Party Politics And Local Government:

Party Politics and Local Government Colin Copus, 2004-08-21 This book is an explanation of the long standing interrelationship between local government and political parties It examines and outlines the differences between the political party outside the council and the political party group of councillors within the council It explores the impact that the party groups have on the conduct of council business decision making and policy development and the impact they have on local representation It addresses two questions that are fundamental to local representative democracy who or what is it that the councillor represents and are councillors elected to govern or to serve

The Politics of Local Government

Gerry Stoker, 1988-07-08 The last decade has seen an increase in political and ideological conflict in local government This book analyzes this context and examines both the operation of elected local authorities and the rise of a non directly elected local government

Party Politics in Local Government Geoffrey D. M. Block, 1962

Intra-Party Politics and Coalition

Governments Daniela Giannetti, Kenneth Benoit, 2008-10-27 This book explores how intra party politics affects government formation and termination in parliamentary systems where the norm is the formation of coalition governments The authors look beyond party cohesion and discipline in parliamentary democracies to take a broader view assuming a diversity of preferences among party members and then exploring the incentives that give rise to coordinated party behaviour at the electoral legislative and executive levels The chapters in this book share a common analytical framework confronting theoretical models of government formation with empirical data some drawn from cross national analyses and others from theoretically structured case studies A distinctive feature of the book is that it explores the impact of intra party politics at different levels of government national local and EU This offers the opportunity to investigate existing theories of coalition formation in new political settings Finally the book offers a range of innovative methods for investigating intra party politics which for example creates a need to estimate the policy positions of individual politicians inside political parties This book will be of interest to political scientists especially scholars involved in research on political parties parliamentary systems coalition formation and legislative behaviour multilevel governance European and EU politics

Alberta's Local

Governments: Politics and Democracy Jack Masson, Edward C. LeSage, 1994 During the last decade Alberta municipalities have endured hardships they have not faced since the Great Depression Changes in the province's political structures appear to have been made primarily to transfer a greater share of the costs of local government to the municipalities yet surprisingly few municipal politicians have resisted the province's financial policies

Local Government in England

Colin Copus, Mark Roberts, Rachel Wall, 2017-03-15 The book explores the claim that English local government exists in one of the most centralised relationships with national government Such a position fundamentally undermines any notion of local self government and makes the term government in local government a misnomer The book will examine how the erosion of the autonomy powers roles functions and responsibilities of English local government came about the arguments of centralisers

and localisers to support their view of the constitutional status of local government and its overall role in the government of England The book offers an antidote to the onward march of centralisation by offering a new vision of local government which emphasises both local and government Political Parties and Coalitions in European Local Government Colin Mellors, Bert Pijnenburg, 2025-09-12 Political Parties and Coalitions in European Local Government 1989 brings together two separate fields in political science the study of coalitions and the study of local government It brings an array of new insights into the landscapes of national government and party politics at local level and in doing so brings into focus the workings of European government for the English reader Explaining Local Government J. A. Chandler, 2007 In this work J A Chandler explains how local government in Britain has evolved from a structure that appeared to be relatively free from central government interference to as John Prescott observes one of the most centralised systems of government in the Western world **From Party Politics to Personalized Politics?** Gideon Rahat, Ofer Kenig, 2018-06-04 What do Beppe Grillo Silvio Berlusconi Emmanuel Macron and also Donald Trump have in common They are prime examples of the personalization of politics and the decline of political parties This volume systematically examines these two prominent developments in contemporary democratic politics and the relationship between them It presents a cross national comparative comparison that covers around 50 years in 26 democracies through the use of more than 20 indicators It offers the most comprehensive comparative cross national estimation of the variance in the levels and patterns of party change and political personalization among countries to date using existing works as well injecting fresh cross national comparative data In the case of party change it offers an analysis that extends beyond the dichotomous debate of party decline versus party adaptation In the matter of political personalization the emphasis on variance helps in bridging between the high theoretical expectations and disappointing empirical findings As for the theoretically sound linkage between the two phenomena not only is this the first study to comprise a comprehensive cross national examination but it also proposes a more nuanced understanding of this relationship Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow John and Rebecca Moores Professor of Political Science University of Houston **Local Government in India** Pradeep Sachdeva, 2011 Local Government in India provides an insight into the system of urban local governance in India and traces its evolution since independence Urban governments are the organs for promoting grass root democracy and providing not only civic services for the welfare of the local people but also for carrying out the task of urban development and planning This book tries to analyze their role and existence in the face of rapid urbanization population

Hill, 2024-12-06 Originally published in 1974 this book filled a gap in its examination and evaluation of the way in which English local government forms a part of democratic society Modern society is complex and although local government brings many benefits to ordinary people it also circumscribes what they may do particularly with regard to planning education housing conservation and the environment Local government is judged by its ability to raise the necessary finance set its priorities and successfully provide services for local people It is also judged by those democratic criteria of justice impartiality fairness and openness that are a mark of democratic society in all its aspects This book examines these issues in the light of the reformed local government of the late 20th Century and traces the roots of the present system into the ideals and achievements of the great Victorian

reformers **Violence, Elections, and Party Politics** Mary Beth Altier, Susanne Martin, Leonard B. Weinberg, 2016-03-16
 As the United States and the countries of Western Europe have sought to promote democratic rule in those parts of the world that have not enjoyed the blessings of liberty they have failed to consider an important factor Competitive elections the sine qua non of democratic government often gives rise to serious bouts of political violence mob riots inter party fighting and internal wars The essays collected in this volume evaluate the relationship between terrorist activity and electoral politics Do democratic elections themselves undermine the development and stability of the democratic institutions the United States and its allies seek to promote Under what conditions are democratic elections effective at bringing terrorist organizations into the political process thereby quelling violence When and how might terrorist organizations use democratic elections to foment violence This book was published as a special issue of Terrorism and Political Violence **Public Relations in Local Government** Tom F. Richardson, 2016-06-06 Public Relations in Local Government discusses various topics concerning public relations in local government The book is comprised of 16 chapters that tackle various aspects of public relations such as technology marketing and contacts The coverage of the book includes the nature of public relations information dissemination and division of responsibility The text also covers the tools and methods utilized in public relations such as establishing personal contacts and using various forms of media The book will be of great interest to government employees who are in the public relations department **British National Party** Nigel Copsey, Graham Macklin, 2013-07-03 This book examines the recent development of the far right in Britain with a particular focus on the British National Party BNP the most electorally successful far right party in British history It brings fresh perspectives to our understanding of the BNP in order to make a significant contribution to scholarly debate on the nature of far right extremism both nationally and internationally The book is significantly different from other literature in the field primarily because of its focus on three important yet underdeveloped themes which are reflected in the structure of the book itself These are the ideological and cultural politics of contemporary BNP responses to the BNP the BNP's place within the contemporary domestic and international far right milieu Written by an outstanding line up of renowned experts in this field this is essential reading for all those with an interest in British politics fascism political parties race relations and extremism **Rescaling municipal governance amidst political competition in Gauteng: Sedibeng's proposed re-demarcation** Themba Mkhize, 2021-08-27 In 2011 the Gauteng Provincial Government proposed that Sedibeng a Category C district municipality located in the province should be restructured Although the original proposal had anticipated that this would happen after the 2016 local elections the issue remains unresolved due largely to fierce party political opposition and vociferous protests against it on the ground This Occasional Paper examines the dynamics particularities peculiarities and challenges of re-demarcating the Gauteng City Region While informed by technical reasons the arguments for and against the merger have tended to gravitate more towards party political rationales for why the re-demarcation should or should not go ahead

Although these debates raise important merits and demerits for the proposal they are difficult to disentangle from the interests of those whose fortunes would be changed by restructuring In this environment municipal demarcation risks being held hostage by party politics with stakeholders such as political parties using any means at their disposal to have things go their way including by scapegoating the Municipal Demarcation Board MDB The case of Sedibeng presents important lessons about attempts to make post transition local government and mechanisms for determining its configuration work for Gauteng It also highlights the need for strengthening and revising demarcation related legislation How can we make sure that the MDB functions effectively with respect to its primary goals *American Parties and Elections* Edward McChesney Sait, 1927
