

The background of the book cover is a photograph of two young children sitting on a wooden dock. The child on the left is wearing a pink baseball cap and a floral shirt, and the child on the right has blonde hair in a ponytail and is also wearing a floral shirt. They are both looking down at a book or paper they are holding together. The dock is made of wooden planks and is situated next to a calm body of water, possibly a pond or a slow-moving stream. The water reflects the surrounding green trees and foliage. The overall scene is peaceful and natural, emphasizing the theme of the book.

## **Partnering With Nature Partnering With Nature:**

*Partnering with Nature* Catriona MacGregor, 2010-04-13 Partnering with Nature is a simple book with a powerful message our connections to the natural environment and ultimately to ourselves are crucial in today's fragmented world. As each successive generation moves farther away from nature, the growing disconnect is expressed through physical as well as mental stress from depression and fatigue in adults to attention disorders and obesity in children. The way we relate to nature helps define our place within it and by awakening this natural yet dormant connection to the environment around us, we can move beyond solitary stewardship and into partnership. In *Partnering with Nature*, Catriona MacGregor weaves together scientific and historical wisdom, spiritual insights and inspiring stories that illuminate the energies that link humans, animals and the natural world. Through observation and conscious practice, we can open up to the power of nature to transform our lives, uplift our spirits and even to direct our bodies to a healthier potential. For everyone who has a sense of something missing, who wishes to make a difference in their world, who yearns to reclaim their sense of wonder and awe, or who struggles with their health or emotional balance, nature speaks to all who will listen. *The Transitory Nature of Parent, Sibling and Romantic Partner Relationships in Emerging Adulthood* Avidan Milevsky, Kristie Thudium, Jillian Guldin, 2014-05-06 This volume provides a theoretical and empirical review of the societal and educational factors that contribute to emerging adulthood. This developmental stage occurs between adolescence and adulthood and can be regarded as a relatively new phase in research on development. The book specifically examines how these societal and educational changes have contributed to the transitory nature of emerging adulthood and the resulting consequences. Particular attention is paid to the transitory nature of this stage of life primarily in regard to relationship dynamics. The book examines the nature of the parental relationship during emerging adulthood. It uses qualitative data from a recent phenomenological study to illustrate unique aspects of the parental relationship during this stage and discusses the findings in the context of existing empirical work. The book provides a holistic and thorough examination of emerging adulthood in general and the parental dynamics present during this stage in particular. HC 858 - Local Nature Partnerships Great Britain. Parliament. House of Commons. Environmental Audit Committee, 2015 Where LNPs have been successful, they have demonstrated the benefits of local engagement harnessing enthusiasm in finding solutions to local priorities. Where they have not been successful, the solution is not to impose additional tasks but to re-energise the unfocussed local commitment. Many LNPs are starved of funding and resources, meaning much of the good work in getting them up and running is being undone. The whole country, urban as well as rural, needs the natural environment protections that LNPs can provide. Rather than leave underperforming LNPs to wither away, the next Government should urgently review LNPs and their funding and re-energise the initiative. **Compilation of the Tennessee Statutes of a General Public Nature, in Force on the First Day of January, 1919** Tennessee, 1919 *Reinventing Eden* Carolyn Merchant, 2013-03-12 This revised edition of Carolyn Merchant's classic

Land Use, Nature Conservation and the Stability of Rainforest Margins in Southeast Asia Gerhard Gerold, Michael Fremerey, Edi Guhardja, 2004-01-12

The stability of rainforest margins has been identified as a critical factor in the preservation of tropical forests e.g. in Southeast Asia one of the world's most extensive rainforest regions. This book contains a selection of contributions presented at an international symposium on Land Use, Nature Conservation and the Stability of Rainforest Margins in Southeast Asia in Bogor, Indonesia, October 2002. It highlights the critical issue of rainforest preservation from an interdisciplinary perspective comprising input from scientists in socio-economic, biological, geographical, agrarian and forestry disciplines. The contributions are based on recent empirical research with a special focus on Indonesia, a country with one of the highest and at the same time most endangered stocks of rainforest resources on earth.

**Science and Nature** Carolyn Merchant, 2017-11-07

Science and Nature brings together the work and insights of historian Carolyn Merchant on the history of science, environmental history and ethics. The book explores her ideas about the interconnections among science, women, nature and history as they have emerged over her academic lifetime. Focusing on topics such as *The Death of Nature*, the Scientific Revolution, women in the history of science and environment and partnership ethics, it synthesizes her writings and sets out a vision for the twenty-first century.
