Parisian Views Shelley Rice,1999 Each of the book s essays is in itself a Parisian view The fragmented layered quality of the text allows the author to avoid making a linear narrative out of a subject that is enriched by multiple perspectives Yet all of the essays revolve around a central theme the creation of modern urban space in both two and three dimensions and the impact of this space on the lives of those who walked the streets of Paris of the nineteenth century **Picturesque Views of the City of Paris and Its Environs** John Scott,1823 **Description of a view of the city of Paris, taken from the Place Louis xvi., now exhibiting at the Panorama, Strand, painted by R. Neo-Impressionism and Anarchism in Fin-de-Si?e France Robyn Roslak,2017-07-05 In Neo Impressionism and Anarchism in Fin de Si e France Robyn Roslak examines for the first time the close relationship between neo impressionist landscapes and cityscapes and the anarchist sympathies of the movement s artists She focuses in particular on paintings produced between 1886 and 1905 by Paul Signac and Maximilien Luce the neo impressionists whose fidelity to anarchism to the art of landscape and to a belief in the social potential of art was strongest Although the neo impressionists are best known for their rational and scientific technique they also heeded the era s call for art surpassing the mundane realities of everyday life By tempering their modern subjects with a decorative style they hoped to lead their viewers toward moral and social improvement Roslak s ground breaking analysis shows how the anarchist theories of Elis Reclus Pierre Kropotkin and Jean Grave both inspired and coincided with these ideals Anarchism attracted the neo impressionists because its standards for social justice were grounded like neo impressionism itself in scientific exactitude and aesthetic idealism Anarchists claimed humanity would reach its highest level of social and moral development only in the presence of a decorative variety of nature and called upon progressive thinkers to help create and maintain such environments The neo impressionists who primarily painted decorative landscapes therefore discovered in anarchism a political theory consistent with their belief that decorative harmony should be the basis for socially responsible art *Paris* Colin Jones,2006-04-04

From the Roman Emperor Julian who waxed rhapsodic about Parisian wine and figs to Henry Miller who relished its seductive bohemia Paris has been a perennial source of fascination for 2 000 years In this definitive and illuminating history Colin Jones walks us through the city that was a plague infested charnel house during the Middle Ages the bloody epicenter of the French Revolution the muse of nineteenth century Impressionist painters and much more Jones s masterful narrative is enhanced by numerous photographs and feature boxes on the Bastille or Josephine Baker for instance that complete a colorful and comprehensive portrait of a place that has endured Vikings Black Death and the Nazis to emerge as the heart of a resurgent Europe This is a thrilling companion for history buffs and backpack or armchair travelers alike Notre Dame de Paris Victor Hugo,1902 Popularly known as The Hunchback of Notre Dame this is the haunting story of Quasimodo the

hunchback Esmeralda the gypsy dancer and Claude Frollo the priest tortured by his own damnation **Dividing Paris** Esther da Costa Meyer,2022-02-15 A groundbreaking work of scholarship that sheds critical new light on the urban renewal of Paris under Napoleon III In the mid nineteenth century Napoleon III and his prefect Georges Eug ne Haussmann adapted Paris to the requirements of industrial capitalism endowing the old city with elegant boulevards an enhanced water supply modern sewers and public greenery Esther da Costa Meyer provides a major reassessment of this ambitious project which resulted in widespread destruction in the historic center displacing thousands of poor residents and polarizing the urban fabric Drawing on newspapers memoirs and other archival materials da Costa Meyer explores how people from different social strata both women and men experienced the urban reforms implemented by the Second Empire As hundreds of tenements were destroyed to make way for upscale apartment buildings thousands of impoverished residents were forced to the periphery which lacked the services enjoyed by wealthier parts of the city Challenging the idea of Paris as the capital of modernity da Costa Meyer shows how the city was the hub of a sprawling colonial empire extending from the Caribbean to Asia and exposes the underlying violence that enriched it at the expense of overseas territories This marvelously illustrated book brings to light the contributions of those who actually built and maintained the impressive infrastructure of Paris and reveals the consequences of colonial practices for the city s cultural economic and political life
