Paris 2015 2016 Collectif

Sarah Gensburger, Sandrine Lefranc

Paris 2015 2016 Collectif:

After Charlie Hebdo Gavan Titley, Des Freedman, Gholam Khiabany, Aurélien Mondon, 2017-11-15 As the world looked on in horror at the Paris terror attacks of January and November 2015 France found itself at the centre of a war that has split across nations and continents The attacks set in motion a steady creep towards ever more repressive state surveillance and have fuelled the resurgence of the far right across Europe and beyond while leaving the left dangerously divided These developments raise profound questions about a number of issues central to contemporary debates including the nature of national identity the limits to freedom of speech and the role of both traditional and social media After Charlie Hebdo brings together an international range of scholars to assess the social and political impact of the Paris attacks in Europe and beyond Cutting through the hysteria that has characterised so much of the initial commentary it seeks to place these events in their wider global context untangling the complex symbolic web woven around Charlie Hebdo to pose the fundamental question how best to combat racism in our supposedly post racial age

Migrant Protest Elias

Steinhilper,2025-10-01 Migrant protest has proliferated worldwide in the last two decades explicitly posing questions of identity rights and equality in a globalized world Nonetheless such mobilizations are often considered anomalies in social movement studies and political sociology more broadly due to weak interests and a particularly disadvantageous position of outsiders to claim rights connected to citizenship In an attempt to address this seeming paradox Migrant Protest Interactive Dynamics in Precarious Mobilizations explores the interactions and spaces shaping the emergence trajectory and fragmentation of migrant protest in unfavorable contexts of marginalization Such a perspective unveils both the odds of precarious mobilizations and the ways they can be temporarily overcome While adopting the encompassing terminology of migrant this book focuses on precarious migrants including both asylum seekers and illegalized migrants **In Defense of Witches** Mona Chollet,2022-03-08 Mona Chollet's In Defense of Witches is a brilliant well documented celebration Le Monde by an acclaimed French feminist of the witch as a symbol of female rebellion and independence in the face of misogyny and persecution Centuries after the infamous witch hunts that swept through Europe and America witches continue to hold a unique fascination for many as fairy tale villains practitioners of pagan religion as well as feminist icons Witches are both the ultimate victim and the stubborn elusive rebel But who were the women who were accused and often killed for witchcraft What types of women have centuries of terror censored eliminated and repressed Celebrated feminist writer Mona Chollet explores three types of women who were accused of witchcraft and persecuted the independent woman since widows and celibates were particularly targeted the childless woman since the time of the hunts marked the end of tolerance for those who claimed to control their fertility and the elderly woman who has always been an object of at best pity and at worst horror Examining modern society Chollet concludes that these women continue to be harassed and oppressed Rather than being a brief moment in history the persecution of witches is an example of society's seemingly eternal misogyny while women today are direct descendants to those who were hunted down and killed for their thoughts and actions With fiery prose and arguments that range from the scholarly to the cultural In Defense of Witches seeks to unite the mythic image of the witch with modern women who live their lives on their own terms **Agriculture in an Urbanizing Society Volume Two** Rob Roggema,2016-12-14 In two volumes selected papers presented at the sixth AESOP conference on Sustainable Food Planning are brought together representing the academic work of worldwide experts in the fields of food planning and urban agriculture This volume therefore provides an overview of the latest state of the art research in the field drawing from areas such as spatial planning urban design governance social innovation entrepreneurship and local initiatives among others to represent the current knowledge base for creating sustainable urban food projects **L'inexistence de l'État en Afrique contemporaine et l'opérationnalisation des alternatives politiques émancipatrices** ,2025-09-04 Ce num ro proc de une d construction radicale et pluridisciplinaire des th ories de l tat en Afrique postcoloniale en corroborant dans les faits et l analyse politique l chec total de la greffe de l pist mologie politique de l tat occidental dans les soci t s africaines

Temporary Camps, Enduring Segregation Gaja

Maestri,2019-01-11 This book interrogates the persistence of Roma and migrant segregation in camps in order to understand how the creation of temporary enclosures can lead to enduring marginalisation Persistent temporariness has been widely acknowledged as a common aspect of these camps yet it remains largely under theorised Gaja Maestri unpacks the notion of camp persistence to delineate its different regimes and to investigate contributing factors In order to do so she develops a comparison between Italy and France and offers a new theorisation of the camp as a site of contentious politics where the interaction between governmental and non governmental actors produces different temporal arrangements and forms of segregation Temporary Camps Enduring Segregation will be of interest to scholars of political sociology European comparative politics and urban geography specifically to those in the field of camp studies racial segregation Romani studies and urban social movements

Beyond Memory Sarah Gensburger, Sandrine Lefranc, 2020-02-20 This book provides a fresh perspective on the familiar belief that memory policies are successful in building peaceful societies Whether in a stable democracy or in the wake of a violent political conflict this book argues that memory policies are unhelpful in preventing hate genocide and mass crimes Since the 1990s transmitting the memory of violent pasts has been utilised in attempts to foster tolerance and fight racism hate and antisemitism However countries that invested in memory policies have overseen the rise of hate crimes and populisms instead of growing social cohesion Breaking with the usual moralistic position this book takes stock of this situation Where do these memory policies come from Whom do they serve Can we make them more effective In other words can we really learn from the past At a time when memory studies is blooming this book questions the normative belief in the effects of memory

Private International Law Aspects of Corporate Social Responsibility Catherine Kessedjian, Humberto Cantú Rivera, 2020-03-06 This book addresses one of the core challenges in the corporate social responsibility or business and human rights debate how to ensure adequate access to remedy for victims of corporate abuses that infringe upon their human rights However ensuring access to remedy depends on a series of normative and judicial elements that become highly complex when disputes are transnational In such cases courts need to consider and apply different laws that relate to company governance to determine the competent forum to define which bodies of law to apply and to ensure the adequate execution of judgments The book also discusses how alternative methods of dispute settlement can relate to this topic and the important role that private international law plays

in access to remedy for corporate related human rights abuses This collection comprises 20 national reports from jurisdictions in Europe North America Latin America and Asia addressing the private international law aspects of corporate social responsibility They provide an overview of the legal differences between geographical areas and offer numerous examples of how states and their courts have resolved disputes involving private international law elements The book draws two preliminary conclusions that there is a need for a better understanding of the role that private international law plays in cases involving transnational elements in order to better design transnational solutions to the issues posed by economic globalisation and that the treaty negotiations on business and human rights in the United Nations could offer a forum to clarify and unify several of the elements that underpin transnational disputes involving corporate human rights abuses which could also help to identify and bridge the existing gaps that limit effective access to remedy Adopting a comparative approach this book appeals to academics lawyers judges and legislators concerned with the issue of access to remedy and reparation for corporate abuses under the prism of private international law

Islam and the Governing of Muslims in France Frank Peter, 2021-01-28 Will Islam be able to adapt to France's secularity and its strict separation of public and private spheres Can France accommodate Muslims In this book Frank Peter argues that the debate about Islam and Muslims is not simply caused by ignorance or Islamophobia Rather it is an integral part of how secularism is reasoned Islam and the Governing of Muslims in France shows that understanding religion as separate from other aspects of life such as politics economy and culture disregards the ways religion has operated and been managed in secular societies such as France This book uncovers the varying rationalities of the secular that have developed over the past few decades in France to govern Islam in order to examine how Muslims engage with the secular regime and contribute to its transformation This book offers a close analysis of French secularism as it has been debated by Islamic intellectuals and activists from the 1990s until the present It will influence the study of secularism as well as the study of Islam in the French Republic and reveal new connections between Islamic traditions and secular rationalities

Francophone Literature as World Literature

Christian Moraru, Nicole Simek, Bertrand Westphal, 2020-06-25 Francophone Literature as World Literature examines French language works from a range of global traditions and shows how these literary practices draw individuals communities and their cultures and idioms into a planetary web of tension and cross fertilization The Francophone corpus under scrutiny here comes about in the evolving markedly relational context provided by these processes and their developments during and after the French empire The 15 chapters of this collection delve into key aspects moments and sites of the literature flourishing throughout the francosphere after World War II and especially since the 1980s from the French Hexagon to the Caribbean and India and from Quebec to the Maghreb and Romania Understood and practiced as World Literature Francophone literature claims with particular force in the wake of the *littérature mondiale* debate its place in a more democratic world republic of letters where writers critics publishers and audiences are no longer beholden to traditional

centers of cultural authority **Evading International Norms** Zoltán Búzás, 2021-01-01 How do states violate human rights norms after legalization Why are these violations so persistent What are the limits of legalization for protecting human rights norms Conventional wisdom offers a variety of answers to these questions but most often they conflate laws and norms and focus only on state actions that violate both While this focus is undoubtedly valuable it does not capture cases in which states violate human rights norms without technically violating the law Norm breakers are not necessarily lawbreakers Focusing exclusively on norm violations that are illegal obscures the possibility that agents could violate norms in a legal manner engaging in actions that are awful but lawful Presenting rich case studies of the French expulsion of Roma immigrants from 2007 to 2017 and the Czech segregation of Roma children in schools for those with mild mental disabilities between 1993 and 2017 **Evading International Norms** argues that the violation of human rights norms often continues after legalization under the cover of technical legality While laws and norms overlap interact and shape each other in many ways they tend to reflect each other only selectively which leads to the existence of norm law gaps Taking advantage of such gaps states resist unwanted human rights obligations by transgressing international human rights norms without violating the laws designed to protect them a process Zoltán Búzás names norm evasion Based on a wealth of evidence including more than 160 interviews the book shows that the treatment of the Roma by France and the Czech Republic violated the norm of racial equality in a technically legal fashion Búzás cautions that the good news about law compliance is not necessarily good news about norm compliance and draws attention to racial discrimination against the Roma one of the largest and most marginalized European minorities **Urban Rage** Mustafa Dikeç, 2017-01-01 A timely and incisive examination of

contemporary urban unrest that explains why riots will continue until citizens are equally treated and politically included In the past few decades urban riots have erupted in democracies across the world While high profile politicians often react by condemning protestors actions and passing crackdown measures urban studies professor Mustafa Dikeç shows how these revolts are in fact rooted in exclusions and genuine grievances which our democracies are failing to address In this eye opening study he argues that global revolts may be sparked by a particular police or government action but nonetheless are expressions of much longer and deep seated rage accumulated through hardship and injustices that have become routine Increasingly recognized as an expert on urban unrest Dikeç examines urban revolts in the United States United Kingdom France Sweden Greece and Turkey and in a sweeping and engaging account makes it clear that change is only possible if we address the failures of democratic systems and rethink the established practices of policing and political decision making
