**Governor's Houses and State Houses of British Colonial America, 1607-1783** Hoke P. Kimball, Bruce Henson, 2017-05-11 This comprehensive survey of British colonial governors' houses and buildings used as state houses or capitols in the North American colonies begins with the founding of the Virginia Colony and ends with American independence. In addition to the 13 colonies that became the United States in 1783, the study includes three colonies in present-day Florida and Canada: East Florida, West Florida, and the Province of Quebec obtained by Great Britain after the French and Indian War.

Archival Arrangement and Description Lois Hamill, 2017-07-08 Archival Arrangement and Description Analog to Digital teaches the core functions of arrangement and description. A historical summary grounds new archivists to assess proposed changes for digital files. After presenting the basics of arrangement and description processing for analog materials, the text segues to digital materials incorporating the OAIS preservation model into a detailed sample workflow. Although accessioning and technical appraisal precede processing, they are discussed because they are performed differently for digital materials and create a different starting point for processing digital files. Description is external to the OAIS model but linked to it. Recent advances in description and its delivery are presented along with concerns for the ability of smaller archives to participate in envisioned future developments that are technology-reliant. New specialties like digital curation and data curation show the continued relevance of archival expertise for the digital future. Rich with

**Black Ops Advertising** Mara Einstein, 2016-09-01 From Facebook to Talking Points Memo to the New York Times often what looks like fact based journalism is not It s advertising Not only are ads indistinguishable from reporting the Internet we rely on for news opinions and even impartial sales content is now the ultimate corporate tool Reader beware content without a corporate sponsor lurking behind it is rare indeed Black Ops Advertising dissects this rapid rise of sponsored content a strategy whereby advertisers have become publishers and publishers create advertising all under the guise of unbiased information Covert selling mostly in the form of native advertising and content marketing has so blurred the lines between editorial content and marketing message that it is next to impossible to tell real news from paid endorsements In the 21st century instead of telling us to buy buy BUY marketers engage with us so that we share share SHARE the ultimate subtle sell Why should this concern us Because personal data personal relationships and our very identities are being repackaged in pursuit of corporate profits Because tracking and manipulation of data make likes and tweets and followers the currency of importance rather than scientific achievement or artistic talent or information the electorate needs to fully function in a democracy And because we are being manipulated to spend time with technology to interact with friends to always be on even when it is to our physical and mental detriment
