*Parts Work* Tom Holmes, 2007 This book represents the author's own variant of the IFS Internal Family Systems model as he has used it for nearly twenty years in clinical practice in the classroom with graduate students at Western Michigan University and in workshops and trainings throughout the United States and Europe Here he shares his understanding of why we think feel and act as we do and how we can move toward harmony and balance in our inner and outer lives Intro

seeded distrust of mental health treatment but now living the life she'd built in the US and desperate for relief she finds herself in a therapist's office for the first time. There she begins the real work of growing up, learning to understand her family of origin and the childhood trauma she thought she'd left hidden in the past but is still entangled in her present life. Past Tense takes us inside Sacha's therapy sessions which over time become life-changing. She begins to come to terms with her turbulent and complicated upbringing which centered around her now estranged father who had a violent relationship with her mother and would later go to prison for sexually abusing her stepsister. With her therapist's guidance she sees how these wounds and other generational trauma has been passed through her family as far back as her grandmother's experiences during The Blitz of World War Two. And she discovers modalities that powerfully shape her healing along the way including the work of Bessel Van der Kolk and Richard Schwartz Internal Family Systems. As Sacha's emotional life begins to unfreeze and she lets go of the shame she's long held she realizes that the work she's doing and her love for her family can ripple outward too, changing her relationships now and creating a new legacy for her daughter. Bravely told, visceral and profoundly moving, Past Tense is a story about our power to break free of the past once and for all and find hope.

**EMDR and Attachment-Focused Trauma Therapy for Adults** Ann E. Potter, Debra Wesselmann, 2022-09-15

Delivers a unique comprehensive treatment that galvanizes inner resources for reorganizing personality and healing childhood attachment rifts. At the heart of this innovative text is a strengths-based Attachment Focused Trauma Therapy for Adults (AFTTA) that facilitates healthier functioning and attachment patterns for adult clients. This model uses a multimodal step-by-step approach to restructuring the internal personality system to reclaim the authentic Self by providing new attachment experiences for Child parts of Self and negotiating new adult life roles. AFTTA orients all inner personality components to the present moment in which unmet childhood needs for nurturing and protection can be met within clients themselves. The book delivers a sequence of scripted protocols that accesses and activates the client's own strengths, creating an internal system of resources and using bilateral stimulation to deepen positive affective shifts. Throughout the book in Pause and Reflect sections the authors encourage therapists to think about their own attachment patterns that emerge in therapy sessions and implement activities to enhance personal self-awareness and improve attunement to clients. Short vignettes and excerpts from client sessions illustrate the model's application and end-of-chapter Points to Remember and Troubleshooting tips reinforce key concepts and underscore common therapy challenges and their solutions. The AFTTA model is useful not only for EMDR therapists but can be easily integrated with non-EMDR models of trauma therapy.

**Key Features:** Presents protocols and protocol scripts for each step of the therapy process. Uses a PAC (parent-adult-child) model to help clients understand parts of Self and normalize their inner experiences related to attachment trauma. Delivers a standalone treatment for restructuring personality, healing childhood attachment ruptures, and developing effective adult life skills. Integrates preparation and reprocessing phases of EMDR therapy. Promotes in-depth understanding of client behaviors through
