France     **Edmund Campion** Dr Gerard Kilroy, 2015-09-28 Gerard Kilroy here draws on newly discovered manuscript sources to reveal Campion as a charismatic and affectionate scholar who was finding fulfilment as priest and teacher in Prague when he was summoned to lead the first Jesuit mission to England The book offers fresh insights into the dramatic search for Campion the populist nature of the disputations in the Tower and the legal issues raised by his torture It was the monarchical republic itself that made him the beloved champion of the English Catholic community Edmund Campion presents the most detailed and comprehensive picture to date of an historical figure whose loyalty and courage in the trial and on the scaffold swiftly became legendary across Europe     **Catalogue of the Lansdowne Manuscripts in the British Museum...** British museum, 1819     **Catalogue of the Lansdowne Manuscripts** British Museum Dept. of Manuscripts British Museum,     **The Voices of Nîmes** Suzannah Lipscomb, 2018-12-13 Most of the women who ever lived left no trace of their existence on the record of history Sixteenth and seventeenth century women of the middling and lower levels of society left no letters or diaries in which they expressed what they felt or thought Criminal courts and magistrates kept few records of their testimonies and no ecclesiastical court records are known to survive for the French Roman Catholic Church between 1540 and 1667 For the most part we cannot hear the voices of ordinary French women but this study allows us to do so Based on the evidence of 1 200 cases brought before the consistories or moral courts of the Huguenot church of Languedoc between 1561 and 1615 The Voices of Nîmes allows us to access ordinary women s everyday lives their speech behaviour and attitudes relating to love faith and marriage as well as friendship and sex Women appeared frequently before the consistory because one of the chief functions of moral discipline was the regulation of sexuality and women were thought to be primarily responsible for sexual sin This means that the registers include over a thousand testimonies by and about women most of whom left no other record to posterity Women also featured so prominently before the consistories because of an ironic unintended consequence of the consistorial system it empowered women Women quickly learnt how to use the consistory they denounced those who abused them they deployed the consistory to force men to honour their promises and they started rumours they knew would be followed up by the elders The registers therefore offer unrivalled evidence of women s agency in this intensely patriarchal society in a range of different contexts such as their enjoyment of their sexuality choice of marriage partners or idiosyncratic spiritual engagement The consistorial registers therefore let us see how independent self determining and vocal women could be in an age when they had limited legal rights little official power and few prospects As a result this book suggests we need to reconceptualize female power women s power was not just hidden manipulative and devious but also far more public than historians have previously recognized     **US Hegemony, American Troops Abroad and Burden-Sharing** Nobuki Kawasaki, Takeshi Sakade, Hubert Zimmermann, 2024-12-03 Kawasaki Sakade Zimmerman and their contributors examine the historical development of burden sharing among the United States US and its allies after World War II looking at examples from Western Europe and East Asia Through a series of case studies the

contributors to this volume identify the characteristics and historical transformations in the burden sharing relationships between the US and its allies In addition to diplomatic and security concerns they also look at the economic and financial dimensions of burden sharing and how all these elements are intertwined They also address the different dynamics of burden sharing between the US and Western Europe notably Germany and the United Kingdom UK on the one hand and between the US and East Asia particularly Japan and Korea on the other In particular they argue that while Western European countries provided most of the economic and political support for American policies until the 1960s the economic support from East Asian countries became much more important from the 1970s onwards This book is a valuable contribution to the literature on burden sharing and strategic alliance for scholars of international relations and the diplomatic history of the Cold War
