use *ICEL2015-10th International Conference on e-Learning*. Dr. Carlton Watson, 2015-06-12. These proceedings represent the work of researchers participating in the 10th International Conference on e-Learning (ICEL 2015), which is being hosted this year by the College of the Bahamas, Nassau, on the 25-26 June 2015. ICEL is a recognized event on the International research conferences calendar and provides a valuable platform for individuals to present their research findings, display their work in progress, and discuss conceptual advances in the area of e-Learning. It provides an important opportunity for researchers and managers to come together with peers to share their experiences of using the varied and expanding range of e-Learning available to them. With an initial submission of 91 abstracts, after the double-blind peer review process, there are 41 academic research papers and 2 PhD papers published in these Conference Proceedings. These papers come from some many different countries, including Australia, Belgium, Brazil, Canada, China, Germany, Greece, Hong Kong, Malaysia, Portugal, Republic of Macedonia, Romania, Slovakia, South Africa, Sweden, United Arab Emirates, UK, and the USA. A selection of the best papers, those agreed by a panel of reviewers and the editor, will be published in a conference edition of *EJEL*, the Electronic Journal of e-Learning ([www.ejel.com](http://www.ejel.com)). These will be chosen for their quality of writing and relevance to the Journal's objective of publishing papers that offer new insights or practical help into the application of e-Learning.

**Lives** Malik, Shaveta, Bansal, Rohit, Tyagi, Amit Kumar, 2021-11-26 Digital technology covers digital information in every form. The world lives in an information age in which massive amounts of data are being produced to improve our daily lives. This intelligent digital network incorporates interconnected people, robots, gadgets, content, and services all determined by digital transformation. The role of digital technologies in children's, adolescent's, and young adult's lives is significantly increasing across the world. New and emerging devices and services promise to make their lives easier as they create new ways of connecting, creating, and relaxing. They also promise to support learning at home and school by enabling ready access to information and new and exciting pathways for young people to follow their interests. Yet alongside these conveniences come trade-offs with implications for privacy, safety, health, and well-being. **Impact and Role of Digital Technologies in Adolescent Lives** provides a deeper understanding of how digital technologies impact the lives of children, adolescents, and young adults. This includes the navigation of developmental tasks and the issues faced when utilizing these technologies. Covering topics such as adolescent stress, cyberbullying, intellectual disabilities, mental health, obesity, social media, and mindfulness practices, this text is essential for sociologists, psychologists, media analysts, technologists, academicians, researchers, students, non-government and government organizations, and professors.

**Proceedings of the 7th International Symposium on Mathematics Education and Innovation (ISMEI 2022)** Farida Nurhasanah, Russasmita Sri Padmi, 2023-08-26 This is an open access book. Numeracy has become the current buzzword in the world of Indonesian mathematics education since the Ministry of Education and Culture Research and Technology of the Republic of Indonesia Kemdikbudristek RI launched the Minimum Competency Assessment (Asesmen Kompetensi Minimum AKM) program. Together with literacy, numeracy is the minimum competency measured in the AKM. This policy is expected to foster a learning culture that places students as the main focus, as well as the shift of the paradigm from simply teaching the content to developing the students' competence in a constructive and adaptive manner. Currently, there are still many mathematics teachers who are not familiar with numeracy, which is followed by various misconceptions and misinformation. One of the efforts of the SEAMEO Regional Centre for QITEP in Mathematics or commonly called SEAQiM in supporting teacher professionalism is through the International Symposium on Mathematics Education and Innovation (ISMEI). This symposium is initiated by SEAQiM and is held every two years. This activity is a space for disseminating works and exchanging ideas about innovations in mathematics education for teachers, education staff, policy makers, and related stakeholders. In 2022, ISMEI will be held for the seventh time with the theme being **Transforming Education by Reimagining Numeracy Learning Through**. This theme invites education practitioners to transform education by reviewing mathematics learning practices to develop numeracy and discussing its potential in the future.
