## **On The Run An Anglers Journey Down The Striper Coast:**

*On the Run* David DiBenedetto, 2004-09-14 Each autumn one of nature's most magnificent dramas plays out when striped bass undertake a journey from the northeastern United States to the Outer Banks of North Carolina in search of food and warmer seas. Writer and angler David DiBenedetto followed this great migration the fall run for three months in the autumn of 2001. *On the Run* offers vivid portrayals of the zany and obsessive characters DiBenedetto met on his travels including the country's most daring fisherman, an underwater videographer who chunked his corporate job in favor of filming striped bass, and the reclusive angler who claims that catching the world record striper in 1982 sent his life into a tailspin. Along his route DiBenedetto also delves into the natural history and biology of this great game fish and depicts the colorful cultures of the seaside communities where the striped bass reigns supreme.

*1001 Fishing Tips* Lamar Underwood, 2010-07 *1001 Fishing Tips* reveals the insider secrets that you need to become the greatest fisherman out there. It focuses on the most popular freshwater game fish including trout, bass, crappie, bluegill, walleye, catfish, salmon, and pike, and saltwater favorites such as striped bass, bluefish, flounder, redfish, weakfish, and sea trout. Included are techniques applicable to any environment such as rivers and streams, lakes and ponds, estuaries and inlets, bays, beaches, and off shore hotspots. Better your game with *1001 Fishing Tips* and be ready to catch more fish, bigger fish, and have more fun.

*The Ultimate Guide to Fishing Skills, Tactics, and Techniques* Graham Moore, 2012-01-14 With fishing advice from such experts as Bill Dance, Roland Martin, Wade Bourne, Tom Rosenbauer, Kirk Deeter, Charlie Meyer, Conway Bowman, and Lamar Underwood, *The Ultimate Guide to Fishing Skills, Tactics, and Techniques* profiles all of the major gamefish in both fresh and salt water and reveals pro secrets on how to catch them. Learn how Roland Martin entices largemouths with striking lures. Study Bill Dance's twenty tricks for consistently catching bass in thick weed beds or clear open water. Want to know what Kirk Deeter and Charlie Meyer have learned from their years of fly fishing for trout? How about Lamar Underwood's tools for success? It's all here, divided into sections on bass, trout, walleyes, pike, pickerel, muskellunge, panfish, salmon, steelhead, catfish, ice fishing, and salt water fishing for easy reference. You'll also find sections on knot tying, boats, and boating comfort and safety on the water, and even delicious recipes for cooking your fresh caught fish. This volume also includes a classic reading section featuring stories from such fishing literary legends as Nick Lyons, Ted Leeson, John Taintor, who remind us what fishing is really all about.

*Striper Wars* Dick Russell, 2013-02-22 When populations of striped bass began plummeting in the early 1980s, author and fisherman Dick Russell was there to lead an Atlantic coast conservation campaign that resulted in one of the most remarkable wildlife comebacks in the history of fisheries. As any avid fisherman will tell you, the striped bass has long been a favorite at the American dinner table. In fact, we've been feasting on the fish from the time of the Pilgrims. By 1980, that feasting had turned to overfishing by commercial fishing interests. *Striper Wars* is Dick Russell's inspiring account of the people and events responsible for the successful preservation of one of America's favorite fish, and of what has happened since. *Striper Wars* is a

tale replete with heroes and some villains as the struggle to save the striper migrated down the coast from Massachusetts to Maryland Russell introduces us to a postman at arms against a burly trap net fisherman a renowned state governor caving to special interests and a fishing tackle maker fighting alongside marine biologists And he describes how champions of this singular fish blocked power plants and New York's Westway Project that would otherwise compromise its habitat Unfortunately those who cheered the triumphant ending to the campaign as the coastal states enacted measures that enabled the striped bass to make its comeback have found the peace transitory there is now a new enemy emerging on the front In recent years a chronic bacterial disease has struck more than seventy percent of the striped bass population in the primary spawning waters of the Chesapeake Bay Malnutrition seems to be a significant factor brought on by the same overfishing that plagued the bass in the first battle only this time the overfishing is devastating menhaden the silvery little fish upon which the bass feed Lessons learned during the first conservation battle are being applied here highlighting a need for a whole new ecosystem based approach to conserving species Only with constant vigilance by concerned citizens Dick Russell reminds us can environmental victories be sustained This particular fish story is a personal one for him and he follows the striper's saga today all the way to California where the fish was introduced in 1879 and where agribusiness now threatens its future For his conservation work during the 1980s Russell received a citizen's Chevron Conservation Award

Casting Seaward Steve Ramirez, 2023-04-01 In Casting Seaward author naturalist and educator Steve Ramirez expands beyond the geographical scope of his first two books by traveling thousands of miles by plane motor vehicle boat and foot pursuing the native gamefish of North America's salt and brackish water habitats This journey includes following anadromous fish like salmon from the ocean's depth to the shallowest tributaries of Alaskan rivers and following rivers and streams from their freshwater sources to their brackish water deltas In the course of this journey Ramirez explores and fishes portions of the entire American coastline from the Northern Atlantic coast to the Caribbean Sea the Gulf of Mexico and up the Pacific coast from California to Alaska The entirety of this sojourn was written while traveling through the COVID 19 pandemic and it touches on the lessons that challenges such as global pandemics global ecological and sociological disruption and global opportunities for positive learning and change can teach us about nature and human nature Most of all Casting Seaward is a celebration of the bounty and beauty of our water covered planet and a recognition of its increasingly rarefied qualities Each story is told in part through the eyes of the people who have lived alongside and come to love these waters and fish Woven throughout these adventures are the stories of the people he meets and befriends while pursuing a mutual love of nature and the best of human nature as the first criterion for finding common ground Casting Seaward is an enthralling exploration an insightful warning and call to action and an exceedingly hopeful story in an all too often seemingly hopeless time It is a story of fishing and friendship It is a story of humanity's impact on nature and nature's impact on humanity It is our story in this pivotal moment in the history of humanity and the living blue planet we call home **Take**
