Paul Craig Roberts:

Supply-side Economic , **How America Was Lost** Paul Craig Roberts,2014-03-01 Even as the view of America as a rogue state consolidates abroad Americans appear largely bystanders at the spectacle of their government running amok People forget the myriad instances of their government s flouting of the Constitution and international legal norms if ever they were aware of them in the first place accepting to live in the increasingly pernicious new normal with little protest This remarkable anthology of columns documents and reminds us of the extraordinary developments that in their accumulation have led to the destruction of accountable and moral government in the US Few American commentators have cut more clearly through the deepening deceit hypocrisy and outright criminality that has infested official Washington since 9 11 than Paul Craig Roberts His scathing critique sheds much needed light on the country s impending nightmare economic collapse internal repression ongoing wars and rising rejection by friends and foes alike *How America Was Lost* marks Roberts as one of the most prescient and courageous moral commentators in America today *The Neoconservative Threat to World Order* Paul Craig Roberts,2015-09-30 This stellar collection of Paul Craig Roberts essays dating from February 2014 explores the extreme dangers in Washington s imposition of vassalage on other countries and Washington s resurrection of distrust among nuclear powers the very distrust that Reagan and Gorbachev worked to eliminate Roberts explains how the collapse of the Soviet Union in 1991 removed the only check on Washington s ability to act unilaterally The United States position as the sole remaining superpower led to the euphoric proclamation of the end of history and to Washington s presumption of the victory of American democratic capitalism over all other systems The neoconservatives became entrenched in successive American administrations both Republican and Democratic Their ideology of US global hegemony the doctrine that no other power will be allowed to arise that could constrain US unilateral action has become a foundational premise of US foreign policy and has led to reckless intervention in Ukraine and an irresponsible assault on Russian national interest In pursuit of hegemony Washington has expanded NATO to Russia s border instigated color revolutions in former constituent parts of the Soviet Union announced a pivot to Asia to encircle China orchestrated a coup in Ukraine demonized Putin and imposed warlike sanctions against Russia These reckless and irresponsible actions have brought back the risk of nuclear war This succession of events has impelled Roberts following an illustrious career in government journalism and academia to perform the clarifying function abandoned by the mainstream media of examining the agendas at work and the risks entailed His insightful commentary is followed all over the world In February 2015 Roberts was invited to address a major International conference in Moscow hosted by Institutes of the Russian Academy of Sciences and Moscow State Institute of International Relations where he delivered the address which is the title of this book In Roberts assessment Washington s drive for hegemony is not only unnecessary but unrealistic and filled with peril for Americans and the world at large This book is a call to awareness that ignorance and propaganda are leading the world toward unspeakable disaster *Alienation and the*

Soviet Economy Paul Craig Roberts, 1990 The first edition of this seminal book in 1971 pointed out the fatal defects of Marxist theory that would lead to the collapse of the Soviet economy In this revised edition Paul Craig Roberts examines how reality triumphed over Marxist theory and the implications for the future of Russia and eastern Europe In 1971 Roberts created a firestorm among professional Sovietologists by proclaiming that the economies of the USSR and its East Bloc allies were doomed because their planned economies were in reality anything but planned Expanding on his original ideas Roberts demonstrates in this book the fatal shortcomings of Marxist economies ranging from misallocation of resources to ersatz capitalistic concepts grafted onto a system that calls for production without regard to profit Roberts argues that the economies of the nations emerging from the USSR's collapse must grasp the profound truths in this book if they are to become viable

"Supply Side" Economic Theories Paul Craig Roberts, 1981

Meltdown Paul Craig Roberts, Katharine LaFollette, 1990-09-01 This book describes the irrational life of Soviet producers the monstrous deprivation of Soviet consumers and the ideological origins of the Soviet economy that have resulted in a system unable to bear the weight of being a superpower The authors spell out the challenges that Gorbachev and his successors face The penultimate chapter deals with the privatization of the Soviet economy In the last chapter they document the failure of Western experts and pundits to create a true picture of the Soviet system

How the Economy Was Lost Paul Craig Roberts, 2010-03-01 An outline of how the economy works by an insider turned outsider Roberts breaks down how our recent recession came about how deep it will get and how we can avoid one in the future

The World Disorder Luiz Alberto Moniz Bandeira, 2019-01-23 This book offers a historical analysis of the geopolitical and geoeconomic competition between the USA and Russia which has recently heated up again due to the eastward expansion of NATO The analysis departs from an exploration of the USA's foreign policy and geopolitical ambitions by illustrating the influence of Wall Street and the military industrial complex on the country's political decision making The historical review covers a wide timespan from the Second World War and the birth of NATO to the wars against Iraq and Afghanistan to the rebellions that erupted in Eurasia Northern Africa and the Middle East in the 2010s as well as the wars in the Ukraine and in Syria By doing so it reveals the influence of US neocons the US intelligence services and the military complex on the Arab Spring the Color Revolutions and the armed conflicts in Ukraine and Syria Ultimately the book depicts a new era of worldwide instability and disorder dominated by violence and arbitrariness

Hayek's Bastards Quinn Slobodian, 2025-04-15 How neoliberals turned to nature to defend inequality after the end of the Cold War Neoliberals should have seen the end of the Cold War as a total victory but they didn't Instead they saw the chameleon of communism changing colors from red to green The poison of civil rights feminism and environmentalism ran through the veins of the body politic and they needed an antidote To defy demands for equality many neoliberals turned to nature Race intelligence territory and precious metal would be bulwarks against progressive politics Reading and misreading the writings of their sages Friedrich Hayek and Ludwig von Mises they articulated a philosophy of

three hardwired human nature hard borders and hard money and forged the alliances with racial psychologists neoconfederates ethnonationalists and goldbugs that would become known as the alt right Following Hayek's bastards from Murray Rothbard to Charles Murray to Javier Milei we find that key strains of the Far Right emerged within the neoliberal intellectual movement not against it What has been reported as an ideological backlash against neoliberal globalization in recent years is often more of a frontlash This history of ideas shows us that the reported clash of opposites is more like a family feud

End of Oblivion: The Great Deceit and Why We Need to Reclaim Our Spiritual Evolution Aleksandar Ostojic, 2019-08-08 End of Oblivion The Great Deceit and Why We Need to Reclaim Our Spiritual Evolution is an informal overview of the current state of humanity and the world and delves into how our perceptions of reality have been drastically distorted to the point where the majority of the population cannot perceive distortion any longer Deceit is present in every area of our lives but beneath these secular manifestations deeper metaphysical undercurrents are interlacing with our spiritual evolutionary direction Armed with a wealth of factual evidence as well as personal observations the author puts forth a compelling explanation as to who is really behind this great deceit and offers choices on how to break free for those curious enough to ponder It is time to remove our blindfolds to consciously choose our path and to reclaim the true purpose of our being our spiritual evolution The book reflects on the Law of One material

The Transformation of the World Economy R. Solomon, 1999-06-02 This revised extended and updated edition of Robert Solomon's well received *The Transformation of the World Economy* assesses the remarkable changes in the world economy in recent decades The impact of marketization of globalization in both industry and finance and of increased policy coordination as a response at regional and global level are analysed The policy impact of changing philosophies of economic policy in the US Britain Western Europe the USSR Russia and Eastern Europe China Asia the Middle East Africa and Latin America are analysed

The Tyranny of Good Intentions Paul Craig Roberts, Lawrence M. Stratton, 2008-03-25 In this updated and expanded edition of *The Tyranny of Good Intentions* Paul Craig Roberts and Lawrence M Stratton renew their valiant campaign to reclaim that which is rightly ours liberty protected by the rule of law They show how crusading legislators and unfair prosecutors are remaking American law into a weapon wielded by the government and how the erosion of the legal principles we hold dear such as habeas corpus and the prohibition against self incrimination is destroying the presumption of innocence A new introduction and new chapters cover recent marquee cases and make this provocative book essential reading for anyone who cringes at the thought of unbridled state power and sees our civil liberties slowly slipping away in the name of the War on Drugs the War on Crime and the War on Terror

The Failure of Laissez Faire Capitalism and Economic Dissolution of the West Paul Craig Roberts, This very readable book by a distinguished economist Wall Street Journal editor and Assistant Secretary of the US Treasury is a major challenge both to economic theory and to media explanations of the ongoing 21st century economic crisis The one percent have pulled off an economic and political revolution By offshoring

manufacturing and professional service jobs US corporations destroyed the growth of consumer income the basis of the US economy leaving the bulk of the population mired in debt Deregulation was used to concentrate income and wealth in fewer hands and financial firms in corporations too big to fail removing financial corporations from market discipline and forcing taxpayers in the US and Europe to cover bankster losses Environmental destruction has accelerated as economists refuse to count the exhaustion of nature's resources as a cost and as corporations impose the cost of their activities on the environment and on third parties who do not share in the profits This is the book to read for those who want to understand the mistakes that are bringing the West to its knees

Political Assassins, Terrorists and Related Conspiracies in American History Scott P. Johnson, 2020-11-11 Political assassinations and terrorism have both outraged and fascinated the public throughout American history particularly in the modern era Providing biographical summaries of more than 100 assassins and terrorists this book aims at a more complete understanding of the motivations behind violent extremism The lives of the subjects are analyzed with a focus on psychological and ideological factors along with details of investigations and criminal trials Conspiracy theories are evaluated for credibility Social media features prominently in explaining political violence by members of extremist groups in the 21st century including radical Islamic terrorists anti abortion activists and white supremacists
