Papal Elections In The Age Of Transition 1878 19:

Papal Elections in the Age of Transition, 1878-1922 Francis A. Burkle-Young, 2000-01-01 The startling changes that have taken place within the Catholic Church since World War II were the direct accomplishments of Pius XII and his successors. These modern popes however formed their policies and wrought these changes based on the work of four transitional popes who preceded them: Leo XIII 1878 1903 who re-established a direct link between the papacy and the lay communicant; Pius X 1903 1914 who was a conservative reactionary; and Benedict XV 1914 1922 and Pius XI 1922 1939 who revived and extended Leo's efforts to modernize the Church and its policies. Based largely on unpublished or ephemeral materials, *Papal Elections in the Age of Transition* recounts the stories of how these four men rose to the papal throne, including previously unpublished details of the conclaves. This fascinating narrative sheds new light on the rise to power of the popes who prepared the way for the Catholic Church at the dawn of the twenty-first century.

The Teachings of Modern Roman Catholicism on Law, Politics, and Human Nature John Witte (Jr.), John Witte, Frank S. Alexander, 2007 This landmark three-volume series examines how modern Catholic, Protestant, Orthodox thinkers have responded to the most pressing political, legal, ethical questions of our time.

[The Teachings of Modern Christianity on Law, Politics, and Human Nature](#) John Witte (Jr.), John Witte, Frank S. Alexander, 2006 This is a major project to be undertaken as part of a broad initiative of the Pew Charitable Trusts and the University of Notre Dame on the role of Christianity in modern society. John Witte is one of the editors of the forthcoming *Sex, Marriage, and the Family: A Reader in World Religions*.

Shadow Wars Christopher Davidson, 2016-10-06 For more than a century, successive US and UK governments have sought to thwart nationalist, socialist, and pro-democracy movements in the Middle East. Through the Cold War, the War on Terror, and the present era defined by the Islamic State, the Western powers have repeatedly manipulated the region's most powerful actors to ensure the security of their own interests, and in doing so have given rise to religious politics, sectarian war, bloody counter-revolutions, and now one of the most brutal incarnations of Islamic extremism ever seen. This is the utterly compelling, systematic dissection of Western interference in the Middle East. Christopher Davidson exposes the dark side of our foreign policy, dragging many disturbing facts out into the light for the first time. Most shocking for us today is his assertion that US intelligence agencies continue to regard the Islamic State like al-Qaeda, before it as a strategic but volatile asset to be wielded against their enemies. Provocative, alarming, and unrelenting, *Shadow Wars* demands to be read now.

Melania Catherine Michael Chin, Caroline T. Schroeder, 2016-10-25 Melania the Elder and her granddaughter Melania the Younger were major figures in early Christian history, using their wealth, status, and forceful personalities to shape the development of nearly every aspect of the religion we now know as Christianity. This volume examines their influence on late antique Christianity and provides an insightful portrait of their legacies in the modern world. Departing from the traditionally patriarchal view, Melania gives a poignant and sometimes surprising account of how the rise of Christian institutions in the Roman Empire shaped our understanding of women's roles.
