On The Donation Of Constantine On The Donation Of Constantine:

On the Donation of Constantine Lorenzo Valla, 2007 Valla 1407-1457 was the most important theorist of the humanist movement. His most famous work is the present volume, an oration in which Valla uses new philological methods to attack the authenticity of the most important document justifying the papacy's claims to temporal rule. *The Treatise of Lorenzo Valla on the Donation of Constantine, Text and Translation Into English by Christopher B. Coleman* Lorenzo Valla, 1922 *The Donation of Constantine* Roman Emperor Constantine I, 2023-09 The Donation of Constantine is a forged Roman imperial decree by which the 4th century emperor Constantine the Great supposedly transferred authority over Rome and the western part of the Roman Empire to the Pope. **Commentaries on the Donation of Constantine** Rolland Walter Shields, 1965

The Treatise Of Lorenzo Valla On The Donation Of Constantine Lorenzo Valla, 2023-06 The book *The Treatise of Lorenzo Valla on the Donation of Constantine* was written in 1440 by the Italian humanist Lorenzo Valla who lived in the 15th century. This study examines the Donation of Constantine, a text reportedly written in the fourth century by the Roman Emperor Constantine. The constitution gave the pope control over the Western Roman Empire as well as temporal power. Valla's treatise reveals the document's falsification and establishes that it was a fake rather than an authentic text from the fourth century. One of the first occasions in history that critical textual analysis was used to establish a document was a fake was when he utilized historical and philological data to refute the document. Valla's insight was important and had a lot of sway. His work opened the groundwork for contemporary historical and textual criticism and advanced humanist research. The book was crucial in challenging the papacy's power during the Renaissance and in revealing the forgery that was the Donation of Constantine. In conclusion, *The treatise of Lorenzo Valla on the Donation of Constantine* is a significant contribution to textual criticism and humanist research. It challenged the papacy's authority during the Renaissance by showcasing the effectiveness of critical textual analysis and revealing the forgery of an important historical document. ...

Donation of Constantine Charlemagne, 2018-07-09 The Donation of Constantine (Latin: *Donatio Constantini*) is a forged Roman imperial decree by which the 4th century emperor Constantine the Great supposedly transferred authority over Rome and the western part of the Roman Empire to the Pope. Composed probably in the 8th century, it was used especially in the 13th century in support of claims of political authority by the papacy. Lorenzo Valla, an Italian Catholic priest and Renaissance humanist, is credited with first exposing the forgery with solid philological arguments in 1439-1440, although the document's authenticity had been repeatedly contested since 1001. In many of the existing manuscripts, handwritten copies of the document including the oldest one, the document bears the title *Constitutum domini Constantini imperatoris*. The Donation of Constantine was included in the 9th century Pseudo-Isidorean Decretals collection. **The Treatise of Lorenzo Valla on the Donation of Constantine** Lorenzo Valla, Christopher Bush-Coleman, 1967 *The 'Donation of Constantine'*. In *The Treatise of Lorenzo Valla on the Donation of Constantine* Valla employs incisive philological scrutiny to dismantle the legitimacy of one of the most significant documents in medieval Christendom. Written in the 15th century, the treatise exemplifies Valla's Renaissance humanism, characterized by an eloquent prose style that marries literary flair with rigorous analytical rigor. Through meticulous examination of the text's language and historical context, Valla reveals the donation as a forgery, thus holding a mirror to the political maneuvers of his time and questioning the authority of the papacy. Valla's work not only paved the way for critical historical inquiry but also sparked a discourse on the relationship between power and textual authenticity, embodying the spirit of Renaissance thought that sought to reconcile faith with reason.

Lorenzo Valla, a prominent figure in Renaissance humanism, was known for his scholarship in philology and rhetoric. His acute understanding of Latin and passion for ancient texts equipped him to question established doctrines, including the Donation of Constantine, which had long been accepted as legitimate. Valla's critical perspective was shaped by his experiences as a court humanist and his engagement with the political landscape in Italy, marked by a growing skepticism toward clerical power and a desire for textual integrity.

This treatise is highly recommended for scholars and enthusiasts of Renaissance literature, history, and theology alike. Valla's eloquent dissection of the Donation of Constantine not only illuminates the era's intellectual currents but also challenges readers to consider the interplay of power and language. As a foundational text in the field of historical criticism, it invites reflection on the implications of authenticity in both texts and institutions.
