Through analyzing the organizational dynamic, Volume 1 brings together contributors from across Africa to provide valuable insights into how public relations contributes to organizational effectiveness on the continent. Chapters discussed include a review of public relations research in Africa, the role of the African CEO as a public relations activist, the use of social and digital media in public relations, the measurement and evaluation of communication programs, and the implications of the fourth industrial revolution on public relations practice in Africa. Providing important pathways and overviews of public relations management in Africa, this volume not only highlights current practices but offers insights into the future of the practice within its evolving global landscape.

Administration of Intercollegiate Athletics

Robert Zullo, Erienne Weight, 2024-02-27. The dynamic world of collegiate sports has seen seismic changes since the previous edition of *Administration of Intercollegiate Athletics* was published. Conference realignments, name, image, and likeness (NIL) advancements, multibillion-dollar media rights deals, expanded bowl games and tournaments, and big money corporate sponsorships have all been arisen out of the burgeoning popularity of college sports. The growing complexities of the sport administrator's role necessitate a college text that reflects the times. And that's exactly what *Administration of Intercollegiate Athletics*, Second Edition, does. Some of the most informed and experienced professionals in the field of athletics administration have lent their expertise to the updated second edition, making it the most comprehensive resource available today for students aspiring to work in the field and for professionals navigating an increasingly demanding environment. The text offers students a deep dive into the day-to-day operations of collegiate athletics departments. With chapters covering governing bodies and conference governance, leadership and management, rules compliance, academics, eligibility, and student athlete development, media relations and production, financial operations and budgeting, marketing, ticketing, licensing, and sponsorships, facility and event management, alumni relations, and support services, the text provides students with the essential underpinnings of an athletics administration position. New to this edition is a chapter dedicated to diversity, equity, and inclusion, to provide broader discussions of athlete social justice, activism, gender equity, Title IX compliance, feminist theory, and allyship. In addition, the second edition discusses the rise of NIL deals, legalized sports wagering, and esports, as well as the lasting financial impacts of COVID-19 on athletics departments at all levels of intercollegiate sport. While Division I schools grab the spotlight, administrators in Division II, Division III, junior colleges, and the National Association of Intercollegiate Athletics (NAIA) athletics departments share the same responsibilities as their Division I counterparts. Throughout the text, *Administration of Intercollegiate Athletics*, Second Edition, takes care to address the needs and concerns of administrators at these levels, even more so than in the previous edition. New and updated features include Leadership Lesson sidebars, discussion questions, learning activities, and case studies designed to enhance learning and provide practical application of the concepts presented. Also included are Industry Profile sidebars that highlight prominent athletics

administrators Technology Tools sidebars that showcase the latest advancements assisting administrators in their roles and Professional Development sidebars that provide students with direction on how to enter and succeed in the industry

Responding to Crisis Dan Pyle Millar, Robert L. Heath, 2003-12-08 In recent years researchers and practitioners have explored the nature theory and best practices that are required for effective and ethical crisis preparation and response The consequences of being unprepared to respond quickly appropriately and ethically to a crisis are dramatic and well documented For this reason crisis consulting and the development of crisis response plans and protocols have become more than a cottage industry Taking a rhetorical view of crisis events and utterances this book is devoted to adding new insights to the discussion and to describing a rhetorical approach to crisis communication To help set the tone for that description the opening chapter reviews a rhetorical perspective on organizational crisis As such it raises questions and provokes issues more than it addresses and answers them definitively The other chapters can be viewed as a series of experts participating in a panel discussion The challenge to each of the authors is to add depth and breadth of understanding to the analysis of the rhetorical

implications of a crisis as well as to the strategies that can be used ethically and responsibly Central to this analysis is the theoretic perspective that crisis response requires rhetorically tailored statements that satisfactorily address the narratives surrounding the crisis which are used by interested parties to define and judge it This volume will be of value to scholars and students interested in crisis communication and is certain to influence future work and research on responding to crises
