Migration And Mobility In The European Union The European Union Series:

Migration and Mobility in the European Union Andrew Geddes, Leila Hadj-Abdou, Leiza Brumat, 2020-04-22

International migration and mobility whether from outside the EU or in the form of free movement by EU citizens are controversial and potentially divisive issues that are and will remain at the top of the EU's political agenda. This fully revised and updated text analyses the complex and often controversial nature of policymaking in this fast developing field and brings the discussion up to date as the ramifications of the so called migration crisis continue to unfold. It offers an exploration of the dynamics of migration and mobility in the EU including different types of migration, the EU's policy framework within which national policies are now located and considers the widespread notion and public perception of policy failure in this field. Unique in its portrayal of policy responses to migration in Europe, this text will be essential reading for undergraduate and postgraduate students of the politics of migration, European integration and the Politics of EU as well as anyone with an interest in this fascinating policy area.

People on the Move ZSOLT. BATSAIKHAN DARVAS (UURIINTUYA. GONCALVES RAPOSO, INES.), Uuriintuya Batsaikhan, Inês Gonçalves Raposo, 2018-03-06 Immigration tops the list of challenges of greatest concern to European Union citizens. Such movement of people poses major challenges for policymakers. EU countries must integrate immigrants while managing often distorted public perceptions of immigration. This Blueprint offers an in depth study that contributes to the evidence base.

The European Union Returns Directive and its Compatibility with International Human Rights Law Izabella Majcher, 2019-11-26 The book undertakes a thorough human rights assessment of the EU Returns Directive. The overarching human rights framework which circumscribes states' prerogatives in the context of expulsion builds upon obligations derived from the principle of non refoulement, the right to life, respect for family and private life, effective remedy, basic social rights, the prohibition of torture and ill treatment and protection against arbitrary detention and collective expulsion. Based on this assessment, Majcher explores several protection gaps in the EU return policy which may result in violations of migrants' rights and highlights how the provisions of the Directive should be implemented in line with member states' human rights obligations. Informed by this assessment, the book discusses amendments to the Directive proposed by the European Commission in September 2018. By examining the European Union EU Returns Directive in the light of international and European human rights law, Izabella Majcher thoroughly explores and analyses the requirements the EU member states' authorities must guarantee migrants in an irregular situation when they adopt and implement return decisions, entry bans, pre removal detention and removal.

European Citizenship and Identity Outside of the European Union Agnieszka Weinara,2019-06-27 This book critically engages with the concept of European identity and citizenship and the role of the European Union in diaspora membership and emigration policies It presents original research on European governance of emigration and citizenship and considers European integration in a global context It questions whether there can be a European diaspora outside the European Union if European governance of emigration is possible and whether the EU can or should govern its diasporas in the global era By engaging with concepts of European citizenship diaspora and identity the author examines the weak meaning of Europe for EU nationals living abroad and finds that European public spaces present and sustained within the European Union territory are largely not exported outside of it Equal treatment and equal rights become empty concepts for Europeans leaving the European Union as they lose their European citizenship This book will be of key interest to scholars and students of European Union politics European studies migration studies American and Canadian studies and the sociology of migration

The European Union's Evolving External Engagement Chad Damro,Sieglinde Gstöhl,Simon Schunz,2017-11-07 In recent decades the external action of the European Union EU has been undergoing considerable change An expansion of the EU s external policy portfolio can be observed in many areas as previous policies for internal purposes such as competition energy the environment justice and home affairs or monetary governance but also gender science culture or higher education have developed external dimensions This book addresses the EU s potential to become a more joined up global actor in its external engagement It uses a single and innovative analytical framework to examine three clusters of policies EU internal sectoral and cross cutting policies with long standing external engagement those which have been undergoing considerable change and originally internal policies whose external dimensions are comparatively more recent It identifies key explanatory factors for the emergence of certain forms of EU external engagement and identifies patterns of the evolving relations between EU internal and external sectoral policies As such the book examines and assesses exciting new empirical and theoretical research avenues into European integration studies and offers insights into the extent to which the EU may be considered a

rule transfer to MENA states the interests underwriting these policies and the complex dynamics marking the interaction between the two sides over a twenty year period 1995 2015 It shows that within a system of structurally asymmetric economic relations from which Europe and MENA elites benefit the most single MENA governments have been co opted into the management of border and migration control where they act as Europe s gatekeepers Combined with specific policy choices of MENA governments Europe s selective expansion of its rules practices and disaggregated borders have in fact contributed to rising socio economic inequalities and the strengthening of authoritarian rule in the southern neighbourhood with Europe tacitly tolerating serious violations of the rights of refugees and migrants at its fringes Challenging the self proclaimed benevolent nature of European policies and the notion of Fortress Europe alike the findings of this study contribute to broader debates on power dependence and interdependence in the discipline of International Relations
