Partnering With Nature The Wild Path To Reconnecting With The Earth:

Partnering with Nature Catriona MacGregor, 2010-04-13 Partnering with Nature is a simple book with a powerful message our connections to the natural environment and ultimately to ourselves are crucial in today's fragmented world. As each successive generation moves farther away from nature, the growing disconnect is expressed through physical as well as mental stress from depression and fatigue in adults to attention disorders and obesity in children. The way we relate to nature helps define our place within it and by awakening this natural yet dormant connection to the environment around us, we can move beyond solitary stewardship and into partnership. In *Partnering with Nature*, Catriona MacGregor weaves together scientific and historical wisdom, spiritual insights and inspiring stories that illuminate the energies that link humans, animals and the natural world. Through observation and conscious practice, we can open up to the power of nature to transform our lives, uplift our spirits and even to direct our bodies to a healthier potential. For everyone who has a sense of something missing, who wishes to make a difference in their world, who yearns to reclaim their sense of wonder and awe, or who struggles with their health or emotional balance, nature speaks to all who will listen. **The Nature Principle** Richard Louv, 2012-04-24

For many of us, thinking about the future conjures up images of Cormac McCarthy's *The Road*, a post-apocalyptic dystopia stripped of nature. Richard Louv, author of the landmark bestseller *Last Child in the Woods*, urges us to change our vision of the future, suggesting that if we reconceive environmentalism and sustainability, they will evolve into a larger movement that will touch every part of society. This New Nature Movement taps into the restorative powers of the natural world to boost mental acuity and creativity, promote health and wellness, build smarter and more sustainable businesses, communities and economies, and ultimately strengthen human bonds. Supported by groundbreaking research, anecdotal evidence and compelling personal stories, Louv offers renewed optimism while challenging us to rethink the way we live. [Disney, Culture, and Curriculum](#) Jennifer A. Sandlin, Julie C. Garlen, 2016-03-10

A presence for decades in individuals' everyday life, practices and identity formation, the Walt Disney Company has more recently also become an influential element within the big curriculum of public and private spaces outside of yet in proximity to formal educational institutions. *Disney Culture and Curriculum* explores the myriad ways that Disney's curricula and pedagogies manifest in public consciousness, cultural discourses and the education system. Examining Disney's historical development and contemporary manifestations, this book critiques and deconstructs its products and perspectives while providing insight into Disney's operations within popular culture and everyday life in the United States and beyond. The contributors engage with Disney's curricula and pedagogies in a variety of ways through critical analysis of Disney films, theme parks and planned communities, how Disney has been taught and resisted both in and beyond schools, ways in which fans and consumers develop and negotiate their identities with their engagement with Disney, and how race, class, gender, sexuality and consumerism are constructed through Disney content. Incisive, comprehensive and highly interdisciplinary, *Disney Culture and Curriculum*

extends the discussion of popular culture as curriculum and pedagogy into new avenues by focusing on the affective and ontological aspects of identity development as well as the commodification of social and cultural identities experiences and subjectivities

Kapporos Then and Now: Toward a More Compassionate Tradition Yonassan Gershom,2015-06-03 Every year right before Yom Kippur the Day of Atonement there is a cultural war in certain Jewish neighborhoods over a ceremony called Kapporos in which a chicken is slaughtered just before the holy day The animal rights people show up claiming Meat is murder while the Orthodox and Hasidic Jews who practice this ceremony accuse the activists of antisemitism and violating their freedom of religion Epithets fly and confrontations occur across the barricades but nobody is really listening to each other Rabbi Gershom seeks to build a bridge of understanding between these two warring camps On the one hand he opposes using live chickens as Kapporos and like many other religious Jews before him advocates giving money to charity instead But on the other hand he is himself a Hasid who understands and believes in the kabbalistic principle of raising holy sparks so central to the ceremony In fact he says it is that very mysticism that has led him not to use chickens for the ritual
