Julian of Norwich's Legacy S. Salih, D. [Corra Harris and the Divided Mind of the New South](#) Catherine Oglesby, 2008 Corra Harris 1869-1935 was one of the most widely published and nationally popular women writers in the United States A Circuit Rider's Wife 1910 was Georgia's most celebrated novel for nearly three decades Now little read and almost forgotten Harris's life offers a fascinating glimpse into a world nearly unimaginable to us today In her writing Harris poignantly and often humorously captured the paradoxes characteristic of the New South a time and place of radically divergent goals Pressed by national and economic demands to modernize and regional desire to hold on to the past leaders struggled at the turn of the century to reconcile competing goals Issues of race class and gender found in Harris's writing were at the heart of the struggle In depicting the complexities of

Harris's era her life and her personality historian Catherine Oglesby offers a remarkable insight into early twentieth century literature and culture She demonstrates the ways Harris's work and life both differed from and were the same as other southern women writers and reveals the ways time and place intersect with race class gender and other variables in the forging of identity Princeton Alumni Weekly, 1926 **A Study Guide for "Humanism"** Gale, Cengage Learning, 2016 A Study Guide for Humanism excerpted from Gale's acclaimed Literary Movements for Students This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Literary Movements for Students for all of your research needs **On Literature, Culture, and Religion** Irving Babbitt, 2017-07-05 Irving Babbitt was a giant of American criticism His writings from the 1890s to the 1930s helped advance American criticism and scholarship to international esteem More than seventy years after his death his intellectual staying power remains undiminished On Literature Culture and Religion is an ideal introduction to this seminal American thinker Babbitt's opinions were uncompromising and his vocal allies and opponents included almost every name in American literature and scholarship T S Eliot Edmund Wilson Paul Elmer More H L Mencken and Sinclair Lewis A founder of New Humanism Babbitt was best known for his indictment of Romanticism and his insistence that the modern age had gone wrong Babbitt argued for a renewal of humanistic values and standards which he found best articulated in classical Greece Hinduism and Buddhism The selections cover topics central to Babbitt criticism Romanticism classical literature French literature education democracy and Buddhism They typify Babbitt's method recondite allusion penetrating insight and analysis impeccable scholarship and unrelenting pursuit of the furthest ramification and the profoundest implication The original annotation is retained Brief introductions to the essays place them in the Babbitt canon A major introductory essay by George A Panichas surveys Babbitt's career and critical reception and summarizes the concepts that inform Babbitt's writing Panichas raises again controversial issues that were not really resolved in Babbitt's time The essay will challenge those long familiar with Babbitt and New Humanism and those newly introduced thereto The Publishers' Trade List Annual, 1985 **Superfluous Southerners** John J. Langdale, III, 2012-11-01 In Superfluous Southerners John J Langdale III tells the story of traditionalist conservatism and its boundaries in twentieth century America Because this time period encompasses both the rise of the modern conservative movement and the demise of southern regional distinctiveness it affords an ideal setting both for observing the potentiality of American conservatism and for understanding the fate of the traditionalist man of letters Langdale uses the intellectual and literary histories of John Crowe Ransom Donald Davidson and Allen Tate the three principal contributors to the Agrarian manifesto I'll Take My Stand and of their three most remarkable intellectual descendants Cleanth Brooks Richard Weaver and Melvin Bradford to explore these issues Langdale begins his study with some observations on the nature of American exceptionalism and the intrinsic barriers which it presents to the traditionalist conservative imagination While works like Louis Menand's The Metaphysical Club have

traced the origins of modern pragmatic liberalism during the late nineteenth century the nature of conservative thought in postbellum America remains less completely understood Accordingly Langdale considers the origins of the New Humanism movement at the turn of the twentieth century then turning to the manner in which midwesterners Irving Babbitt and Paul Elmer Moore stirred the imagination of the southern Agrarians during the 1920s After the publication of *I'll Take My Stand* in 1930 Agrarianism splintered into three distinct modes of traditionalist conservatism John Crowe Ransom sought refuge in literary criticism Donald Davidson in sectionalism and Allen Tate in an image of the religious wayfarer as a custodian of language Langdale traces the expansion of these modes of traditionalism by succeeding generations of southerners Following World War II Cleanth Brooks further refined the tradition of literary criticism while Richard Weaver elaborated the tradition of sectionalism However both Brooks and Weaver distinctively furthered Tate's notion that the integrity of language remained the fundamental concern of traditionalist conservatism Langdale concludes his study with a consideration of neoconservative opposition to M E Bradford's proposed 1980 nomination as head of the National Endowment for the Humanities and its significance for the southern man of letters in what was becoming postmodern and postsouthern America Though the post World War II ascendance of neoconservatism drastically altered American intellectual history the descendants of traditionalism remained largely superfluous to this purportedly conservative revival which had far more in common with pragmatic liberalism than with normative conservatism
