**The Methuen Drama Guide to Contemporary British Playwrights** Aleks Sierz, Martin Middeke, Peter Paul Schnierer, 2011-10-17 The Methuen Drama Guide to Contemporary British Playwrights is an authoritative guide to the work of twenty five playwrights who have risen to prominence since the 1980s Written by an international team of scholars it will be invaluable to anyone interested in studying or teaching contemporary drama Among the many playwrights whose work is examined are Sarah Daniels Terry Johnson Martin Crimp Sarah Kane Anthony Neilson Mark Ravenhill Simon Stephens Debbie Tucker Green Tanika Gupta and Richard Bean Each essay features A biographical sketch and introduction to the playwright A discussion of their most important plays An analysis of their stylistic and thematic traits the critical reception and their place in the discourses of British theatre A bibliography of texts and critical material *The Theatre of Simon Stephens* Jacqueline Bolton, 2021-06-17 Simon Stephens is one of Europe's pre eminent living playwrights Since the beginning of his career in 1998 Stephens's award winning plays have been translated into over twenty languages been produced on four continents and continue to feature prominently in the repertoires of European theatre His original works have garnered numerous awards with his stage adaptation of Mark Haddon's novel The Curious Incident of the Dog in the Night Time winning seven Olivier Awards and enjoying acclaim on Broadway In the first book to provide a critical account of Stephens's work Jacqueline Bolton draws upon the playwright's unpublished personal archives as well as original interviews with directors and actors to advance detailed analyses of his original plays and their productions examine contemporary approaches to playwriting and deliver insights into broader debates regarding text performance and authorship Caridad Svich addresses Stephens's theatrical output between 2014 and 2019 and essays from Mireia Aragay and James Hudson provide additional perspectives on international productions and the playwright's adaptive practices Andrew Haydon's edited interviews with six of Stephens's key collaborators Marianne Elliott Sarah Frankcom Sean Holmes Ramin Gray Katie Mitchell and Carrie Cracknell further illuminate the work from a director's viewpoint The Theatre of Simon Stephens situates the playwright's oeuvre within his embrace of aesthetics and working relations encountered in European theatre cultures focusing in particular upon shifting attitudes towards the function of the playwright the relationship between playwrights and directors and the role of the audience in live performance The Companion serves as a lively and engaging study of one of the most restlessly creative and important dramatists of our generation Great Circles Emily Rolfe Grosholz, 2018-11-13 This volume explores the interaction of poetry and mathematics by looking at analogies that link them The form that distinguishes poetry from prose has mathematical structure lifting language above the flow of time as do the thoughtful ways in which poets bring the infinite into relation with the finite The history of mathematics exhibits a dramatic narrative inspired by a kind of troping as metaphor opens metonymy and synecdoche elaborate and irony closes off or shifts the growth of mathematical knowledge The first part of the book is autobiographical following the author through her discovery of these

analogies revealed by music architecture science fiction philosophy and the study of mathematics and poetry The second part focuses on geometry the circle and square launching us from Shakespeare to Housman from Euclid to Leibniz The third part explores the study of dynamics inertial motion and transcendental functions from Descartes to Newton and in 20th c poetry The final part contemplates infinity as it emerges in modern set theory and topology and in contemporary poems including narrative poems about modern cosmology

Heidegger, Plato, Philosophy, Death Richard Rojcewicz, 2021-09-27 Richard Rojcewicz's Heidegger Plato Philosophy Death An Atmosphere of Mortality offers an original perspective on the bond between philosophy and death in the thought of Martin Heidegger and Plato For Heidegger authentic being toward death is not preoccupation with death as such nor resoluteness in the face of one's demise but preoccupation with the meaning of the beings ourselves who comport themselves understandingly toward death and who breathe an atmosphere of mortality Authentic dying is then nothing other than the practice of philosophy For Plato philosophy is the practice of dying the separating of the soul to its own autonomous existence This separation however is not that of the soul from the body Instead it is separation from common understanding hearsay everydayness and mediocrity Accordingly both Heidegger and Plato see an intimate connection between philosophy and death Rather than a morbid focus on negativity and dissolution however this connection leads to a call to being authentic thinking for oneself and repudiating the superficiality of the crowd For both Heidegger and Plato philosophizing and dying are most concretely a matter of heeding the Delphic oracle Know thyself Rojcewicz pursues this theme of philosophy and death through the topics of signs anxiety conscience music and the COVID 19 pandemic

*Facing Loss and Death* Peter Hühn, 2016-08-22 Lyric poetry as a temporal art form makes pervasive use of narrative elements in organizing the progressive course of the poetic text This observation justifies the application of the advanced methodology of narratology to the systematic analysis of lyric poems After a concise presentation of this transgeneric approach to poetry the study sets out to demonstrate its practical fruitfulness in detailed analyses of a large number of English and some American poems from the early modern period to the present The narratological approach proves particularly suited to focus on the hitherto widely neglected dimension of sequentiality the dynamic progression of the poetic utterance and its eventful turns which largely constitute the raison d'être of the poem To facilitate comparisons the examples chosen share one special thematic complex the traumatic experience of severe loss the death of a beloved person the imminence of one's own death the death of a revered fellow poet and the loss of a fundamental stabilizing order The function of the poems can be described as facing the traumatic experience in the poetic medium and employing various coping strategies The poems thus possess a therapeutic impetus
