De zielkunde van Aristoteles Paul van Schilfgaarde, 2024-05-06 , **Johan Huizinga 1872-1972** W.R.H. Koops, 2012-12-06 From 11 to 15 December 1972 a group of historians from many European countries assembled in Groningen to commemorate the centenary of Johan Huizinga's birth in that city on 7 December 1872 The conference was not intended simply as a tribute to the memory of a great historian but also as an attempt to assess the significance of his work for the present generation It was supported by generous grants from the Stichting oud studentenfonds van 1906 at Groningen the Groninger Universiteitsfonds and the Ministry of Education and Science We are pleased to be able to publish all the papers read at the conference together with Dr Jansonius's study of Huizinga's style written for another occasion The material is presented in a roughly chronological order The first three papers which examine Huizinga's intellectual and literary points of departure are followed by another three dealing with The Waning of the Middle Ages A special paper is devoted to Huizinga's Erasmian studies The next three authors investigate the problems which preoccupied Huizinga during the 1930s Three final papers examine general aspects of his work *Galênós van Pérgamon over de passies en vergissingen van de ziel* Jan Godderis, 2008 **Inter timorem et spem: A Study of the Theological Thought of Gerard Zerbolt of Zutphen (1367-1398)** G.H. Ruusbroec, Opera Omnia Jan Van Ruusbroec,1981-06 Jacob Böhme in Three Worlds Lucinda Martin,Cecilia Muratori,2023-12-18 Jacob Böhme 1575-1624 has been recognized as one of the internationally most influential German authors of the Early Modern period Even today his writings continue to impact fields as diverse as literature philosophy religion and art Yet Böhme and his reception remain understudied As a lay author his works were often suppressed and circulated underground Borrowing Böhme's idea of three worlds or planes of existence this volume traces the transmission of his thought through three stations from his first underground readers in Central and Eastern Europe to the Netherlands where most of his writings were first published to Britain where early translations made him a popular author for generations to come Drawing on the work of both established and younger researchers from around the world this volume charts new territory It fills many lacunae and reveals a number of exciting discoveries especially regarding the production and diffusion of manuscripts and previously overlooked sites of engagement This book will be of interest to a wide range of scholars interested in the development of philosophical religious literary and artistic thought from the 17th century to the present day Anima Mundi: The Rise of the World Soul Theory in Modern German Philosophy

Miklós Vassányi,2010-11-16 This work presents and philosophically analyzes the early modern and modern history of the theory concerning the soul of the world anima mundi The initial question of the investigation is why there was a revival of this theory in the time of the early German Romanticism whereas the concept of the anima mundi had been rejected in the earlier classical period of European philosophy early and mature Enlightenment The presentation and analysis starts from the Leibnizian Wolffian school generally hostile to the theory and covers classical eighteenth century physico-theology also

reluctant to accept an anima mundi Next it discusses early modern and modern Christian philosophical Cabbala B hme and tinger an intellectual tradition which to some extent tolerated the idea of a soul of the world The philosophical relationship between Spinoza and Spinozism on the one hand and the anima mundi theory on the other is also examined An analysis of Giordano Bruno s utilization of the concept anima del mondo is the last step before we give an account of how and why German Romanticism especially Baader and Schelling asserted and applied the theory of the Weltseele The purpose of the work is to prove that the philosophical insufficiency of a concept of God as an ens extramundanum instigated the Romantics to think an anima mundi that can act as a divine and quasi infinite intermediary between God and Nature as a locum tenens of God in physical reality
