John Baldessari Catalogue Raisonné: 1987-1993 John Baldessari, 2012 The pioneering conceptual artist John Baldessari b 1931 began his career as a painter in the 1950s but in the subsequent decades he expanded his practice in a new and groundbreaking direction by juxtaposing texts with found photography or appropriated images These texts questioned the nature of art and the art viewing experience suggesting new meanings for the images they accompanied This interaction of words and images remained a critical aspect of Baldessari's work even as he branched into other media such as site specific installations drawings video sculpture prints and multiples The first of a projected four volume set this lavishly illustrated book features about 500 works and chronicles an important shift in Baldessari's thinking during these formative years Included are such landmark works as the Cremation Project 1970 where Baldessari incinerated the body of work he had made between the years 1953 and 1966 The ashes of the cremated works were then baked into cookies and the rest sealed in a book shaped urn which he then presented along with a plaque announcing the life and death dates Baldessari's work and teaching have been greatly influential on a subsequent generation of artists The book features an essay by Yve Alain Bois considering Baldessari's ethos as a generator of his artistic practice Also included are an interview with
