,2024-09-26 Repenser les diff rentes interconnexions latentes ou explicites qui existent entre religion et identit travers l

histoire de l'Afrique est une entreprise digne de considération. Elle vise d'une part comprendre comment les croyances et les pratiques qui y sont associées contribuent à la reconstruction des identités. D'autre part, elle ambitionne de décrire la manière dont les identités issues de ces religions s'entrechoquent au quotidien. Par ailleurs, il ne serait pas superflu de relever les propriétés invariantes communes à toutes ces religions dans leur dynamique de reconstitution des mentalités. Enfin, elle explore la possibilité d'une flexibilité des valeurs absolues en vue d'une cohabitation harmonieuse de toutes ces identités en mouvement. Plusieurs universitaires se sont donnés la peine d'y participer à travers leurs riches réflexions. Rédigées en français et en anglais, ces dernières peuvent être regroupées dans les quatre 4 principaux axes suivants : Thématiser les incidences culturelles et philosophiques ; Religion et politique ; Croyances et pratiques religieuses ; Religion et patrimoine.

New Directions in Gender and Religion Brigid M. Sackey, 2006-01-01. Brigid M. Sackey's book is a comprehensive analysis of gender relations in religion in Ghana using gendered anthropological tools of rare insight and originality. The book chronicles the efforts of men and women who bring a repackaged and customized Christianity and health delivery to meet with the specific cultural needs. Sackey disabuses notions of the helplessness of women in Ghana specifically and Africa in general as it highlights women's initiatives and assertiveness as healers and leaders of the churches they have founded in addition to their increased involvement and participation in gender discourses and social change. Sackey also addresses the question of HIV and the AIDS epidemic, detailing how the churches through the specific leadership of women are supporting a national campaign on the disease. Basing her research on an exhaustive library of oral history, ethnography, theory, and case studies, Sackey has brilliantly chronicled the relentless proliferation of and innovations in African Independent Churches and their impact on the national health delivery system and its development.

*W. E. B. Du Bois' Africa* Taharka Ade, 2023-08-15. W. E. B. Du Bois was one of the leading figures of Pan-African thought and activism in the twentieth century. As a sociologist, Du Bois wrote much about the historical and social circumstances of African Americans while often acknowledging the African historical background of much of African American or Negro culture. In 1946, Du Bois published *The World and Africa*, which was a culmination of previous attempts at penning a narrative of African history, beginning with his 1915 publication *The Negro* in which he included the social-historical experience of African Americans within the continuity of African history. This book delivers for the first time a comprehensive Afrocentric investigation and critique of Du Bois's writings on African history. It argues that while Du Bois presented at the time a strong critique of the Eurocentric construction of African history, many of Du Bois's descriptions and arguments about African people and history were likewise flawed with interpretations that projected the cultural subjectivities of Europe. Further, while Du Bois rightfully presents the historical relationship between African Americans and Africa as a justification for Pan-African activism, this book contends that Du Bois's failure to center African culture instead of race leads to superficial justifications for Pan-African unity.
