UFOs, the Absurd, and the Limit of Anthropological Knowledge Diana Espírito Santo, 2024-09-20 This book offers an ethnographic and conceptual analysis of contemporary UFO phenomena focusing

specifically on Chilean ufology and the ufological absurd nonsensical instances for their experiencers in which there is no conceptual way out It asks how anthropology can come to terms with what is not said what is not known what is in the dark or even with what both is and is not The work draws on three years of participant observation with empirical ufologists amateur sky watchers and contactees of varying kinds in Chile The chapters mobilize three main bodies of literature to elucidate the ufological absurd negative theology anthropology of play and deceit and the physics of dark matter They explore notions of parallax paradox and trickster anthropology The author takes UFO phenomena specifically the absurd aspects as a heuristic with which to posit a conversation between domains a conversation which highlights darkneses finiteness and the limits of representation and media in anthropology one that could perhaps signal the route to a new language Consideration is given to how not knowing can be a space of extreme productiveness for the discipline The argument put forward is that only by doing an anthropology that looks outside of itself for conceptual inspiration can we come to terms with the non representable the un conceptualizable the fully paradoxical This innovative book will be of particular interest to scholars of anthropological theory and religion

Impossible Jeffrey J. Kripal, 2024-05-31 Outstanding and almost certainly controversial Kripal has promise to revitalize and extend the reach of religious studies Choice Most scholars dismiss research into the paranormal as pseudoscience a frivolous pursuit for the paranoid or gullible Even historians of religion whose work naturally attends to events beyond the realm of empirical science have shown scant interest in the subject But the history of psychical phenomena Jeffrey J Kripal contends is an untapped source of insight into the sacred and by tracing that history through the last two centuries of Western thought we can see its potential centrality to the critical study of religion Kripal grounds his study in the work of four major figures in the history of paranormal research psychical researcher Frederic Myers writer and humorist Charles Fort astronomer computer scientist and ufologist Jacques Vallee and philosopher and sociologist Bertrand Russell Through incisive analyses of these thinkers Kripal ushers the reader into a beguiling world somewhere between fact fiction and fraud The cultural

Suspenseful, engrossing, funny and grounded in scientific methodology, *Real Life X Files* provides real explanations for the paranormal activities that have intrigued human beings for centuries. [My Cosmic Trigger](#) Matt Vaughn, 2024-07-11. High strangeness denotes happenings so uncanny they are deemed utterly absurd. It involves the intersection of multiple paranormal phenomena revealing an eerie undergirding of reality. MY COSMIC TRIGGER is a deep dive into the subject covering its history, theories and notable researchers analyzing mechanisms behind this cosmic enigma. The author's personal experiences provide a penetrating understanding of the phenomenon by demonstrating how and why extramundane weirdness manifests on a personal level, helping people navigate their own synchromystic initiation with a sense of clarity, fostering a constructive relationship with odd occurrences, not a destabilizing one, and enabling readers to successfully pull their own cosmic trigger.

Britain's X-traordinary Files David Clarke, 2014-09-25. David Clarke opens The National Archives' own X Files to uncover the secret official accounts behind legendary paranormal and extraordinary phenomena. Each chapter is underpinned by original official records held at The National Archives which throw new light on many rumours and unsolved historical mysteries including the Angels of Mons and other legends of the Great War, plus a variety of strange phenomena reported both in the sea and in the air, from phantom helicopters to the great sea serpent of the Victorian era.
