[Foreign Agents](#) Casey Michel, 2024-08-29 Foreign Policy Most Anticipated Books of 2024 A stunning investigation and indictment of the elements in United States foreign lobbying industry and the threat they pose to democracy For years one group of Americans has worked as foot soldiers for the most authoritarian regimes around the planet In the process they ve not only entrenched dictatorships and spread kleptocratic networks but they ve secretly guided U S policy without the rest of America even being aware And now journalist Casey Michel contends some of them have begun turning their sights on American democracy itself These Americans are known as foreign lobbyists and many of them spent years ushering dictatorships directly into the halls of Washington all while laundering the reputations of the most heinous repressive regimes in the process These lobbyists include figures like Ivy Lee the inventor of the public relations industry a man who whitewashed Mussolini opened doors to the Soviets and advised the Nazis on how to sway American audiences They include people like Paul Manafort who invented lobbying as we know it and who then took his talents to autocrats from Ukraine to the Philippines and then back to the White House And they now

include an increasing number of Americans elsewhere in law firms and consultancies among PR specialists and former lawmakers and even within think tanks and universities Many of these lobbyists have transformed into proxies for dictators and strongmen wherever they can be found And for years they ve escaped scrutiny In Foreign Agents Casey Michel shines a light on these foreign lobbyists and all the damage and devastation they have caused in Washington and elsewhere From Moscow to Beijing from far right nationalists to far left communists from anti American autocrats to pro Western authoritarians these foreign lobbyists have helped any illiberal anti democratic government they can find And after decades of success in installing dictator after dictator and in tilting American policy in the process some of these lobbyists have now begun trying to end America s democratic experiment once and for all      **Predict and Surveil** Sarah Brayne,2020-10-12 Predict and Surveil offers an unprecedented inside look at how police use big data and new surveillance technologies Sarah Brayne conducted years of fieldwork with the LAPD one of the largest and most technically advanced law enforcement agencies in the world to reveal the unmet promises and very real perils of police use of data driven surveillance and analytics

□□□□ □□•□□□,2025-04-01 2024 Ivy Lee LGBTQ      **Women on the Run** Danny Hayes,Jennifer L. Lawless,2016-05-03 Claims of bias against female candidates abound in American politics From superficial media coverage to gender stereotypes held by voters the conventional wisdom is that women routinely encounter a formidable series of obstacles that complicate their path to elective office Women on the Run challenges that prevailing view and argues that the declining novelty of women in politics coupled with the polarization of the Republican and Democratic parties has left little space for the sex of a candidate to influence modern campaigns The book includes in depth analyses of the 2010 and 2014 congressional elections which reveal that male and female House candidates communicate similar messages on the campaign trail receive similar coverage in the local press and garner similar evaluations from voters in their districts When they run for office male and female candidates not only perform equally well on Election Day they also face a very similar electoral landscape      Op Amp Applications Handbook Walt Jung,2005 A complete and up to date op amp reference for electronics engineers from the most famous op amp guru      **International Taxation and Capitalism** Andrés Blanco,2025-02-04 The book introduces a novel approach to international taxation through the lens of heterodox economic and social theories in particular Marxism The book argues that the radical reorganization of the international tax system that has been underway for the last few decades initiated by the OECD and furthered by the G20 and the European Union is a response to changes in the global structure of capitalism especially in terms of center periphery Through both normative analysis and empirical evidence the book shows that the global tax system emerging from these changes consolidates the regulatory and tax revenue control of the central states It also demonstrates that this consolidation and centralisation is designed to enable the dominance of multinational corporations in the global economy This path of international taxation is explained in the book through certain general concepts of Marxian economic theory such as the accumulation of capital and the tendency of the rate of profit to fall along

with other specific developments such as the unequal participation of the different regions of the world in the capitalist system and a general theory of money that incorporates elements proposed by some sectors of post Keynesianism This book is invaluable reading for anyone interested in global capitalism the financial system heterodox economics and Marxist theory

**Complex Adpositions in European Languages** Benjamin Fagard, José Pinto de Lima, Dejan Stosic, Elena Smirnova, 2020-10-26 While much attention has been devoted to simple nominal relators especially prepositions and case markers complex nominal relators have not yet been the focus of a systematic and cross linguistic study The chapters of this volume provide not only a working definition of such constructions but also a description of complex adpositions and other complex nominal relators in a variety of European languages both Indo European and non Indo European including some languages for which this phenomenon had received little attention such as Breton and Albanian Building on synchronic and diachronic corpus based investigations the authors show commonalities and specificities of these linguistic items across languages trying to explain why and how they emerged The research presented in this volume confirms the wide spread use of complex adpositions in Europe and the data reviewed in the final discussion suggests it might be the same in other parts of the world as well This book thus offers not only detailed descriptions of complex nominal relators in fifteen languages but also indications of what to look for in other languages and how to distinguish between a syntactically free sequence and a genuine complex nominal relator

**The Measurement of Information Integrity** Michael Seadle, 2021-09-01 Arguing that there never was a time when politicians did not prevaricate and when some communities did not doubt conclusions that others considered to be facts The Measurement of Information Integrity puts the post truth era in context and offers measures for integrity in the modern world Incorporating international examples from a range of disciplines this book provides the reader with tools that will help them to evaluate public statements especially ones involving the sciences and scholarship It also provides intellectual tools to those who must assess potential violations of public or academic integrity Many of these tools involve measurement mechanisms ways of putting cases into context and a recognition that few cases are simple black and white violations Demonstrating that a binary approach to judging research integrity fails to recognize the complexity of the environment Seadle highlights that even flawed discoveries may still contain value Finally the book reminds its reader that research integrity takes different forms in different disciplines and that each one needs separate consideration even if the general principles remain the same for all The Measurement of Information Integrity will help those who want to do research well as well as those who must ascertain whether results have failed to meet the standards of the community It will be of particular interest to researchers and

students engaged in the study of library and information science

**Chinese Ibsenism** Kwok-kan Tam, 2019-09-10 This book is a study of the relation between theatre art and ideology in the Chinese experimentations with new selfhood as a result of Ibsen's impact. It also explores Ibsenian notions of self, women and gender in China and provides an illuminating study of Chinese theatre as a public sphere in the dissemination of radical ideas. Ibsen is the major source of modern Chinese selfhood which carries notions of personal and social liberation and has exerted great impacts on Chinese revolutions since the beginning of the twentieth century. Ibsen's idea of the self as an individual has led to various experimentations in theatre, film and fiction to project new notions of selfhood in particular women's selfhood throughout the history of modern China. Even today China is experimenting with Ibsen's notions of gender, power, individualism and self. Kwok-kan Tam is Chair Professor of English and Dean of Humanities and Social Science at the Hang Seng University of Hong Kong. He was Head 2012-18 and is currently a member of the International Ibsen Committee, University of Oslo. He is a Foundation Fellow of the Hong Kong Academy of the Humanities. He has held teaching, research and administrative positions in various institutions including the East West Center, the Chinese University of Hong Kong and the Open University of Hong Kong. He has published numerous books and articles on Ibsen, Gao Xingjian, modern drama, Chinese film, postcolonial literature and world Englishes. His recent books include *Ibsen: Power and the Self*, *Postsocialist Experimentations in Stage Performance and Film* (2019), *The Englishized Subject: Postcolonial Writings in Hong Kong, Singapore and Malaysia* (2019) and a co-edited volume *Fate and Prognostication in the Chinese Literary Imagination* (2019).
