plays in everyday life *Designing Technical Reports* John C. Mathes, Dwight W. Stevenson, 1976 ?????? Michael A. Fishbane, 2002-06-01 Written by one of the most noted scholars in the field this commentary has Hebrew text and the new JPS English translation at the top of the page and a critical line by line commentary at the bottom **The Rhetoric of Western Thought** James L. Golden, 2003 **Midrash as Literature** Jacob Neusner, 2003-04-16 *Dark Eden* David Miller, 1989 An important though little understood aspect of the response of nineteenth century Americans to nature is the widespread interest in the scenery of swamps jungles and other wastelands *Dark Eden* focuses on this developing interest in order to redefine cultural values during a transformative period of American history Professor Miller shows how for many Americans in the period around the Civil War nature came to be regarded less as a source of high moral insight and more as a sanctuary from an ever more urbanised and technological environment In the swamps and jungles of the South a whole range of writers and artists found a set of strange and exotic images by which to explore changing social realities of the times and the deep seated personal pressures that accompanied them **Approaching New Testament Texts and Contexts** Lars Hartman, 2013 Collection of texts published previously **Songs of the Troubadours and Trouveres** Samuel N. Rosenberg, Margaret Switten, Gerard Le Vot, 2013-09-05 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company *Reading Law* James W. Watts, 1999-06-01 Watts here argues that conventions of oral rhetoric were adapted to shape the literary form and contents of the Pentateuch The large scale structure stories introducing lists of laws that conclude with divine sanctions reproduces a common ancient strategy for persuasion The laws use of direct address historical motivations and frequent repetitions serve rhetorical ends and even the legal contradictions seem designed to appeal to competing constituencies The instructional speeches of God and Moses reinforce the persuasive appeal by characterizing God as a just ruler and Moses as a faithful scribe The Pentateuch was designed to persuade Persian period Judaeans that this Torah should define their identity as Israel **How Then Shall We Guide?** Jimmy Boon-Chai Tan, 2023-05-25 There has been a marked increase of interest in the art of spiritual direction in recent decades Yet in many circles especially in ecumenical and interfaith contexts it is unclear what grounds the practice of this ancient art As a tradition s practice of spiritual direction expresses its particular theology which in turn is shaped by its unique history this work explains that ecumenical spiritual direction must make and retain the tri perspective of history theology and method that faithfully reflects each tradition s distinctives as requisite for true ecumenical enrichment The importance of this trinocular vision is brought into sharp focus through a comparative study of Ignatius of Loyola and John Calvin where points of continuity and discontinuity between the Ignatian and Reformed traditions underscore the importance of this work s thesis **"I Will Walk Among You"** G. Geoffrey Harper, 2018-11-19 The well known parallels between Genesis and Leviticus invite further reflection particularly in regard to the rhetorical and theological purpose of their lexical syntactical and conceptual correspondences This volume investigates the possibility that the final form text of Leviticus is an indirect

reference to Genesis 1:3 and examines the rhetorical significance of such an allusion. The face of Pentateuch scholarship has shifted dramatically in the last forty years resulting in the questioning of many received truths and the employment of a host of new renewed and often competing methodologies by biblical scholars. This study sits at the intersection of these recent interpretive trends. Geoffrey Harper uses insights from the fields of intertextuality, rhetorical criticism, and speech act theory to create a methodological framework which he applies to three Leviticus pericopes. Chapters 11, 16, and 26 are examined in turn and for each the assessment of potential parallels at lexical, syntactical, and conceptual levels reveals a complex web of interconnected allusion to the creation and Eden narratives of Genesis 1 and 2:3. Moreover, Harper probes the theological and rhetorical import of these intertextual connections and explores how Leviticus ought to be understood in its Pentateuchal context. This comprehensive study of the connections between these two sections of the Hebrew Bible sheds light on both the literary artistry of these ancient texts and the persuasive purposes that lie behind their composition.

Corpus, Culture, Discourse Tamsin Sanderson, 2008 **Platonic Patterns** Holger Thesleff, 2009-04-07 Platonic Patterns is a reprint collection of many of Holger Thesleff's studies in Plato spanning from 1967 to 2003. It includes three books, four articles, and a new introduction by the author which sets the general outline of his interpretation of Plato. Whereas much of the scholarship on Plato has tended to operate within the frame of one language and/or a single school of thought, Thesleff constructively combines several discoveries and theories, philosophical, philological, and historical, of various scholars with his own research focusing on how Plato can be understood in his own context. The work represents small but significant breakthroughs in research on Plato from an internationally inclusive standpoint. Having previously been published mainly in Finland by scholarly societies, availability outside the Nordic countries has up until now been minimal. Thesleff employs his singular expertise of Greek language and literature to make innovative contributions to the study and interpretation of Plato. He thematically stresses the significance of the less overt elements found in Plato's dialogues, such as Plato's use of humor and his linguistic expression while taking into account the chronology and/or the intended audience. **"The Disenthralled Hosts of Freedom"** David Grant, 2021-05-03 Walt Whitman wrote three distinct editions of *Leaves of Grass* before the Civil War. During those years, he was passionately committed to the anti-slavery party, and his unpublished tract *The Eighteenth Presidency* shows that he was fully attuned to the kind of rhetoric coming out of the new Republican party. This study explores how the prophecies of the pre-war *Leaves of Grass* relate to the prophecy of this new party. It seeks not only to ground Whitman's work in this context but also to bring out features of party discourse that make it relevant to literary and cultural studies. The anti-slavery party discourse set itself the task of curing an ailing people who had grown compliant, inert, and numb; it fashioned a complete fictional world where the people could be reactivated into assuming their true role in the republic. Both as a cause and a result of this rejuvenation, they would come into their own and spread their energies over the land and over the body politic, thereby rescuing their country at the last minute from what would otherwise be the permanent

dominion of slavery Party discourse had long hinged its success on such magical transformations of the people individually and collectively and Whitman's celebrations of his nation's potential need to be seen in this context like his party Whitman calls on the people to reject their own subordination and take command of the future and redeem themselves as they also redeem the nation

The Language of History in the Renaissance Nancy S. Struever, 2015-03-08 At any time basic assumptions about language have a direct effect on the writing of history The structure of language is related to the structure of knowledge and thus to the definition of historical reality while linguistic competence gives insights into the relation of ideas and action Within the framework of these ideas and drawing on recent work in linguistic theory including that of the French structuralists Professor Struever studies the major shift in attitudes toward language and history which the Renaissance represents One of the essential innovations of Renaissance Humanism is the substitution of rhetoric for dialectic as the dominant language discipline rhetoric gives the Humanists their cohesion as a lay intellectual elite as well as the force and direction of their thought The author accepts the current trend in classical studies the rehabilitation of the Sophists which finds its source in Nietzsche and includes the work of Rostagni Untersteiner and Buccellato to reinstate rhetoric as the historical vehicle of Sophistic insight Originally published in 1970 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
