Political Corruption and Organizational Crime Elizangela Valarini,Markus Pohlmann,Subrata Mitra,2021-10-01 Level of compliance one of the most important prerequisites of good governance varies widely across countries of the Global North and the less developed Global South Acts of non compliance such as electoral irregularities dubious deals between private and public sectors questionable role of the justice systems and financial scandals though they vary greatly across countries are an omnipresent reality of contemporary life This volume has

brought together a number of case studies of such deviant behavior in political juridical and corporate fields from several countries of Asia Europe and South America within a common framework Instead of a moral approach based exclusively on the legality and illegality of the act the authors of these essays dissect non compliance analytically taking culture and context into account They argue that while criminal and corrupt dealings deserve to be exposed by all means from an ethical point of view seen from an interdisciplinary angle one needs to probe deeper into the dynamic that leads to such non compliance with the law in the first place

Funding of Political Parties and Election Campaigns ,2014-04-01 All political parties need funding to play their part in the political process yet the role of money in politics is arguably the biggest threat to democracy today This global threat knows no boundaries and is evident across all continents from huge corporate campaign donations in

the United States and drug money seeping into politics in Latin America to corruption scandals throughout Asia and Europe Attempts to tackle these challenges through political finance laws and regulations are often undermined by a lack of political will or capacity as well as poorly designed and enforced measures This Handbook addresses the problems of money in politics by analysing political finance regulations around the world and providing guidance for reform The chapters are divided by region each assesses the current state of regulations in relation to its challenges and offers a series of recommendations to tackle the identified shortcomings This contextual approach has the benefit of revealing regional trends and patterns An additional chapter focuses on gender reflecting the reality that women remain grossly under represented in politics and how the increasing influence of money in politics perpetuates this inequality *The Political Economy of Capital Market Reforms in Southeast Asia* X.
