Landmark Cases in Intellectual Property Law Jose Bellido, 2017-09-07 This volume explores the nature of intellectual property law by looking at particular disputes All the cases gathered here aim to show the versatile and unstable character of a discipline still searching for landmarks Each contribution offers an opportunity to raise questions about the narratives that have shaped the discipline throughout its short but profound history. The volume begins by revisiting patent litigation to consider the impact of the Statute of Monopolies 1624 It continues looking at different controversies to describe how the existence of an author's right in literary property was a plausible basis for legal argument even though no statute expressly mentioned authors rights before the Statute of Anne 1710 The collection also explores different moments of historical significance for intellectual property law the first trade mark injunctions the difficulties the law faced when protecting maps and the origins of originality in copyright law Similarly it considers the different ways of interpreting patent claims in the late nineteenth and twentieth century the impact of seminal cases on passing off and the law of confidentiality and more generally the construction of intellectual property law and its branches in their interaction with new technologies and marketing developments It is essential reading for anyone interested in the development of intellectual property law The Roger Kahn Reader Roger Kahn, 2018-06-01 A rich collection of fifty one stories and articles by Roger Kahn Written across six decades this volume shows Kahn's ability to describe the athletes he profiled as they truly were in a manner neither compromised nor cruel but always authentic and up close Bookseller and the Stationery Trades' Journal ,1904 The Bookseller, 1904 Passing Rihan Yeh, 2018 Passing Two Publics in a Mexican Border City is an ethnography of the public sphere in Tijuana based on intensive fieldwork in 2006 and 2007 and numerous subsequent brief visits Its central contribution is to develop an ethnographic method for apprehending how the border marks collective subjectivities in ways that illuminate the basic impasses of publicness in general She examines major communicative genres such as print news street demonstrations internet forums and popular ballads as well as a variety of minor genres family discussions thank you notes at religious shrines police encounters workplace banters and personal interview The question of collective subjectivity that she traces through all these examples is particularly live politically and socially at the border where US legal categories forcefully shape the logics of class exclusion and thus national membership and democratic possibility that are general in Mexico The Publishers' Circular and Booksellers' Record of British and Foreign Literature, 1904 Bookseller ,1904 Vols for 1871 76 1913 14 include an extra number The Christmas bookseller separately paged and not included in the consecutive numbering of the regular series McCarthy's Desk Encyclopedia of Intellectual Property J.
