Roberts,2024-08-02 In some parts of the world including the USA budgies are also called parakeets You can easily spot baby
budgies by the series of bars on the feathers on top of their heads These bars go down to the cere which is the fleshy area
above the beak where the nostrils are When the bird is about 8 12 weeks old the bars start to disappear and the top of the
head becomes a solid color It s hard to tell a budgie s gender when they are young but after about 3 months the cere turns
blue for males and brown for females When you get your new bird it will come in a small pet box This is the safest way to
transport your budgie until you can set up its new home It s not a good idea to move birds in open cages without covers
Budgies are one of the most popular pets in the world right after dogs and cats These small friendly and cute birds are
affordable and with proper training can even mimic human speech Although the origin of their formal name budgerigar is
unknown these birds make delightful pets for many people **The New Parakeet Handbook** Immanuel Birmelin,Annette
