Nice Democratic Transition Security Pakistan Studies:

Democratic Transition and Security in Pakistan Shaun Gregory, 2015-10-23 This volume examines the trajectory of Pakistan's democratic transition and the implications of this change for its security. In May 2013 for the first time in its 66 year history Pakistan saw an elected government complete a full term in office and transfer power through the ballot box to another civilian government. At this important moment in Pakistan's history this collection brings together twelve leading academics and writers with an aim to provide a far reaching analysis of the current situation in Pakistan and emergent trends. Drawing on history, diverse theoretical perspectives and empirical evidence, three themed sections deal respectively with democratic transition including Islam and democracy, civil military relations and economics, contested borders and contested spaces, the Pashtun belt, Kashmir and intra-Islamic conflict and regionalism, bilateral relations from both Pakistani and Indian perspectives, US-Pakistan relations and nuclear weapons dynamics. Together the contributors explore the status of Pakistan's democratic transition, contemporary security dynamics and wider regional security and political dynamics and the complex interplay of the three to provide a wide ranging analysis of Pakistan's contemporary national and regional challenges, its impact on the region and evidence of some positive trends for Pakistan's future. The book will be of much interest to students of South Asian politics, Asian security, governance and IR in general as well as policy makers, diplomats and military professionals.

Pakistan's National Security Approach and Post-Cold War Security Arshad Ali, 2021-03-30 This book analyzes the paradox that despite being a national security state, Pakistan has become even more insecure in the post-Cold War era. It provides an in-depth analysis of Pakistan's foreign and security policies and their implications for the overall state and society. The book identifies the immediate security challenges to Pakistan and charts the distinctive evolution of Pakistan's national security state in which the military elite became the dominant actor in the political sphere of government during and after the Cold War period. By examining the national security state, militarization, democracy and security proxy wars and the hyper-military industrial complex, the author illustrates how the vanguard role of the military created considerable structural, sociopolitical, economic and security problems in Pakistan. Furthermore, the author argues that the mismatch between Pakistan's national security stance and the transformed security environment has been facilitated and sustained by the embedded interests of the country's military industrial complex. A critical evaluation of the role of the military in the political affairs of the government and how it has created structural problems for Pakistan, this book will be of interest to academics in the field of South Asian Politics and

Sino-Pakistani

Relations Filippo Boni, 2019-08-08 This book analyses the relationship between Pakistan and China in the post 9 11 period against the backdrop of Pakistan's domestic politics and proposes that the major source of continuity in the ties between the two countries is represented by the military. The evolution and continuity of Sino Pakistani relations are explored through three timely case studies: the port of Gwadar where Chinese investment well pre-dates the advent of the Belt and Road Initiative; the China Pakistan Economic Corridor, the flagship project of China's global ambitions; and how the relationship between China and Pakistan has played out in Afghanistan. The book assesses the extent of military influence in Pakistan's relations with China throughout the last 20 years in several key decision-making areas ranging from internal security to elite recruitment. By looking at the extent of military prerogatives in Pakistan's domestic politics, the book reveals how the major source of continuity in the ties between the two countries was represented by the role that the military has played overtime. While since the announcement of the BRI, elected representatives have gained some leverage in decision-making, the military has invariably been the main port of call even under a civilian dispensation. A novel approach to the study of Sino Pakistani relations, this book will be of interest to academics working on South Asian Politics, Chinese Politics and International Relations, Sino Pakistani relations, civil-military ties and China's role in Asia, including the One Belt One Road initiative.
