**MiG Master, Second Edition** Barrett Tillman, 2014-03-15 To be equally enjoyed by professional aviators and aviation buffs with limited technical knowledge this biography brings to life the legendary aircraft that scored the highest kill ratio of any U S fighter aircraft in the Vietnam War The book is filled with authentic re creations of Crusader MiG fights and vivid descriptions of the people and events that are part of the F 8 story including John Glenn s 1957 record breaking flight across the United States in three hours and twenty three minutes As the Navy s first supersonic aircraft the Crusader holds an honored spot in carrier flying and the author shows why it is called one of the most capable versatile and long lived aircraft in naval aviation history Barrett Tillman effectively combines an exciting account of the F 8 s operational history with a detailed and authoritative explanation of its design construction and modifications Tillman recalls the years of frustration and experimentation spent in refining the aircraft and its gunnery system and then takes the reader through key actions in Vietnam where seasoned pilots handled their rambunctious steeds with scarcely a glance in the cockpit Extensive appendixes provide further details *MiG Master* Barrett Tillman, 1990

**F-8 Crusader vs MiG-17** Peter Mersky, 2014-11-20 A detailed examination of the F 8 Crusader the primary naval fighter when the conflict in Vietnam escalated in 1964 versus its opposite number in the Vietnamese Peoples Air Force VPAF the MiG 17 Revered by Naval Aviators as the last of the gunfighters due to its quartet of Colt Browning Mk 12 20 mm cannon the F 8 Crusader enjoyed great success against VPAF MiG 17s during the Rolling Thunder campaign of 1966 68 Close to 500 examples served with no fewer than 17 frontline units But the MiG 17 s unequalled low speed manoeuvrability small size and powerful cannon armament meant that the American forces didn t have it all their own way This fully illustrated book featuring photographs maps and battlescene artwork reveals the tactics that were developed by pilots on both sides to give themselves the edge in air to air dogfights allowing the reader to understand how the differing design and development doctrines played a part in combat F-8 Crusader Peter E. Davies, 2023-07-20 With specially commissioned artworks and dynamic combat ribbon diagrams this volume reveals how the last of the gunfighters as the F 8 was dubbed by its pilots prevailed against the growing MiG threat of the Vietnamese People s Air Force When the Vietnam War began the F 8 was already firmly established as a fighter and reconnaissance aircraft It entered combat as an escort for Alpha strike packages braving the anti aircraft artillery and surface to air missiles alongside the A 4 Skyhawk bombers and meeting MiGs for the first time on 3 April 1965 Although the Crusader was nicknamed last of the gunfighters its pilots employed secondary AIM 9D Sidewinder missiles in all but one of their MiG kills with guns also used as back up in three Its 20 mm guns were unreliable as they often jammed during strenuous manoeuvres although they were responsible for damaging a number of MiGs However in combat the F 8 had the highest exchange ratio kills divided by losses at six to one of any US combat aircraft involved in the Vietnam War Through the copious use of first hand accounts highly detailed battlescene artwork combat ribbon diagrams and armament views Osprey s Vietnam air war specialist Peter E

Davies charts the successful career of the F 8 Crusader over Vietnam *Naval Aviation News* ,1981-02 *The Tonkin Gulf Yacht Club* Thomas McKelvey Cleaver,2021-10-14 This book tells the full story of the US Naval air campaign during the Vietnam War between 1965 to 1975 where the US Seventh Fleet stationed off the Vietnamese coast was given the tongue in cheek nickname The Tonkin Gulf Yacht Club On August 2 1964 USS Maddox became embroiled in the infamous Gulf of Tonkin incident that lead directly to America s increased involvement in the Vietnam War Supporting the Maddox that day were four F 8E Crusaders from the USS Ticonderoga signalling the start of the US Navy s commitment to the air war over Vietnam The Tonkin Gulf Yacht Club was the nickname for the US Navy s Seventh Fleet Task Force 77 stationed off the coast of Vietnam which at various points throughout the war comprised as many as six carriers with 70 100 aircraft on board The Seventh Fleet played an essential role in supporting operations over Vietnam providing vital air support to combat troops on the ground and taking part in major operations such as Rolling Thunder and Linebacker I and II Serving with the US Seventh Fleet during this period and involved in the dramatic history of The Tonkin Gulf Yacht Club was author Tom Cleaver who was a 20 year old member of Commander Patrol Forces Seventh Fleet which had operational control over Maddox and Turner Joy His use of dramatic first hand experiences from interviews with both American and Vietnamese pilots plus official Vietnamese accounts of the war provides a balanced and personal picture of the conflict from both sides Detailing the very earliest incident in the Gulf of Tonkin through to the final evacuation of US nationals in 1975 he brings the story of US air intervention into Vietnam vividly to life **Striving for Air Superiority** Craig C. Hannah,2002 Annotation Tactical bombing Gen Jimmy Doolittle reportedly observed is breaking the milk bottle Strategic bombing is killing the cow Most nations have historically chosen between building tactical and strategic air forces rarely has a state given equal weight to both The advantages of tactical air power are obvious today as small wars and petty tyrants bedevil us but in a Cold War world split between continental superpowers strategic bombing took precedence with calamitous consequences In the 1960s the U S Air Force lacked the equipment and properly trained pilots to assure air superiority because the Tactical Air Command TAC had become little more than a handmaiden to the Strategic Air Command SAC TAC focused primarily on the interdiction of enemy bombers and virtually ignored its other responsibilities Its aircraft were designed to shoot at large lumbering bombers and not to engage in dog fights with highly maneuverable MiGs Hannah shows how a tactical air force that won a victory in World War II deteriorated into a second rate force flying aging aircraft during the early years of the Cold War recovered briefly over Korea then slid into obsolescence during the 1950s His explanation of why America s fighter aircraft did not work in Vietnam is instructive and unsettling Hannah explains how TAC struggled through the war in Vietnam to emerge in the 1970s as the best tactical air force in the world He side steps politics and inter service rivalries to focus on the nuts and bolts of tactical air power The result is a factual informative account of how an air force first loses its way then finds its mission again *A Bibliography of the United States Navy and the Conflict in Southeast Asia, 1950-1975* Edward J. *History of Acquisition in the Department of Defense, Volume 1* Elliott V. Converse, 2012-06-12 This volume is a history of the acquisition of major weapon systems by the United States armed forces from 1945 to 1960 the decade and a half that spanned the Truman and Eisenhower administrations following World War II These instruments of warfare aircraft armored vehicles artillery guided missiles naval vessels and supporting electronic systems when combined with nuclear warheads gave the postwar American military unprecedented deterrent and striking power 1 They were also enormously expensive The volume is organized chronologically with individual chapters addressing the roles of OSD the Army Navy and Air Force in two distinct periods The first roughly coinciding with President Truman s tenure covers the years from the end of World War II through the end of the Korean War in 1953 The second spans the two terms of the Eisenhower presidency from 1953 through early 1961 The year 1953 marked a natural breakpoint between the two periods The Korean War had ended President Eisenhower and his defense team began implementing the New Look a policy and strategy based on nuclear weapons which they believed would provide security and make it possible to reduce military spending The New Look s stress on nuclear weapons along with the deployment of the first operational guided missiles and the rapid advances subsequently made in nuclear and missile technology profoundly influenced acquisition in the services throughout the 1950s and the remainder of the century As used in this study the term acquisition encompasses the activities by which the United States obtains weapons and other equipment In surveying the history of acquisition between 1945 and 1960 this study discusses or refers in passing to many of the hundreds of weapon system programs initiated by the services in that period but it is not a weapons encyclopedia Instead it investigates a few major programs in depth in the belief that such detailed examination best reveals the evolution of acquisition policies organizations and processes and the various forces influencing weapons programs
