*The Battle for the University of Alabama* William Warren Rogers, 2025 The University of Alabama was burned to the ground in the final days of the Civil War In the war's aftermath survivors constructed a new collection of buildings using many of the bricks left from the original campus Nevertheless the university's presidency changed frequently Alabama had a new egalitarian constitution created by a racially diverse coalition of Republicans the fate of the University of Alabama soon became a key battleground in the contested nature of state Assuming control of the university shortly before its formal reopening the new state Board of Education dismissed the previous regime's chosen faculty replacing them with idealistic Republican outsiders in a firestorm of controversy that set the stage for further conflicts to come Inflamed by reactionary rabble rousers Tuscaloosa became a notorious hotbed of intimidation and violence against radical Republicanism African Americans and the University of Alabama where a series of short lived presidencies financial crises brutal threats fabricated

controversies and a dwindling student body came to symbolize Alabama's complicated Reconstruction experience in the public eye. As the university's leaders struggled to shore up its fortunes, Democratic interests abetted by the Ku Klux Klan began to regain political power, leveraging the university's difficulties as a Trojan horse to recapture the governor's office in 1870. This splintered Republican-led reformist efforts and initiated the steady reconsolidation of elite white power across the state, including the University of Alabama. In *The Battle for the University of Alabama and the Perilous Path of Higher Education in the Reconstruction South*, William Warren Rogers Jr. traces this incredible yet little-known story of the bitter contest for the fate of a cultural citadel in relation to the histories of other public universities in the former states of the Confederacy as they struggled to make their own way after the war. **American Revolution** Spencer C.

Tucker, 2018-09-14 With more than 1,300 cross-referenced entries covering every aspect of the American Revolution, this definitive scholarly reference covers the causes, course, and consequences of the war and the political, social, and military origins of the nation. This authoritative and complete encyclopedia covers not only the eight years of the American Revolutionary War (1775-1783) but also the decades leading up to the war, beginning with the French and Indian War and the aftermath of the conflict, with an emphasis on the early American Republic. Volumes one through four contain a series of overview essays on the causes, course, and consequences of the American Revolution, followed by impeccably researched A-Z entries that address the full spectrum of political, social, and military matters that arose from the conflict. Each entry is cross-referenced to other entries and also lists books for further reading. In addition, there is a detailed bibliography, timeline, and glossary. A fifth volume is devoted to primary sources, each of which is accompanied by an insightful introduction that places the document in its proper historical context. The primary sources help readers to understand the myriad motivations behind the American Revolution, the diplomatic, military, and political maneuvering that took place during the conflict, and landmark documents that shaped the founding and early development of the United States. **Patriot's Legacy, Industrial Struggle**

Unlike most general histories of U.S. involvement in Vietnam, which are either conventional diplomatic or military histories, this volume synthesizes the perspectives to explore both dimensions of the struggle in greater depth, elucidating more of the complexities of the U.S.-Vietnam entanglement. It explains why Americans tried so hard for so long to stop the spread of Communism into Indochina and why they failed. Key topics: The Fall of Saigon, The End as Prelude, Vietnam: A Place and A People, The Elephant and the Tiger, An Experiment in Nation Building, Raising the Stakes, Going to War, The Chain of Thunders, The Year of the Monkey, A War to End a War, The End of the Tunnel Market.
