Transpersonal Research Methods for the Social Sciences William Braud,Rosemarie Anderson,1998-04-29 The authors explain and discuss a series of transpersonal research methods designed to help researchers develop new ways of investigating extraordinary human experiences of a subjective nature

Getting at Jesus Peter S. Williams,2019-01-29 Portraying themselves as challenging blind religious dogma with evidence led skepticism the neo atheist movement claims that the New Testament contains unreliable tales about a mythical figure who far from being the resurrected Lord of life may not even have lived This comprehensive critique documents the falsehood of these neo atheist claims correcting their historical and philosophical mistakes to show how we can get at the truth about the historical Jesus

Retrieving Apologetics Glenn B. Siniscalchi,2016-01-07 Given the popes recent statements of their desires to implement the New Evangelization it is imperative that Catholic theologians and other intellectually engaged laypersons retrieve the vital discipline of apologetics For the New Evangelization places particular emphasis on reproposing the Gospel to those who have experienced a crisis of faith due to secularization One salient method of Catholic apologetics used to be characterized by three demonstrations each of which assumes the conclusions established in the previous step s Some might think that this classical method of apologetics has been abandoned in the postconciliar Church but Siniscalchi s book updates it Unlike the classical apologetics of the preconciliar era Siniscalchi engages contemporary scholarship in a variety of academic disciplines such as philosophy history biblical studies sociology and theology to develop the steps that are necessary for showing the reasonableness of faith

Dark Cognition David Vernon,2020-10-01 Winner of the Parapsychological Association Book Award 2021 Outlining the scientific evidence behind psi research Dark Cognition expertly reveals that such anomalous phenomena clearly exist highlighting that the prevailing view of consciousness purely as a phenomenon of the brain fails to account for the empirical findings David Vernon provides essential coverage of information and evidence for a variety of anomalous psi phenomena calling for a paradigm shift in how we view consciousness from seeing it as something solely reliant on the brain to something that is enigmatic fundamental and all pervasive The book examines the nature of psi research showing that despite claims to the contrary it is clearly a scientific endeavour It explores evidence from telepathy and scopaesthesia clairvoyance and remote viewing precognition psychokinesis fields of consciousness energy healing out of body experiences near death experiences and post death phenomena showing that not only do these phenomena exist but that they have significant implications for our understanding of consciousness Featuring discussion on scientific research methods reflections on the fields of dark cognition and end of chapter questions that encourage critical thinking this book is

The Routledge International Handbook of Critical Positive Psychology Nicholas J. L. Brown, Tim Lomas, Francisco Jose Eiroa-Orosa, 2017-09-19 Since the

turn of the twenty first century the field of positive psychology has sought to implement a science of human flourishing so that we may lead happier more fulfilling lives It has found expression not only in academic papers but also popular books and increasingly in government policy The Routledge International Handbook of Critical Positive Psychology is the first volume dedicated to a critical appraisal of this influential but controversial field of study The book critically examines not only the scientific foundations of positive psychology but also the sociocultural and political tenets on which the field rests It evaluates the current field of knowledge and practice and includes chapters analysing the methodological constructs of the field as well as others that question what positive psychology actually means by ideas such as happiness or well being Taking the debate further the book then discusses how positive psychology can be applied in a wider variety of settings than is presently the case helping communities and individuals by acknowledging the reality of people s lives rather than adhering strictly to debateable theoretical constructs Including contributions from disciplines ranging from psychoanalysis to existential therapy theology to philosophy and contributors from throughout the world The Routledge International Handbook of Critical Positive Psychology will be enlightening reading for anyone interested in how psychology has sought to understand human well being

A Plea for Embodied Spirituality Fraser Watts,2022-07-07 The body is crucial to religious life but there has been little practical attention given to how to make a helpful reality of this fact Strong forms of philosophical dualism have been widely abandoned by post war theologians in favour of a more integrated view of human nature but guidance on the role of the body in Christian spirituality remains fragmentary Focusing particularly on drawing out practical implications for religious life and ministry this book surveys the many ways in which the body plays an important role in religious and spiritual life drawing on scientific research theology and philosophy

From “Modern” to “Postmodern” Psychology: Is There a Way Past? Barbara Hanfstingl,Timo Gnambs,Peter Adriaan Edelsbrunner,Jana Uher,Ulrich Dettweiler,2023-03-31

Science Set Free Rupert Sheldrake,2013-09-03 The bestselling author of Dogs That Know When Their Owners Are Coming Home offers an intriguing new assessment of modern day science that will radically change the way we view what is possible In Science Set Free originally published to acclaim in the UK as The Science Delusion Dr Rupert Sheldrake one of the world s most innovative scientists shows the ways in which science is being constricted by assumptions that have over the years hardened into dogmas Such dogmas are not only limiting but dangerous for the future of humanity According to these principles all of reality is material or physical the world is a machine made up of inanimate matter nature is purposeless consciousness is nothing but the physical activity of the brain free will is an illusion God exists only as an idea in human minds imprisoned within our skulls But should science be a belief system or a method of enquiry Sheldrake shows that the materialist ideology is moribund under its sway increasingly expensive research is reaping diminishing returns while societies around the world are paying the price In the skeptical spirit of true science Sheldrake turns the ten fundamental dogmas of materialism into exciting questions and shows how all of them open up startling new possibilities for discovery Science Set Free will radically

Lets delve into the realm of bestselling books, exploring the captivating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Parapsychology Research On Exceptional Experiences : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Parapsychology Research On Exceptional Experiences : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
