The Cambridge History of Capitalism: Volume 2, The Spread of Capitalism: From 1848 to the Present Larry Neal, Jeffrey G. Williamson, 2014-01-23 The second volume of The Cambridge History of Capitalism provides an authoritative reference on the spread and impact of capitalism across the world and the varieties of responses to it Employing a wide geographical coverage and strong comparative outlook a team of leading scholars explore the global consequences that capitalism has had for industry agriculture and trade along with the reactions by governments firms and markets The authors consider how World War I halted the initial spread of capitalism but global capitalism arose again by the close of the twentieth century They explore how the responses of labor movements compounded by the reactions by political regimes whether defensive or proactive led to diverse military and welfare consequences Beneficial results eventually emerged but the rise and spread of capitalism has not been easy or smooth This definitive volume will have widespread appeal amongst historians economists and political scientists Playing the Market Kieran Heinemann, 2021 This book explores the distinctively British obsession with investment and speculation It explains how and why everyday British people increasingly invested speculated and gambled in stocks and shares from the outbreak of World War I over the postwar decades and the Thatcher years up until the premiership of Tony Blair Adam Smith's Islands John C. Weaver, 2025-04-01 Many developed countries restructured relations between state and economy from the late 1970s into the 1990s Among them New Zealand went far fast and left a clear trail making it possible to study economic restructuring as it occurred with all the debates uncertainty surprises mistakes and accomplishments this entailed Adam Smith s Islands reveals the inside life of a government determined to revolutionize its nation s politics and economy While the 1980s economic restructuring of members of the Organisation for Economic Co operation and Development and former Warsaw Pact countries can seem like a foregone conclusion from the vantage point of the twenty first century John Weaver examines how local and global institutions had to come together to implement social adjustments in New Zealand Mounting evidence that the state had not functioned as an effective manager split the business community and primary producers between defenders of subsidization and free market insurgents Reforms undertaken by the governing Labour Party included abandoning currency controls privatizing state run businesses ending a multitude of open and disguised subsidies tightening fiscal responsibility and reforming taxation Adam Smith s Islands focuses on the verifiable direct primary sources from dozens of state collections and deposits of personal papers The archival cornucopia informing this history supports a narrative that has little in common with intellectual histories of neoliberalism To understand how the relationship between the economy and the state changed we need to grasp how and why core institutions practices and cultural beliefs shed some of their once potent legitimacy Through the lens of New Zealand Adam Smith's Islands examines larger questions about policy dilemmas the global flow of capital and the sustainability of social adjustments in economic restructuring In so doing it casts new light on the formation and

American Business Since 1920 Thomas K. history of what is casually labelled today as the neoliberal state McCraw, William R. Childs, 2018-02-13 Tells the story of how America's biggest companies began operated and prospered post World War I This book takes the vantage point of people working within companies as they responded to constant change created by consumers and technology It focuses on the entrepreneur the firm and the industry by showing from the inside how businesses operated after 1920 while offering a good deal of Modern American social and cultural history The case studies and contextual chapters provide an in depth understanding of the evolution of American management over nearly 100 years American Business Since 1920 How It Worked presents historical struggles with decision making and the trend towards relative decentralization through stories of extraordinarily capable entrepreneurs and the organizations they led It covers Henry Ford and his competitor Alfred Sloan at General Motors during the 1920s Neil McElroy at Procter Ferdinand Eberstadt at the government's Controlled Materials Plan during World War II David Sarnoff at RCA in the 1950s and 1960s and Ray Kroc and his McDonald's franchises in the late twentieth century and early twenty first and more It also delves into such modern success stories as Amazon com eBay and Google Provides deep analysis of some of the most successful companies of the 20th century Contains topical chapters covering titans of the 2000s Part of Wiley Blackwell s highly praised American History Series American Business Since 1920 How It Worked is designed for use in both basic and advanced courses in American history at the undergraduate and graduate levels An Agrarian History of Portugal, **1000-2000**, 2016-11-28 This book follows the renovation of European economic history towards a more unified interpretation of sources of growth and stagnation To better understand the diversity of patterns of growth we need to look beyond the study of the industrialization of the core economies and explore the centuries before it occurred Portuguese agriculture was hardly ever at the European productivity and technological forefront and the distance from it varied substantially across the second Millennium Yet if we look at the periods of the Christian Reconquista the recovery from the Black Death the response to the globalization of the Renaissance to the eighteenth century economic enlightenment or to nineteenth century industrialization we may conclude that agriculture in this country of the European periphery was often adaptive and dynamic The fact that economic backwardness was not overcome by the end of the period is no longer the most relevant aspect of that story Contributors are Luciano Amaral Am lia Branco Dulce Freire Ant nio Henriques Pedro Lains Susana M nch Miranda Margarida Sobral Neto Jaime Reis Ana Maria Rodrigues Jos Vicente Serr o and Ester G Silva The Routledge History of Religion and Politics in the United States Since 1775 Cara Lea Burnidge, Lauren Frances Turek, 2024-12-30 Drawing together history and recent historiography this volume offers a reference work for understanding how religion influenced politics and how politics shaped religion in the United States from the American Revolution through to the present day The book brings together some of the most well regarded scholars in history religious studies American studies political science and other disciplines working in this field providing a groundbreaking transdisciplinary history of

this topic It explores the major themes and historiographical trends that animate current scholarship ensuring that readers come away with a thorough picture of the field how it has evolved and where future scholars might take us This unique approach is well suited to students and scholars of both U S history and religious studies and encourages interdisciplinary analysis for the fields of religion and politics International Business in Times of Crisis Rob van Tulder, Alain Verbeke, Lucia Piscitello, Jonas Puck, 2022-03-14 International Business in Times of Crisis classifies studies of crises relevant to international business research following a global pandemic which exposed systems failures and fragilities closely across global economic financial political and social systems Essays in Economic and Business History ,2016 The Structure and Operation of Modern Economies Alessandro Romagnoli, 2023-11-17 This book is about the economy rather than economics It explores the structures inner workings and problems of modern economies showing how the organisations and networks that shape the structure of the economy are arranged to provide society with goods and services At the centre of the analysis there is the economic system characterised by organisational components carrying out economic functions production consumption distribution and establishment and control of the economic activities as well as provision of public goods and services and by a co evolving dynamic with the state The economic system is thus a machine that modern states have organised through their laws and international agreements The book incorporates a historical approach which reveals the varieties structure and evolution of capitalism as the defining economic system of the modern age Ultimately the book demonstrates that the economic sphere and the political sphere are the two powers ruling people s lives the economy is the result of their interactions This book will be of great interest to readers in political economy economics sociology and political science

More Philip Coggan,2020-02-13 There are 17 ingredients in a typical tube of toothpaste from titanium dioxide to xanthum gum and that s not counting the tube Everything had to come from somewhere and someone had to bring it all together The humblest household product reveals a web of enterprise that stretches around the globe More is the story of how we spun that web It begins with the earliest glimmerings of long distance trade obsidian blades that made their way from what is now Turkey to the Iran Iraq border 7 000 years before Christ and ends with the consequences of the Covid 19 pandemic On such a grand scale quirks of historical perspective leap out futures contracts and commercial branding are among the many seemingly modern components of the global economy have existed since ancient times Yet it was only in the 18th century that a cascade of innovations began to drive up prosperity in a lasting way around the world To piece this fascinating saga together Philip Coggan takes the reader inside medieval cottages and hi tech hydroponic farms prehistoric Chinese burial mounds and modern central banks At every step of our journey he finds that it was connections between people that created our wealth Will the same openness continue to serve us in the 21st century

Handbook of Cliometrics Claude

Diebolt, Michael Haupert, 2024-05-22 This handbook is a milestone in the field of historical economics and history The

articles in the handbook authored by the leading scholars in the fields stress the usefulness of cliometrics for economists historians and social scientists in general The handbook offers a comprehensive coverage of topics with each article providing an overview of the contributions of cliometrics to a particular topic The handbook has set a new standard of quality in the field by offering a world wide forum of discussion in cliometrics This updated and extended third edition of the handbook of cliometrics offers a substantially enlarged collection of articles and thus stresses its unique position as authoritative reference work in this field Going the Distance Ron Harris, 2020-02-11 A historical look at the early evolution of global trade and how this led to the creation and dominance of the European business corporation Before the seventeenth century trade across Eurasia was mostly conducted in short segments along the Silk Route and Indian Ocean Business was organized in family firms merchant networks and state owned enterprises and dominated by Chinese Indian and Arabic traders However around 1600 the first two joint stock corporations the English and Dutch East India Companies were established Going the Distance tells the story of overland and maritime trade without Europeans of European Cape Route trade without corporations and of how new large scale and impersonal organizations arose in Europe to control long distance trade for more than three centuries Ron Harris shows that by 1700 the scene and methods for global trade had dramatically changed Dutch and English merchants shepherded goods directly from China and India to northwestern Europe To understand this transformation Harris compares the organizational forms used in four major regions China India the Middle East and Western Europe The English and Dutch were the last to leap into Eurasian trade and they innovated in order to compete They raised capital from passive investors through impersonal stock markets and their joint stock corporations deployed more capital ships and agents to deliver goods from their origins to consumers Going the Distance explores the history behind a cornerstone of the modern economy and how this organizational revolution contributed to the formation of global trade and the creation of the business corporation as a key factor in Europe's economic rise Shadow Networks Francisco Louçã, Michael Ash, 2018 Many accounts of the financial crisis focus on renegade activity in marginal financial sectors This book argues that far from this pervading view the shadow finance that initiated the crisis is tightly networked with bank based finance It traces these networks to explain how the now decade long crisis took shape **Capitalisms** Kaveh Yazdani, Dilip M. Menon, 2020-01-02 Conventional accounts often conceive the genesis of capitalism in Europe within the conjunctures of agricultural commercial and industrial revolutions Challenging this widely believed clich this volume traces the history of capitalism across civilizations tenth century onwards and argues that capitalism was neither a monolithic entity nor exclusively an economic phenomenon confined to the West Looking at regions as diverse as England South America Russia North Africa and East South West and Southeast Asia the book explores the plurality of developments across time and space The chapters analyse aspects such as historical conjunctures commodity production and distribution circulation of knowledge and personnel and the role of mercantile capital small producers and force all the while stressing

the necessity to think beyond present day national boundaries The book argues that the multiple histories of capitalism can be better understood from a trans regional intercontinental and interconnected perspective The Interwar World Andrew Denning, Heidi J.S. Tworek, 2023-08-29 The Interwar World collects an international group of over 50 contributors to discuss analyze and interpret this crucial period in twentieth century history A comprehensive understanding of the interwar era has been limited by Euro American approaches and strict adherence to the temporal limits of the world wars The volume s contributors challenge the era's accepted temporal and geographic framings by privileging global processes and interactions Each contribution takes a global thematic approach integrating world regions into a shared narrative Three central questions frame the chapters First when was the interwar Viewed globally the years 1918 and 1939 are arbitrary limits and the volume explicitly engages with the artificiality of the temporal framework while closely examining the specific dynamics of the 1920s and 1930s Second where was the interwar Contributors use global history methodologies and training in varied world regions to decenter Euro American frameworks engaging directly with the usefulness of the interwar as both an era and an analytical category Third how global was the interwar Authors trace accelerating connections in areas such as public health and mass culture counterbalanced by processes of economic protectionism exclusive nationalism and limits to migration By approaching the era thematically the volume disaggregates and interrogates the meaning of the global in this era As a comprehensive guide this volume offers overviews of key themes of the interwar period for undergraduates while offering up to date historiographical insights for postgraduates and scholars interested in this pivotal period in global history

Law and Society in England 1750-1950 William Cornish, Stephen Banks, Charles Mitchell, Paul Mitchell, Rebecca Probert, 2019-10-31 Law and Society in England 1750 1950 is an indispensable text for those wishing to study English legal history and to understand the foundations of the modern British state In this new updated edition the authors explore the complex relationship between legal and social change They consider the ways in which those in power themselves imagined and initiated reform and the ways in which they were obliged to respond to demands for change from outside the legal and political classes What emerges is a lively and critical account of the evolution of modern rights and expectations and an engaging study of the formation of contemporary social administrative and legal institutions and ideas and the road that was travelled to create them The book is divided into eight chapters Institutions and Ideas Land Commerce and Industry Labour Relations The Family Poverty and Education Accidents and Crime This extensively referenced analysis of modern social and legal history will be invaluable to students and teachers of English law political science and social history The Cambridge Foretelling the End of Capitalism Francesco Boldizzoni, 2020-05-12 The end of history of capitalism Larry Neal, 2014 capitalism is always around the corner Why do we keep predicting its demise and how has it survived so many external shocks and internal contradictions Francesco Boldizzoni traces the history of a prophecy unrealized and identifies the source of capitalism's durability its rootedness in Western social hierarchies and individualism **Atlantic Transformations** Dale

W. Tomich, 2020-04-01 Calls attention to the political economic and cultural interdependence and interaction of global and local forces shaping the Atlantic world of the nineteenth century This book presents a new approach to nineteenth century Atlantic history by extending the analytical perspective of the second slavery to questions of empire colonialism and slavery With a focus on Latin America Brazil the Spanish Caribbean and the United States international scholars examine relations among empires between empires and colonies and within colonies as parts of processes of global economic and political restructuring By treating metropolis colony relations within the framework of the modern world economy the contributors call attention to the political economic and cultural interdependence and interaction of global and local forces shaping the Atlantic world They reinterpret as specific local responses to global processes the conflicts between empires within imperial relations the formation of national states the creation of new zones of agricultural production and the decline of old ones and the emergence of liberal ideologies and institutions forum for inter-american research Vol 6 Wilfried Raussert, 2023-07-20 Volume 6 of 6 of the complete premium print version of journal forum for inter american research fiar which is the official electronic journal of the International Association of Inter American Studies IAS fiar was established by the American Studies Program at Bielefeld University in 2008 We foster a dialogic and interdisciplinary approach to the study of the Americas fiar is a peer reviewed online journal Articles in this journal undergo a double blind review process and are published in English French Portuguese and Spanish
