## **New Literary Histories Theory After Poststructuralism:**

**New Literary Histories** Claire Colebrook, 1997 , Archival Afterlives Laura Hughes, 2023-11-15 A capacious analysis of a legendary intellectual friendship and the material legacies it left behind Over the course of their decades long friendship H l ne Cixous and Jacques Derrida assembled overlapping archives of written experiments and exchanges that document a shared interest in their literary afterlives In this incisive account Laura Hughes shows how pushing against the limits of writing and of life itself means not only imagining but manifesting a community of future readers Archival Afterlives Cixous Derrida and the Matter of Friendship examines the embodied nature of literary creation taking letters fragments notes and other ephemera as objects of critical analysis and care Combining close readings of key texts and previously unexamined archival materials Hughes traces critical connections between Cixous and Derrida between the theoretical and the autobiographical and between life writing and its limits In putting deconstruction into dialogue with new material analyses and archive studies Archival Afterlives positions this historical and intellectual relationship as a lens through which to reexamine the legacy of critical theory itself The Cambridge History of Literary Criticism: Volume 8, From Formalism to Poststructuralism George Alexander Kennedy, Raman Selden, 1989 Volume 8 of The Cambridge History of Literary Criticism deals with the most influential and hotly debated areas of literary theory those developing in Europe but having their main impact in the Anglo American world of academic literary studies whose course they have fundamentally redirected The structuralism poststructuralism Russian formalism semiotics narratology hermeneutics phenomenology reception theory and speech act theory associated with European writers including Barthes Todorov Derrida and Iser are here described in the context of their original development but with an eye also to their eventual influence and the volume includes a reflective chapter by Richard Rorty on deconstruction Incorporating full bibliographies this volume engages systematically with the history of the twentieth century s most profound and extensive set of cross cultural intellectual movements Post-Theory. Culture, Criticism , 2016-09-12 Post Theory Culture Criticism offers a collection of essays that provide provocative re articulations of theory culture and criticism It contains distinguished and original work by a number of leading and emerging figures within cultural and critical theory and cultural studies who believe that all of the above is in urgent need of theoretical and practical exploration In probing the feasibility and desirability of theory s re articulation the essays demonstrate that theory can only reinvent itself as worthwhile post theory through its own critical self revaluation Jacket

**Challenging Theory: Discipline After Deconstruction** Catherine Burgass, 2019-01-04 First published in 1999 this volume perceives that English literature is under threat as an academic discipline In Challenging Theory Catherine Burgass warns against the recent trend towards the conflation of literature teaching with cultural studies in British and American universities Focusing on theory of deconstruction as developed by Jacques Derrida in the 1960s the book redresses some common misinterpretations of Derrida s work relating to the status of metaphysical oppositions Part One discusses textual

differences and the ways in which these may dissolve and reform according to different cultural contexts The practical issues associated with teaching literature and literary theory in universities are examined in Part Two while Part Three highlights some of the more invidious claims of literary theorists and questions the value of metaphysical analysis as a tool for political critique Challenging Theory tackles an important debate that lies at the heart of humanities teaching It illuminates the impact on academia of the work of critical theorists over the last thirty years and provides a platform for future reassessment of the relationships between literature philosophy and theory

Twentieth-Century Chinese Translation Theory Leo Tak-hung Chan, 2004-05-28 Past attempts at writing a history of Chinese translation theory have been bedeviled by a chronological approach which often forces the writer to provide no more than a list of important theories and theorists over the centuries Or they have stretched out to almost every aspect related to translation in China so that the historical political backdrop that had an influence on translation theorizing turns out to be more important than the theories themselves In the present book the author hopes to devote exclusive attention to the ideas themselves The approach adopted centers around eight key issues that engaged the attention of theorists through the course of the twentieth century in the hope that a historical account will be presented that is not time bound On the basis of 38 articles translated into English by teachers and scholars of translation the author has written four essays discussing the Chinese characteristics of this body of theory Separately they focus on the impressionistic the modern the postcolonial and the poststructuralist approaches deployed by leading Chinese theorists from 1901 to 1998 It is hoped that publication of this

book will make possible cross cultural dialogue with translation academics in the West although the general reader will find much firsthand information on Chinese thinking about translation

[Nursing Theory, Postmodernism, Post-structuralism, and Foucault](#) Olga Petrovskaya, 2022-09-30

Nursing Theory Postmodernism Post structuralism and Foucault critiques mainstream American nursing theory and its use of post structural theory comparing and contrasting how postmodern and post structural ideas have been used fruitfully in nursing research and theorizing elsewhere In the late 1980s references to post structuralism and Michel Foucault started to appear in nursing journals Since then hundreds of nursing publications have cited postmodernism and key post structural ideas such as power knowledge discourse and de centring the human subject In *Nursing Theory Postmodernism Post structuralism and Foucault* Olga Petrovskaya argues that the application of these ideas is markedly different in American nursing theory scholarship compared to nursing theoretical scholarship generated outside the canon of unique nursing theory Analysing relevant literature from the late 1980s through 2010s she demonstrates this difference arguing that American nursing theory calcified into a matrix of dogmas built on logical positivism wary of borrowed theory and loyal to a unique nursing science Post structural ideas that fit the matrix such as criticism of medicine are sanctioned whereas ideas sceptical of humanistic agendas including those that challenge American nursing theory are rendered meaningless In contrast other nurse scholars from Britain Australia Canada and what the author calls the American enclave group engaged with postmodern and post structural perspectives to enrich their research and invite readers to rethink nursing practice The book showcases examples of their intelligent creative theorizing Arguing that American nursing theory enervated nursing theorizing Petrovskaya calls for opening this matrix to theoretical and methodological creativity less rigid categories of scholarship and healthy self examination Making the case that post structural ideas are vital for nurses ability to critically reflect on their discipline and profession this is a necessary read for all those interested in nursing theory philosophy and praxis Chapter 1 of this book is available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com) It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

**The Branches of the Gospel of John** Kyle Keefer, 2006-03-01 In *The Branches of the Gospel of John* Keefer presents a new paradigm for understanding the role of history of interpretation in New Testament studies with a focus on the Gospel of John Drawing largely from the work of Hans Robert Jauss he presents history of interpretation as a means to understand both the text and the historical reader Jauss's concept of *Rezeptionsästhetik* helps the New Testament scholar to reflect upon both text and history in a new light *John* is an exemplary work to investigate along these lines because no other canonical book was as provocative in the early church *John* was used extensively by Valentinians but also by the best known opponent of Valentinus Irenaeus Later major figures such as Origen Augustine and John Chrysostom worked through this gospel chapter by chapter to produce either commentaries Origen or sets of homilies Augustine and Chrysostom What emerges in *The Branches of the Gospel of John* is a realization that these early interpreters prove fruitful for both textual and historical study of the Fourth Gospel With regard to history early interpreters of *John* provide data points for understanding *John* in second and third century contexts Although these early interpretations do not explain the origins of *John's* gospel they nevertheless provide us with evidence of the Fourth Gospel's historical role in the construction of the early church With regard to literary and textual issues the present book demonstrates that these early readings of *John* can open up fresh avenues of interpretation for contemporary readers

*The Emperor Redressed* Dwight Eddins, 2014-07-14 The essays in this volume represent a collective questioning of the poststructuralist ascendancy and of the assumptions involved therein by a group of prominent scholars and critics M H Abrams Nina Baym Frederick Crews Ihab Hassan David Lehman Richard Levin Paisley Livingston Saul Morson and John Searle Assembled at The University of Alabama for the 1992 symposium from which this book takes its title these scholars were charged with the task of examining the truth value methodology practice and humanistic status of poststructuralist theories and with speculating on what their conclusions portend for the future of theory Some of the deficiencies uncovered in the emperor's apparel include the failure of poststructuralist theory to answer to the complexities of literary experience its tendency to be self-ratifying its betrayal of the feminist achievement its conflation of style and logic its attempt to impose apocalyptic finalities on history's open-endedness and its ignorance of much in current language philosophy The writings of Jacques Derrida in particular come in for skeptical scrutiny by Abrams Livingston and Searle The book concludes with a lively panel discussion in which the audience joins the fray
