Sustainable Rural Development A. Shepherd, 1998-01-19 This book examines the paradigm shift in rural development from an industrial to an holistic approach to technology development from a technocratic to a participatory approach to management and from resource control by big organisations to local resource management It provides a broad ranging assessment of agriculture and local level institutional development and sets out a range of agendas for development practice management and policy into the twenty first century

Feeding India Bill Pritchard, Anu Rammohan, Madhushree Sekher, S. Parasuraman, Chetan Choithani, 2013-08-15 Food security is one of the twenty first century s key global challenges and lessons learned from India have particular significance worldwide Not only does India account for approximately one quarter of the world s under nourished persons it also provides a worrying case of how rapid economic growth may not provide an assumed panacea to food security This book takes on this challenge It explains how India s chronic food security problem is a function of a distinctive interaction of economic political and environmental processes It contends that under nutrition and hunger are lagging components of human development in India precisely because the interfaces between these aspects of the food security problem have not been adequately understood in policy making communities Only through an integrative approach spanning the social and environmental sciences are the fuller dimensions of this problem revealed A well rounded appreciation of the problem is required informed by the FAO s conception of food security as encompassing availability production access distribution and utilisation nutritional content as well as by Amartya Sen s notions of entitlements and capabilities

The Changing Geography of Asia Kathleen M. Baker, Graham P. Chapman, 2002-03-11 Ranging from the poverty and exploding population of Bangladesh to the dazzling technology and ageing population of Japan from the two most populous states of India and China to the tiny states of Singapore and the Maldives and to the emptiness of Siberia Asia contains the greatest diversity of physical environments cultures and levels of development of any of the continents Clearly illustrated with basic maps of the countries discussed The Changing Geography of Asia presents a systematic review of twenty five years of development covering the physical economic social and political environments of contemporary Asia

State of the World Lester Russell Brown,1993

The Gene Revolution Sakiko Fukuda-Parr,2012-04-27 Whether or not to embrace GM technologies is a fundamental and politically charged question facing humanity in the 21st century particularly in light of rapidly growing populations and the unknown future impacts of

climate change The Gene Revolution is the first book to bridge the gap between the naysayers and cheerleaders and look at the issues and complexities facing developing and transitional countries over decisions about GM in light of the reality of what is happening on the ground The first part of the volume looks at the rise of GM crops commercialization and spread of the technology and the different positions of the USA and the European Union on the GM question and the effect of global markets The second part consists of country perspectives from Argentina Brazil China India and South Africa which provide insight into the profound challenges these countries face and the hard choices that have to be made The final part takes the analysis a step further by comparing developing and transitional country experiences and charts a future course for government policy on GM that supports growth sustainability and equity for the many billions of people affected worldwide

The Process of Economic Development James M. Cypher, 2020-12-30 The fifth edition of The Process of Economic Development offers a thorough and up to date treatment of development economics It has been extensively revised throughout reflecting the most recent developments in research and incorporating the latest empirical data as well as key theoretical advances and many new topics The world has seen vast economic growth in China economic transformation in India new challenges in Latin America rapid economic progress in Southeast Asia and the deepening impact of environmental issues such as climate change This new edition addresses all these critical issues as well as the pivotal role of the state where China's capacity is contrasted with that of African states Transnational corporations reliance on low wage manufacturing and labor arbitrage is featured in the book Agricultural policy extensively explored remains crucial as does the promotion of industrialization This fifth edition offers a state of the art analysis of these essential themes and many others Numerous case studies and issue focuses have been integrated with sundry central topics Neoclassical theories and applications including a timely exploration of behavioral economics are both rigorously and accessibly explicated Cypher's comprehensive account remains the development economics text par excellence as it takes a much more practical hands on view of the issues facing the developing countries than other overly mathematical texts This book is unique in its scope and in the detailed attention it gives to a vast range of ideas including pioneering developmentalist and heterodox formulations Distinct institutional structures are examined within their historical contexts This landmark text will continue to be an invaluable resource for students teachers and researchers in the fields of development economics and development studies

Geographies of Agriculture Guy Robinson, 2014-01-14 Agricultural Geography has changed dramatically in recent decades reflecting the transformation of the farming industry itself Geographies of Agriculture embraces these changes applying ideas and methods from contemporary social science as it moves beyond farm based production to address current issues affecting the production and consumption of food and fibre throughout the world The book places special emphasis on topics that reflect globalisation processes integration of agriculture into the wider agri food system concern with attaining sustainable production systems and the importance of both government and supra government policies Examples are drawn from North

America Western Europe and the developing world Geographies of Agriculture will appeal especially to Geography students but should also be of interest to a broader range of students in Sociology Economics and Development Studies and anyone interested in agriculture food production and consumption and rural development
