**Materializing Gender in Eighteenth-Century Europe** Heidi A. Strobel, 2017-07-05 Art history has enriched the study of material culture as a scholarly field This interdisciplinary volume enhances this literature through the contributors engagement with gender as the conceptual locus of analysis in terms of femininity masculinity and the spaces in between Collectively these essays by art historians and museum professionals argue for a more complex understanding of the relationship between objects and subjects in gendered terms The objects under consideration range from the quotidian to the exotic including beds guns fans needle paintings prints drawings mantillas almanacs reticules silver punch bowls and collage These material goods may have been intended to enforce and affirm gendered norms however as the essays demonstrate their use by subjects frequently put normative formations of gender into question revealing the impossibility of permanently fixing gender in relation to material goods concepts or bodies This book will appeal to art historians museum professionals women s and gender studies specialists students and all those interested in the history of objects in everyday life

### **The Architecture of**

**Luxury** Annette Condello, 2016-03-16 Over the past century luxury has been increasingly celebrated in the sense that it is no longer a privilege or attitude of the European elite or America's leisure class. It has become more ubiquitous and now practically everyone can experience luxury even luxury in architecture. Focusing on various contexts within Western Europe, Latin America and the United States, this book traces the myths and application of luxury within architecture interiors and designed landscapes. Spanning from antiquity to the modern era, it sets out six historical categories of luxury: Sybaritic, Lucullan, architectural excess, rustic, neo-European and modern, and relates these to the built and unbuilt environment taking different cultural contexts and historical periods into consideration. It studies some of the ethical questions raised by the nature of luxury in architecture and discusses whether architectural luxury is an unqualified benefit or something which should only be present within strict limits. The author argues how the ideas of permissible and impermissible luxury have informed architecture and how these notions of ethical approval have changed from one context to another. Providing voluptuous settings for the nobles and the leisure class, luxury took the form of not only grand palaces but also follies, country and suburban houses, private or public entertainment venues and ornate skyscrapers with fast lifts. The Architecture of Luxury proposes that in Western societies the growth of the leisure classes and their desire for various settings for pleasure resulted in a constantly increasing level of luxury sought within everyday architecture.

### **A Delicate Matter**

Oliver Wunsch, 2024-01-30 Eighteenth century France witnessed an unprecedented proliferation of materially unstable art from oil paintings that cracked within years of their creation to enormous pastel portraits vulnerable to the slightest touch or vibration. In *A Delicate Matter*, Oliver Wunsch traces these artistic practices to the economic and social conditions that enabled them: an ascendant class of art collectors who embraced fragile objects as a means of showcasing their disposable wealth. While studies of Rococo art have traditionally focused on style and subject matter, this book reveals how the physical construction of paintings and sculptures was central to the period's reconceptualization of art. Drawing on sources ranging from eighteenth century artists' writings to twenty-first century laboratory analyses, Wunsch demonstrates how the technical practices of eighteenth century painters and sculptors provoked a broad transformation in the relationship between art, time and money. Delicacy, which began the eighteenth century as a commodified extension of courtly sociability, was by century's end reimagined as the irreducible essence of art's autonomous value. Innovative and original, *A Delicate Matter* is an important intervention in the growing body of scholarship on durability and conservation in eighteenth century French art. It challenges the art historical tendency to see decay as little more than an impediment to research, instead showing how physical instability played a critical role in establishing art's meaning and purpose.

*A Cultural History of the Senses in the*

*Age of Enlightenment* Anne C. Vila, 2014-10-23 This volume examines the varied ways in which the senses were perceived afresh during the Enlightenment In addition to introducing new philosophical and scientific models which sometimes upended the classic hierarchy of the senses this period witnessed major changes in living and working habits including urbanization travel and exploration the invention of new sonic and visual media and the rise of comfort and pleasure as values that cut across a range of social classes As this volume shows those developments inspired a wealth of sensorially stimulating styles of design art music poetry foodstuffs material goods and modes of worship and entertainment The volume also demonstrates the period's countervailing concern with managing the senses evident in fields like natural philosophy medicine education religion and public hygiene Finally it explores some of the Enlightenment's desensualizing tendencies like the separation of sensuous body from discerning mind in certain arenas of science and manufacturing and the late 18th century shift away from a politics of publicity or intense visual and aural scrutiny toward the secret ballot A Cultural History of the Senses in the Age of Enlightenment presents essays on the following topics the social life of the senses urban sensations the senses in the marketplace the senses in religion the senses in philosophy and science medicine and the senses the senses in literature art and the senses and sensory media Love Letters and the Romantic Novel during the Napoleonic Wars Sharon Worley, 2017-01-06 Love letters during the Napoleonic wars were largely framed by concepts of love which were promoted through novels and philosophy The standard texts so to speak which were written by major authors who inherited this Enlightenment bearing responded to the emerging concepts of love found in novels and philosophical essays Love among this Napoleonic coterie is unique because it demonstrates the reciprocal relationship between the love letter and the romantic novel Germaine de Staël Juliette Rcamier Chateaubriand Benjamin Constant Lady Emma Hamilton Napoleon Bonaparte and his brother Lucien Bonaparte were the authors and recipients of some of the most passionate love letters of this period They were also avid readers of the newly emerging genre of the romantic novel and many of them were also authors of such works where they projected their personal romances onto the characterization of their fictional heroes and heroines In addition these authors had lived through the recent French Revolution and the Terror Imprisoned during the Revolution or branded as emigrants upon their return to Paris their mature adult lives were spent in the shadows of the Napoleonic wars in which they shifted political loyalties as the specter of Napoleon's powers grew from First Consul to Emperor of Europe The looming threat of war ignited the depths of their passions and inspired their intellectual analysis of love happiness and suicide Their evolving concept of love was a romantic all consuming passion which gripped the lovers in fatal embraces This book's analysis of their love letters and romantic novels reveals the emerging political landscape of the period through extended metaphors of love and patriotism Shapely Bodies Christine A. Jones, 2013-05-16 Shapely Bodies The Image of Porcelain in Eighteenth Century France constructs the first cultural history of porcelain making in France It takes its title from two types of bodies treated in this study the craft of porcelain making shaped clods of earth into a clay

body to produce high end commodities and the French elite shaped human bodies into social subjects with the help of makeup stylish patterns and accessories These practices crossed paths in the work of artisans whose luxury objects reflected and also influenced the curves of fashion in the eighteenth century French artisans began trials to reproduce fine Chinese porcelain in the 1660s The challenge proved impossible until they found an essential ingredient kaolin in French soil in the 1760s *Shapely Bodies* differs from other studies of French porcelain in that it does not begin in the 1760s at the Sèvres manufactory when it became technically possible to produce fine porcelain in France but instead ends there Without the secret of Chinese porcelain artisans in France turned to radical forms of experimentation Over the first half of the eighteenth century they invented artificial alternatives to Chinese porcelain decorated them with French style and with equal determination shaped an identity for their new trade that distanced it from traditional guild crafts and aligned it with scientific invention The back story of porcelain making before kaolin provides a fascinating glimpse into the world of artisanal innovation and cultural mythmaking To write artificial porcelain into a history of real porcelain dominated by China Japan and Meissen in Saxony French porcelainiers learned to describe their new commodity in language that tapped into national pride and the mythic power of French savoir faire Artificial porcelain cut such a fashionable image that by the mid eighteenth century Louis XV appropriated it for the glory of the crown When the monarchy ended revolutionaries reclaimed French porcelain the fruit of a century of artisanal labor for the Republic Tracking how the porcelain arts were depicted in documents and visual arts during one hundred years of experimentation *Shapely Bodies* reveals the politics behind the making of French porcelain's image Published by University of Delaware Press Distributed worldwide by Rutgers University Press

**A Cultural History of Furniture in the Age of Empire and Industry** Catherine L. Futter, Christina M. Anderson, 2022-02-24

The 19th century in Western culture was a time of both confidence and turbulence Industrial development produced a growing middle class as well as efficiency convenience and innovation across a range of fields from engineering to architecture Alongside these improvements the century began with the extended period of the Napoleonic Wars and was further disrupted by rebellions and revolutions both within Europe and in India South America and other parts of the world Slavery was abolished and urbanization increased dramatically These myriad developments were reflected throughout the period in the proliferation of types of furniture along with their categorization as industrial art at the international exhibitions and world fairs and the increasingly adventurous range of materials that were sometimes used in their construction Nonetheless a strong antiquarian historicist strand also prompted interest in the revival of past styles in areas of art and design including furniture Drawing upon a wealth of visual and textual sources this volume of *A Cultural History of Furniture* presents essays that examine key characteristics of the furniture of the period on the themes of design and motifs makers making and materials types and uses the domestic setting the public setting exhibition and display furniture and architecture visual representations and verbal representations

**The Tastemakers** Diana Davis, 2020-07-07

An examination of the development role and influence of the British decorative art dealers who invented an Anglo Gallic style for elite interiors In this volume Diana Davis demonstrates how London dealers invented a new and visually splendid decorative style that combined the contrasting tastes of two nations Departing from the conventional narrative that depicts dealers as purveyors of antiquarianism Davis repositions them as innovators who were key to transforming old art objects from ancien r gime France into cherished antiques and equally as creators of new and modified French inspired furniture bronze work and porcelain The resulting old new and reconfigured objects merged aristocratic French eighteenth century taste with nineteenth century British preference and they were prized by collectors who displayed them side by side in palatial interiors of the period The Tastemakers analyzes dealer made furnishings from the nineteenth century patron s perspective and in the context of the interiors for which they were created contending that early dealers deliberately formulated a new aesthetic with its own objects language and value Davis examines a wide variety of documents to piece together the shadowy world of these dealers who emerge center stage as a traders makers and tastemakers *Interiors in the Age of Enlightenment* Stacey Sloboda,2023-12-14 *Interiors in the Age of Enlightenment* provides a comprehensive and interdisciplinary overview of the cultural history of interior design and interior spaces from 1700 to 1850 Considering the interior as material social and cultural artefact this volume moves beyond conventional descriptive accounts of changing styles and interior design fashions to explore in depth the effect on the interior of the materials processes aesthetic philosophies and cultural attitudes of the age From the Palace of Versailles to Virginia coffeehouses and from Chinoiserie bathhouses to the trading exchanges of the West Indies the chapters in this book examine a wide range of themes including technological advancements public spaces gender and sexuality and global movements in interior designs and decorations Drawing together contributions from leading scholars this volume provides the most authoritative and comprehensive survey of the history of interiors and interior architecture in the long eighteenth century **Luxury and Gender in European Towns, 1700-1914** Deborah Simonton,Marjo Kaartinen,Anne Montenach,2014-09-04 This book conceives the role of the modern town as a crucial place for material and cultural circulations of luxury It concentrates on a critical period of historical change the long eighteenth and nineteenth centuries that was marked by the passage from a society of scarcity to one of expenditure and accumulation from ranks and orders to greater social mobility from traditional aristocratic luxury to a new bourgeois and even democratic form of luxury This volume recognizes the notion that luxury operated as a mechanism of social separation but also that all classes aspired to engage in consumption at some level thus extending the idea of what constituted luxury and blurring the boundaries of class and status often in unsettling ways It moves beyond the moral aspects of luxury and the luxury debates to analyze how the production distribution purchase or display of luxury goods could participate in the creation of autonomous selves and thus challenge gender roles
