Interpreting Statutes Suzanne Corcoran, Stephen

Bottomley, 2005 *Interpreting Statutes* was cited 4 times by the High Court in *Momcilovic v The Queen* 2011 HCA 34 8

September 2011 *Interpreting Statutes* has been written for lawyers and judges who must interpret statutes on a daily basis as well as for students and scholars who have their own responsibility for the future This book takes a new approach to statutory interpretation The authors consider the fundamental importance of context in statutory interpretation across various fields of regulation and explore the problems which arise from the frequent disjunction between regulatory design and subsequent statutory interpretation As a result they bring to the fore fundamental theoretical questions underlying interpretive choice and expand our appreciation of how critical interpretive issues are to the proper functioning of our legal system The book is divided into two parts The first covers several areas dealing with fundamental theoretical issues The second deals with particular areas of the law such as criminal law or corporate law addressing the utility and functionality of the general theories from different legal perspectives and illustrating the fact that different interpretive principles may take precedence in different areas of the law It reveals the complexity of statutory interpretation when applied to actual practice

in a particular area of law Despite this complexity and the unique problems of statutory interpretation within each area of law some major themes emerge including the strong influence of constitutional interpretation tension between common law rights and statutory innovation questions about the interaction of domestic law with international law tension between settled judicial principles of interpretation and principles embedded in legislation issues concerning the interpretation of delegated legislation and questions about gap filling and discretion in the interpretation of statutes and codes

Scharf,Paul R. Williams,2010-01-11 Shaping Foreign Policy in Times of Crisis grew out of a series of meetings that the authors convened with all ten of the living former U S State Department legal advisers from the Carter administration to that of George W Bush Based on their insider accounts of the role that international law actually

played during the major crises on their watch the book explores whether international law is real law or just a form of politics that policymakers are free to ignore whenever they perceive it to be in their interest to do so Written in a style that will appeal to the casual reader and serious scholar alike the book includes a foreword by the Obama administration's State Department legal adviser Harold Koh background on the theoretical underpinnings of the compliance debate an in depth case study of the treatment of detainees in the war on terror and a comprehensive glossary of the terms names places and events that are discussed in the book

The Defaulting State and the South China Sea Arbitration Alfredo C. Robles Jr., 2023-05-27 This book focuses on the legal and procedural problems caused by China's default in the South China Sea Arbitration Many of these problems arose because in several respects China departed from the conduct of other defaulting States in cases before the International Court of Justice The book argues that the Tribunal confronted with the difficulties of maintaining the balance between two parties in a situation of default drew on the full range of its powers to ensure that neither China nor the Philippines would suffer from China's default Further the book describes the shortcomings of the submissions of putative amicus curiae It refutes China's questioning of the independence and impartiality of the experts and of the judges In so doing it explains the expert opinions and the Tribunal's assessments of the latter in the areas of satellite imagery coral reef ecology and navigational safety while rebutting the half truths and counter truths disseminated by Chinese scholars about the proceedings The book compares China's threats to the independence of the Tribunal to its behavior towards Chinese judges It places China's accusations of bias against the Tribunal in the context of China's domestic situation and concludes that the Tribunal acting independently and impartially was able to perform the judicial function despite China's default

Status of NGOs in International Humanitarian Law Claudie Barrat, 2014-07-24 In *Status of NGOs in International Humanitarian Law* Claudie Barrat examines the legal framework applicable to NGOs in situations of armed conflict The author convincingly demonstrates contrary to convention that in addition to the ICRC the National Societies and the IFRC numerous other NGOs referenced in humanitarian law treaties have a legal status in IHL and therefore legitimate claim to employ IHL provisions to respond to current challenges On the basis of clear and thorough definitions of these entities Barrat argues that existing NGOs meeting stringent definition can benefit from customary rights and obligations in both international and non

international armed conflict The Recognition of States Daniel Högger, 2015 This book investigates the historical evolution of State recognition. It offers an overview of the contemporary concept, illustrates the central complexities, and by applying an interdisciplinary perspective provides an in-depth examination of its development in doctrine and practice in the respective historical context while focusing particularly on the recognition requirements. Series: International Law and International Relations. Volkerrecht und internationale Beziehungen Vol 11. Subject: History. Multiple Nationality And International Law Alfred Michael Boll, 2007 This book is a comprehensive overview of multiple nationality in international law and contains a survey of current State practice covering over 75 countries. It examines the topic in light of the historical treatment of multiple nationality by States, international bodies, and commentators, setting out the general trends in international law and relations that have influenced nationality. While the book's purpose is not to debate the merits of multiple nationality but to present actual state practice, it does survey arguments for and against multiple nationality and considers States' motivations in adopting a particular attitude toward the topic. As a reference work, the volume includes a detailed examination of the nature of nationality under international law and the concepts of nationality and citizenship under municipal law. The survey of State practice also constitutes a valuable resource for practitioners. **The Vienna Conventions on the Law of Treaties** Olivier Corten, Pierre Klein, 2011 The 1969 and 1986 Vienna Conventions on the Law of Treaties are essential components of the international legal order. This is the first Commentary on their provisions, containing thorough and well-structured analyses of each of their Articles. It draws on preparatory works and practice and is written by a large collection of experts from the field. **Teaching Information Literacy Skills to Social Sciences Students and Practitioners** Douglas Cook, Natasha Cooper, 2006 Teaching Information Literacy to Social Sciences Students and Practitioners is a second-discipline-based casebook from ACRL. This volume is based on the ACRL Information Literacy Competency Standards and presents cases on learning situations and how they can be analyzed and addressed. Also included are descriptions of instruction sessions for each case, notes, and teaching resources. Each case explicitly reflects one or more of the ACRL Information Literacy Standards. This practical collection of cases and applications brings a new set of resources to librarians doing instruction in the social sciences. Contributors cover such topics as data literacy, visual literacy, and developmental research skills training. Information on teaching undergraduate, graduate, and international students and how to incorporate information literacy into various social science curricula are also presented.
