**Literary Twinship from Shakespeare to the Age of Cloning** Wieland

Schwanebeck,2020-01-06 Unlike previous efforts that have only addressed literary twinship as a footnote to the doppelganger motif this book makes a case for the complexity of literary twinship across the literary spectrum Shortlisted for the ESSE Book Award 2022 Literatures in the English Language it shows how twins have been instrumental to the formation of comedies of mistaken identity the detective genre and dystopian science fiction The individual chapters trace the development of the category of twinship over time demonstrating how the twin was repeatedly re invented as a cultural and pathological type when other discursive fields constituted themselves and how its literary treatment served as the battleground for ideological disputes by setting the stage for debates regarding kinship and reproduction or by partaking in discussions of criminality eugenic greatness and monstrous births The book addresses nearly 100 primary texts including works of Mary Elizabeth Braddon Wilkie Collins Charles Dickens Arthur Conan Doyle Aldous Huxley Christopher Priest William Shakespeare and Zadie Smith
