#### Parallel Lifetimes Fluctuations In The Quantum Field Fireside Series Vol 3 No 3:

Parallel Lifetimes: Fluctuations In The Quantum Field Ramtha, 2011-06-01 A shift in quantum state brings a parallel lifetime and now everything in that lifetime is different The relationship to you and your environment is lifted for what compelled you before is not a compelling influence in the new shift You are now in a parallel existence In the parallel existence our mind does not leave our body behind in the old state but rather the body can also live in parallel existences because it is made of quantum material It is now shifted into the new hall the new life and everything is different What becomes apparent is that the climax that governed your life once before is now at rest The old climax is not apparent in the new life and its influences are not seen in people places things times and events That is the truth This knowledge is the key to the kingdom of heaven Ramtha Quantum Gods Victor J. Stenger, 2009-09-25 Stenger alternates his discussions of popular spirituality with a survey of what the findings of 20th century physics actually mean in laypersons terms without equations Defining the Master Ramtha, 2011-06-01 Does the life of the master exist for each of you Absolutely Is there anyone in this room that does not have that immortal line of potential around you Everyone in this room has it more so because you have learned about it But why then wouldn t it make sense to say But if I know it is there how come I don't elect to be that It is not that we wish we could be a master it is much more than that it is that being the master isn t our common thought And if it were then the life that you are now living would dramatically change to be one of no past total clarity unattachment joy and living in the present moment where the magic presence is effervescent every moment Ramtha
