recognition in the distant worlds traversed by L. Engle and virtuous transgression in recent Anglo American children's literature and in the emerging children's literature of 1960s Taiwan. Part III's essays engage in ethical criticism of arguably problematic messages about our relationship to nonhuman animals about war and about prejudice. The final section considers how we respond to children's literature with ethically focused essays exploring a range of ways in which child readers and adult authorities react to children's literature. Even as children's literature has evolved in opposition to its origins in didactic Sunday school tracts and moralizing fables, authors, parents, librarians, and scholars remain sensitive to the values conveyed to children through the texts they choose to share with them.

Handbook of Research on Teaching Diverse Youth

Literature to Pre-Service Professionals Hartsfield, Danielle E., 2021-06-25 Perspectives and identity are typically reinforced at a young age, giving teachers the responsibility of selecting reading material that could potentially change how the child sees the world. This is the importance of sharing diverse literature with today's children and young adults, which introduces them to texts that deal with religion, gender, identities, racial identities, socioeconomic conditions, etc. Teachers and librarians play significant roles in placing diverse books in the hands of young readers. However, to achieve the goal of increasing young people's access to diverse books, educators and librarians must receive quality instruction on this topic within their university preparation programs. The Handbook of Research on Teaching Diverse Youth Literature to Pre-Service Professionals is a comprehensive reference source that curates promising practices that teachers and librarians are currently applying to prepare aspiring teachers and librarians for sharing and teaching diverse youth literature. Given the importance of sharing diverse books with today's young people, university educators must be aware of engaging and effective methods for teaching diverse literature to pre-service teachers and librarians. Covering topics such as syllabus development, diversity, social justice, and activity planning, this text is essential for university-level teacher educators, library educators who prepare pre-service teachers and librarians, university educators, faculty adjunct instructors, researchers, and students.
