Paradoxes Of Civil Society New Perspectives On Modern German And British History:

Paradoxes of Civil Society Frank Trentmann, 2003-08-01 Civil Society has been experiencing a global renaissance among social movements and political thinkers during the last two decades This collection of original papers by junior and senior scholars offers an important comparative historical dimension to the debate by examining the historical roots of civil society in Germany and Britain from the seventeenth century revolutions to the beginning of the welfare state

Civil Society in British History Jose Harris, 2005-07-14 This book explores the many different strands in the language of civil society from the sixteenth to the twentieth centuries Through a series of case studies it investigates the applicability of the term to a wide range of historical settings The contributors show how past understandings of the term were often very different from even in some respects the exact opposite of those held today

Sensibility and the American Revolution Sarah Knott, 2009 In the wake of American independence it was clear that the new United States required novel political forms Less obvious but no less revolutionary was the idea that the American people needed a new understanding of the self Sensibility was a cultural m

Humor, Silence, and Civil Society in Nigeria Ebenezer Obadare, 2016 This work is an important contribution to the civil society debate in Africa and to the global literature on dissent

The Golden Chain Jürgen Nautz, Paul Ginsborg, Ton Nijhuis, 2013-03-01 The family can be viewed as one of the links in a golden chain connecting individuals the private sphere civil society and the democratic state as potentially an important source of energy for social activity and as the primary institution that socializes and diffuses the values and norms that are of fundamental importance for civil society Yet much of the literature on civil society pays very little attention to the complex relations between civil society and the family These two spheres constitute a central element in democratic development and culture and form a counterweight to some of the most distressing aspects of modernity such as the excessive privatization of home life and the unceasing work and spend routines This volume offers historical perspectives on the role of families and their members in the processes of a liberal and democratic civil society the question of boundaries and intersections of the private and public domains and the interventions of state institutions

Other Fronts, Other Wars?, 2014-08-07 Other Fronts Other Wars goes beyond the Western Front geographically and delves behind the trenches focusing on the social and cultural history of the First World War it covers front experiences in the Ottoman and Russian Armies captivity in Japan and Turkey occupation at the Eastern war theatre medical history epidemics in Serbia medical treatment in Germany and war relief disabled soldiers in Austria It studies the home front from the aspect of gender losing manliness transnational comparisons provincial border towns and culture home front entertainments in European metropolises and gives insight on how attitudes were shaped through intellectual wars of scientists and through commemoration in Serbia Thus the volume offers a wide range of new approaches to the history of the First World War Contributors are Kate Arrioti Altai Atl Gunda Barth Scalmani Joachim B rgschwentner Wolfram Dornik Indira Durakovic Matthias Egger Maciej G rny Andrea Griffante Ke chin Hsia Rudolf

Ku era Eva Krivanec Stephan Lehnstaedt Bernhard Liemann Tilman L dke Andrea McKenzie Mahon Murphy Nicolas Patin Livia Pr Il Philipp Rauh Paul Simmons Christian Steppan and Katarina Todi *Gender in Scottish History Since 1700* Lynn Abrams,2006-01-25 Scottish history is undergoing a renaissance Everyone agrees that an understanding of our nation s history is integral to our experience of its present and the shaping of the future But the story of Scotland s past is being told with little reference to gendered identities Not only are women largely missing from these grand narratives but men s experience has tended to be sublimated in intellectual political and economic agendas Neither femininities nor masculinities have been given much of a place in Scotland s past or in the process of nation making *Gender in Scottish History* offers a new perspective on Scotland s past since around 1700 viewing some of the main themes with a gendered perspective It starts from the assumption that gender is integral to our understanding of the ways in which societies in the past were organised and that national histories have a tendency to be gender blind Each chapter engages with one key theme from Scottish historiography asking what happens when women are added to the story and how the story changes when the meanings of gendered understandings and assumptions are probed Addressing politics culture religion science education work the family and identity *Gender in Scottish History* proposes an alternative reading of the Scottish past which is both inclusive and recognisable *History and Economic Life* Georg Christ,Philipp R. Rössner,2020-02-27 *History and Economic Life* offers students a wide ranging introduction to both quantitative and qualitative approaches to interpreting economic history sources from the Middle Ages to the Twentieth Century Having identified an ever widening gap between the use of qualitative sources by cultural historians and quantitative sources by economic historians the book aims to bridge the divide by making economic history sources more accessible to students and the wider public and highlighting the need for a complementary rather than exclusive approach Divided into two parts the book begins by equipping students with a toolbox to approach economic history sources considering the range of sources that might be of use and introducing different ways of approaching them The second part consists of case studies that examine how economic historians use such sources helping readers to gain a sense of context and understanding of how these sources can be used The book thereby sheds light on important debates both within and beyond the field and highlights the benefits gained when combining qualitative and quantitative approaches to source analysis Introducing sources often avoided in culturally minded history or statistically minded economic history courses respectively and advocating a combined quantitative and qualitative approach it is an essential resource for students undertaking source analysis within the field **British Political Culture and the Idea of 'Public Opinion', 1867-1914** James Thompson,2013-08-29 Newspapers periodicals pamphlets and books all reflect the ubiquity of public opinion in political discourse in late nineteenth and early twentieth century Britain Through close attention to debates across the political spectrum James Thompson charts the ways in which Britons sought to locate public opinion in an era prior to polling He shows that public opinion was the principal term through which the link between the social and the

political was interrogated charted and contested and charts how the widespread conviction that the public was growing in power raised significant issues about the kind of polity emerging in Britain He also examines how the early Labour party negotiated the language of public opinion and sought to articulate Labour interests in relation to those of the public In so doing he sheds important new light on the character of Britain's liberal political culture and on Labour's place in and relationship to that culture

The Internet in China Zixue Tai, 2007-05-07 The Internet in China examines the cultural and political ramifications of the Internet for Chinese society The rapid growth of the Internet has been enthusiastically embraced by the Chinese government but the government has also rushed to seize control of the virtual environment Individuals have responded with impassioned campaigns against official control of information The emergence of a civil society via cyberspace has had profound effects upon China for example in 2003 based on an Internet campaign the Chinese Supreme People's Court overturned the ruling of a local court for the first time since the Communist Party came to power in 1949 The important question this book asks is not whether the Internet will democratize China but rather in what ways the Internet is democratizing communication in China How is the Internet empowering individuals by fostering new types of social spaces and redefining existing social relations

Adam Ferguson and the Idea of Civil Society Smith Craig Smith, 2018-11-14 Adam Ferguson a friend of David Hume and Adam Smith was among the leading Scottish Enlightenment figures who worked to develop a science of man He created a methodology for moral science that combined empirically based social theory with normative moralising He was among the first in the English speaking world to make use of the terms civilization civil society and political science Craig Smith explores Ferguson's thought and examines his attempt to develop a genuine moral science and its place in providing a secure basis for the virtuous education of the new elite of Hanoverian Britain The Ferguson that emerges is far from the stereotyped image of a republican sceptical about commercial society and much closer to the mainstream of the Scottish Enlightenment and its defence of the new British commercial order

Interpreting British Governance Mark Bevir, Rod Rhodes, 2003-09-02 How is Britain governed Have we entered a new era of governance Can traditional approaches to governance help us to interpret 21st century Britain This book develops the argument that we can understand political practices only by grasping the beliefs on which people act It offers a governance narrative as a challenge to the Westminster model of British government and searches for a more accurate and open way of speaking about British government

Civil Society, Associations and Urban Places Boudien de Vries, 2016-12-05 In recent years the concept of civil society has become central to the historian's understanding of class cultural and political power in the nineteenth century town and city Increasingly clubs and voluntary societies have been regarded as an important step in the formation of formal political parties particularly for the working and middle classes The result of this is the assertion that the more associations existing in a particular society the deeper democracy becomes entrenched In order to test this hypothesis this volume brings together essays by an international group of urban historians who examine the construction of civil society

from associational activity in the urban place From their studies it soon becomes clear that such simple propositions do not adequately reflect the dynamics of nineteenth century urban society and politics Urban associations were ideological in purpose and deliberately discriminatory and as such set the boundaries of civil society Thus competing and segmented associations were not only an indication of pluralism and strength but also highlighted a fundamental weakness when faced down by the interests of the state Through a wide array of urban associations in a broad range of settings comprising Austria and Bratislava France and Italy the Netherlands Austro Hungary England Scotland and the US this volume reflects on the construction of class nation and culture in the associations of the nineteenth century urban place In so doing it shows that a deep and interlocking civil society does not automatically lead to a rise in democratic activity Expansion of the networks of urban association could equally result in greater subdivision and to the fragmentation and isolation of certain groups Partition as much as coherence is our understanding of civil society and associations in the nineteenth century urban place

Television, Regulation and Civil Society in Asia Philip Kitley, 2003-08-29 Kitley critically compares Western principles of broadcasting civil society and cultural regulation with alternative Asian practices of regulation and organization

Women's History Hannah Barker, Elaine Chalus, 2005 A wide ranging thematic survey of women s history in Britain in the 18th and early 19th centuries with chapters written by both well established writers and new and dynamic scholars in a thorough and well balanced selection

Women in Eighteenth-Century Scotland Deborah Simonton, 2016-12-05 The eighteenth century looms large in the Scottish imagination It is a century that saw the doubling of the population rapid urbanisation industrial growth the political Union of 1707 the Jacobite Rebellions and the Enlightenment events that were intrinsic to the creation of the modern nation and to putting Scotland on the international map The impact of the era on modern Scotland can be seen in the numerous buildings named after the luminaries of the period Adam Smith David Hume William Robertson the endorsement of Robert Burns as the national poet hero the preservation of the Culloden battlefield as a tourist attraction and the physical geographies of its major towns Yet while it is a century that remains central to modern constructions of national identity it is a period associated with men Until recently the history of women in eighteenth century Scotland with perhaps the honourable exception of Flora McDonald remained unwritten Over the last decade however research on women and gender in Scotland has flourished and we have an increasingly full picture of women s lives at all social levels across the century As a result this is an appropriate moment to reflect on what we know about Scottish women during the eighteenth century to ask how their history affects the traditional narratives of the period and to reflect on the implications for a national history of Scotland and Scottish identity Divided into three sections covering women s intimate intellectual and public lives this interdisciplinary volume offers articles on women s work criminal activity clothing family education writing travel and more Applying tools from history art anthropology cultural studies and English literature it draws on a wide range of sources from the written to the visual to highlight the diversity of women s experiences and to

challenge current male centric historiographies The British Home Front and the First World War Hew Strachan, 2023-03-02 The First World War required the mobilisation of entire societies regardless of age or gender The phrase home front was itself a product of the war with parts of Britain literally a war front coming under enemy attack from the sea and increasingly the air However the home front also conveyed the war's impact on almost every aspect of British life economic social and domestic In the fullest account to date leading historians show how the war blurred the division between what was military and not and how it made many conscious of their national identities for the first time They reveal how its impact changed Britain for ever transforming the monarchy promoting systematic cabinet government and prompting state intervention in a country which prided itself on its liberalism and its support for free trade In many respects we still live with the consequences

Colonialism and Christianity in Mandate Palestine Laura Robson, 2011-09-01 Drawing on a rich base of British archival materials Arabic periodicals and secondary sources Colonialism and Christianity in Mandate Palestine brings to light the ways in which the British colonial state in Palestine exacerbated sectarianism By transforming Muslim Christian and Jewish religious identities into legal categories Laura Robson argues the British ultimately marginalized Christian communities in Palestine Robson explores the turning points that developed as a result of such policies many of which led to permanent changes in the region's political landscapes Cases include the British refusal to support Arab Christian leadership within Greek controlled Orthodox churches attempts to avert involvement from French or Vatican related groups by sidelining Latin and Eastern Rite Catholics and interfering with Arab Christians efforts to cooperate with Muslims in objecting to Zionist expansion Challenging the widespread but mistaken notion that violent sectarianism was endemic to Palestine Colonialism and Christianity in Mandate Palestine shows that it was intentionally stoked in the wake of British rule beginning in 1917 with catastrophic effects well into the twenty first century

The Ottoman Mobilization of Manpower in the First World War Mehmet Beşikçi, Mehmet Beşikçi, 2012-09-28 The Ottoman Mobilization of Manpower in the First World War examines how the Ottoman Empire tried to cope with the challenges of permanent mobilization and how this process reshaped state society relations in 1914 1918 focusing mainly on Anatolia and the Muslim population

Building Democracy and Civil Society East of the Elbe Sven Eliaeson, 2006-04-18 This book explores the idea of civil society and how it is being implemented in Eastern Europe The implosion of the Russian empire fifteen years ago and the new wave of democratization opened a new field of inquiry The wide ranging debate on the transition became focused on a conceptual battle the question of how to define civil society Because totalitarian systems shun self organization real existing civil society barely existed East of the Elbe and the emergence of civil society took unusually complex and puzzling forms which varied with national culture and reflected the deep historical past of these societies This insightful text relates the concept of civil society and developments in Eastern Europe to wider sociological theories and makes international comparisons where appropriate It discusses particular aspects of civil society and examines the difficulties of establishing

civil society It concludes by assessing the problems and prospects for civil society in Eastern Europe going forward

Unveiling the Energy of Verbal Artistry: An Psychological Sojourn through **Paradoxes Of Civil Society New Perspectives On Modern German And British History**

In a global inundated with screens and the cacophony of instant conversation, the profound energy and mental resonance of verbal beauty frequently diminish in to obscurity, eclipsed by the regular onslaught of noise and distractions.
