The Rise and Fall of the International Organization of Journalists Based in Prague 1946-2016 Kaarle Nordenstreng ,2021-01-01 This is a unique history of what in the 1980s was the world s largest association in the media field However the IOJ was embroiled in the Cold War the bulk of 300 000 members were in the socialist East and developing South Hence the collapse of the Soviet led communist order in central eastern Europe in 1989 91 precipitated the IOJ s demise The author a Finnish journalism educator and media scholar served as President of the IOJ during its heyday In addition to a chronological account of the organization the book includes testimonies by actors inside and outside the IOJ and comprehensive appendices containing unpublished documents "*Art and Visual Culture on the French Riviera, 1956?971* " Rosemary O'Neill,2017-07-05 The Riviera in the 1950s and 1960s was culturally rich with modernist icons such as Matisse and Picasso in residence but also a burgeoning tourist culture that established the C d Azur as a center of indigenous artists associated with Nouveau R isme Fluxus and Supports Surfaces emerged under the mantle of the Ecole de Nice Drawing on the primary sources and little known publications generated during the period from museum archives collections in the region and privately owned archives this study integrates material published in monographic studies of individuals and art movements to offer the first in depth study of this important movement in twentieth century art The author situates the work of the Ecole de Nice within the broader social currents that are so important in contextualizing this phenomenon within this

internal region of France and underscores why this work was so significant at this historical moment within the context of the broader European art scene and contemporary American art with which it shared affinities Despite their stylistic differences and associations with groups that are generally considered distinct O'Neill discloses that these artists shared conceptual affinities theatrical modes of presentation based on appropriation use of the ready made and a determination to counter style driven painting associated with the postwar Ecole de Paris Art and Visual Culture on the Riviera 1956-1971 suggests that the emergence of an Ecole de Nice internally eroded the dominance of Paris as the national standard at this moment of French decentralization efforts and that these artists fostered a model of aesthetic pluralism that remained locally distinct yet fully engaged with international vanguard trends of the 1960s **Pablo Picasso** Dr Enrique Mallen, 2019-11-14

As early as the ancient Greeks goddesses served as Muses for artistic creation In essence a creatively charged energy inspired the artist leaving a unique and recognizable mark on the artwork Picassos relationships with the women in his life was deeply formative and he often represented them as Muses He was particularly unabashed in the declaration of his feelings to one of them Marie Therese Walter his youthful mistress of 1927 But at that point Picasso was still married to Olga Khokhlova thus forced to practice the utmost discretion His marriage to Olga made him increasingly frustrated with her imposed bourgeois expectations As a release from this marital burden Marie Therese was ever present in his work often portrayed as Aphrodite with a wreath in her hair a basket of flowers and fruits by her side Marie Therese was the Dream the Muse This fertile period coincided with the strong influence of surrealism which helped liberate Picassos psyche from the straitjacket that Olgas lifestyle imposed on him By 1935 however the model and mistress became a mother to Maya radically changing the role she previously had The following year Picasso was introduced to a new woman Dora Maar an encounter that signalled the beginning of the end of Marie Thereses exclusive claim on Picassos affections and the closing of an artistic period clearly marked by fertility The Aphrodite Period 1924-1936 provides new insights and analysis of Picassos life as recently uncovered through the research of the Online Picasso Project This time span is one of the most illustrative periods of Picassos career in that it clearly demonstrates the close interdependence between sexuality and artistic creativity that characterize Picasso's entire output **Journal of the Society of Arts**, 1857 **Art and Visual Culture on the French Riviera, 1956-1971** Rosemary O'Neill, 2012 Drawing on the primary sources and little known publications from museum archives collections in the region and privately owned archives Art and Visual Culture on the Riviera 1956-1971 offers the first in depth study of the Ecole de Nice The author shows how artists indigenous to the region challenged the dominance of Paris as the national standard at this moment of French decentralization efforts and growing internationalism in the arts
