(Re)theorising More-than-parental Involvement in Early Childhood Education and Care Alicja R. Sadownik, Adrijana Višnjić Jevtić, 2023-08-24 This open access book provides a critical thought provoking and stimulating overview of theories applied worldwide to conceptualise collaborations between early childhood education and children's families. The book starts with a critical reflection on the colonial undertones of parental involvement (PI) and acknowledges a strong political will to improve this aspect of early childhood education and care. The chapters in the book describe and discuss various theories including the cultural historical wholeness approach, Bronfenbrenner's ecology of human development, the theory of social capital, the theory of collaboration, family school partnership models proposed by Epstein and Hornby, Bourdieu's social theory, the theory of practice architectures, the discourse narrative theory and posthumanism. By proposing the concept of more than parents, the authors aim to embrace both the diversity of intergenerational family configurations and the agency of materiality, artifacts and the involvement of more than human actors. **Challenging the School Readiness Agenda in**

Early Childhood Education Miriam B. Tager, 2017-03-27 Challenging the normative paradigm that school readiness is a positive and necessary objective for all young children, this book asserts that the concept is a deficit based practice that fosters the continuation of discriminatory classifications. Tager draws on findings of a qualitative study to reveal how the neoliberal agenda of school reform based on high stakes testing sorts and labels children as non ready, affecting their overall schooling careers. Tager reflects critically on the relationship between race and school readiness, showing how the resulting exclusionary measures perpetuate the marginalization of low income Black children. From an early age, disrupting expected notions of readiness is imperative to ending practices of structural classism and racism in early childhood education.
