A Taste for Provence Helen Lefkowitz Horowitz, 2016-06-10 Provence today is a state of mind as much as a region of France promising clear skies and bright sun gentle breezes scented with lavender and wild herbs scenery alternately bold and intricate and delicious foods served alongside heady wines Yet in the mid twentieth century a travel guide called the region a mostly dry scrubby rocky arid land How then did Provence become a land of desire an alluring landscape for the American holiday In *A Taste for Provence* historian Helen Lefkowitz Horowitz digs into this question and spins a wonderfully appealing tale of how Provence became Provence The region had previously been regarded as a backwater and known only for its Roman ruins but in the postwar era authors chefs food writers visual artists purveyors of goods and travel magazines crafted a new alluring image for Provence Soon the travel industry learned that there were many ways to roam and some even involved sitting still The promise of longer stays where one cooked fresh food from storied outdoor markets became desirable as American travelers sought new tastes and unadulterated ingredients Even as she revels in its atmospheric cultural and culinary attractions Horowitz demystifies Provence and the perpetuation of its image today Guiding readers through books magazines and cookbooks she takes us on a tour of Provence pitched as a new Eden and she dives into the records of a wide range of visual media paintings
