## **Parting Ways Jewishness And The Critique Of Zionism:**

Parting Ways Judith Butler, 2012 Here the provocative theorist argues for the separation of Jewishness from Zionism engaging a number of thinkers who offer important resources for thinking about dispossession state violence and possibilities of cohabitation *Anti-Judaism, Antisemitism, and Delegitimizing Israel* Robert S. Wistrich, 2016-12-01 An exploration of the many aspects of the current surge in anti Jewish and anti Israel rhetoric and violence around the world *Toward a Negative Theology of Judaism* Ernest Rubinstein, 2025-07-29 This book reimagines Judaism and Jewish identity after the time honored method of negative theology It builds on negations that clear space for revisioning of such topics as creation and revelation the people and State of Israel history and suffering ritual and ethics God and spiritual life The theology builds on thought from key figures in the history of Jewish philosophy and serves along the way as an introduction to them including Ecclesiastes Philo Saadia Gaon Judah Halevi Maimonides Spinoza Moses Mendelssohn Nachman Krochmal Hermann Cohen Franz Rosenzweig Martin Buber Abraham Joshua Heschel Emil Fackenheim Emmanuel Levinas Yeshayahu Leibowitz and more A key finding is that a shared negation binds God and the Jewish people together their joint refusal to submit to contentful constrictive definition *Is Theory Good for the Jews?* Bruno Chaouat, 2016 By looking back to the emergence of a postwar theoretical discourse on trauma memory victims suffering the Holocaust and the Jews *Is Theory Good for the Jews* explores how French thought is implicated in intellectual literary and ideological components of the global and local upsurge of antisemitism **Critical Theories of Anti-Semitism** Jonathan Judaken, 2024-06-04 Despite its persistence and viciousness anti Semitism remains undertheorized in comparison with other forms of racism and discrimination How should anti Semitism be defined What are its underlying causes Why do anti Semites target Jews In what ways has Judeophobia changed over time What are the continuities and disconnects between medieval anti Judaism and the Holocaust How does criticism of the state of Israel relate to anti Semitism And how can social theory illuminate the upsurge in attacks on Jews today Considering these questions and many more this book is at once a philosophical reflection on key problems in the analysis of anti Semitism and a history of its leading theories and theorists Jonathan Judaken explores the methodological and conceptual issues that have vexed the study of Judeophobia and calls for a reconsideration of the definitions categories and narratives that underpin overarching explanations He traces how a range of thinkers have wrestled with these challenges examining the theories of Jean Paul Sartre the Frankfurt School Hannah Arendt and Jean Fran ois Lyotard alongside the works of sociologists Talcott Parsons and Zygmunt Bauman and historians L on Poliakov and George Mosse Judaken argues against claims about the uniqueness of Judeophobia demonstrating how it is entangled with other racisms Islamophobia Negrophobia and xenophobia *Critical Theories of Anti Semitism* not only urges readers to question how they think about Judeophobia but also draws them into conversation with a range of leading thinkers whose insights are sorely needed in this perilous moment **The Wiley Blackwell Companion to Religion and Peace** Jolyon Mitchell, Suzanna R.

*Histories of Violence* Brad Evans, Terrell Carver, 2017-01-15 While there is a tacit appreciation that freedom from violence will lead to more prosperous relations among peoples violence continues to be deployed for various political and social ends Yet the problem of violence still defies neat description subject to many competing interpretations *Histories of Violence* offers an accessible yet compelling examination of the problem of violence as it appears in the corpus of canonical figures from Hannah Arendt to Frantz Fanon Michel Foucault to Slavoj i ek who continue to influence and inform contemporary political philosophical sociological cultural and anthropological study Written by a team of internationally renowned experts this is an essential interrogation of post war critical thought as it relates to violence

*Judith Butler and Marxism* Elliot Mason, Valentina Moro, 2025-03-15 What would a Butlerian Marxism look like Marxist criticisms of Butler range from careful comparisons of forms to the total dismissal of an unpolitical merely cultural anarchy None of these criticisms however focuses on what seems to most closely unite these two projects the universal abolition of the universal While Marxist communism is focused on the abolition of value and property Butler is consistently concerned throughout their corpus with the abolition of the subject as the universal form of social relations an abolition staged by way of a relational ontology and ethics Their methodologies for achieving abolition however vary hugely Butler s sees the performativity of subjects and power as an opportunity for differential assembly Marxists are primarily concerned with the working class as a revolutionary vanguard that withdraws its labor from production Judith Butler and Marxism explores the possibility of a Butlerian Marxism understood as abolitionist performativity differential vulnerability and generalized practices of care The essays in this volume attempt to actualize the antagonistic persistence of social particulars pursuing the abolition of the domination and violence that pervade society with increasing brutality The three sections of this volume are structured according to three pivotal political concepts in Butler s corpus performativity vulnerability and care Each essay contributes to a possible mutual development of Butler s and Marxism s concern with assembly interdependence and refusal forming a revolutionary politics of care This is the first book to fully study the contentious link between the vastly influential projects of Judith Butler and Marxism

**Continental Philosophy and the Palestinian Question** Zahi Zalloua, 2017-02-23

From Sartre to Levinas continental philosophers have looked to the example of the Jew as the paradigmatic object of and model for ethical inquiry Levinas for example powerfully dedicates his 1974 book *Otherwise than Being* to the victims of the Holocaust and turns attention to the state of philosophy after Auschwitz Such an ethics radically challenges prior notions of autonomy and comprehension two key ideas for traditional ethical theory and more generally the Greek tradition It seeks to respect the opacity of the other and avoid the dangers of hermeneutic violence But how does such an ethics of the other translate into real everyday life What is at stake in thinking the other as Jew Is the alterity of the Jew simply a counter to Greek universalism Is a rhetoric of exceptionalism with its unavoidable ontological residue at odds with shifting political realities Within this paradigm what then becomes of the Arab or Muslim the other of the Jew the other of the other so to speak This line of ethical thought in its desire to bear witness to past suffering and come to terms with subjectivity after Auschwitz arguably brackets from analysis present operations of power Would then a more sensitive historical approach expose the Palestinian as the other of the Israeli Here Zahi Zalloua offers a challenging intervention into how we configure the contemporary

**Jewish Ethics: The Basics** Geoffrey D. Claussen, 2024-12-04 *Jewish Ethics: The Basics* demonstrates how ancient and contemporary ideas have shaped and reshaped Jewish traditions about how to act toward others Readers are introduced to foundational questions controversies and diverse ethical conclusions developed by Jewish thinkers throughout the ages Topics addressed include Assumptions about Authority Love Compassion Justice and Humility Human

Rights War Land and Power Gender and Sexuality Personal and Social Ethics Environmental and Animal Ethics Bioethical Issues Concise readable and engaging this is the ideal introduction for anyone interested in religious ethics secular traditions Judaism and the field of Jewish ethics     *Levinas's Ethical Politics* Michael L. Morgan, 2016-05-09 Emmanuel Levinas conceives of our lives as fundamentally interpersonal and ethical claiming that our responsibilities to one another should shape all of our actions While many scholars believe that Levinas failed to develop a robust view of political ethics Michael L. Morgan argues against understandings of Levinas's thought that find him politically wanting or even antipolitical Morgan examines Levinas's ethical critique of the political as well as his Jewish writings including those on Zionism and the founding of the Jewish state which are controversial reflections of Levinas's political expression Unlike others who dismiss Levinas as irrelevant or anarchical Morgan is the first to give extensive treatment to Levinas as a serious social political thinker whose ethics must be understood in terms of its political implications Morgan reveals Levinas's political commitments to liberalism and democracy as well as his revolutionary conception of human life as deeply interconnected on philosophical political and religious grounds     What is Academic Freedom? Daniel Gordon, 2022-07-26 This book explores the history of the debate from 1915 to the present about the meaning of academic freedom particularly as concerns political activism on the college campus The book introduces readers to the origins of the modern research university in the United States the professionalization of the role of the university teacher and the rise of alternative conceptions of academic freedom challenging the professional model and radicalizing the image of the university Leading thinkers on the subject of academic freedom Arthur Lovejoy Angela Davis Alexander Meiklejohn Edward W Said among others spring to life What is the relationship between freedom of speech and academic freedom Should communists be allowed to teach What constitutes unacceptable political indoctrination in the classroom What are the implications for academic freedom of creating Black Studies and Women's Studies departments Do academic boycotts such as those directed against Israel violate the spirit of academic freedom The book provides the context for these debates Instead of opining as a judge the author discloses the legal philosophical political and semantic disagreements in each controversy The book will appeal to readers across the social sciences and humanities with interests in scholarly freedom and academic life The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license     **Exile, Statelessness, and Migration** Seyla Benhabib, 2018-09-11 An examination of the intertwined lives and writings of a group of prominent twentieth century Jewish thinkers who experienced exile and migration *Exile Statelessness and Migration* explores the intertwined lives careers and writings of a group of prominent Jewish intellectuals during the mid twentieth century in particular Theodor Adorno Hannah Arendt Walter Benjamin Isaiah Berlin Albert Hirschman and Judith Shklar as well as Hans Kelsen Emmanuel Levinas Gershom Scholem and Leo Strauss Informed by their Jewish identity and experiences of being outsiders these thinkers produced one of the most brilliant and

effervescent intellectual movements of modernity Political philosopher Seyla Benhabib's starting point is that these thinkers faced migration statelessness and exile because of their Jewish origins even if they did not take positions on specifically Jewish issues personally The sense of belonging and not belonging of being eternally half other led them to confront essential questions What does it mean for the individual to be an equal citizen and to wish to retain one's ethnic cultural and religious differences or perhaps even to rid oneself of these differences altogether in modernity Benhabib isolates four themes in their works dilemmas of belonging and difference exile political voice and loyalty legality and legitimacy and pluralism and the problem of judgment Surveying the work of influential intellectuals Exile Statelessness and Migration recovers the valuable plurality of their Jewish voices and develops their universal insights in the face of the crises of this new century

**Antisemitism and the Politics of History** Scott Ury, Guy Miron, Gai Miron, 2023-10-21 A ground breaking collection of essays regarding the history implementation and challenges of using antisemitism and related terms as tools for both historical analysis and public debate A unique sophisticated contribution to current debates in both the academic and the public realms regarding the nature and study of antisemitism today *Future of the Prophetic* Marc. H. Ellis, 2014-05-01 *Future of the Prophetic* argues that in the persistence of the prophetic the legacy of the ancient Jewish world spread beyond the boundaries of the Jewish community and took root throughout the world As a way of wisdom and hope this dual rooting its grounding in the tradition of ancient Israel and its uncontained itinerancy unveils a startling but promising new context a re presentation of the prophetic from outside the Jewish world to the Jewish community The new situation of contemporary prophetic challenges the fixed religious landscape by reversing traditional boundaries eschewing power and privilege and brokering peace through solidarity and common struggle in ecumenical and interfaith contexts **The Colonizing Self** Hagar Kotef, 2020-11-02 Colonizers continuously transform spaces of violence into spaces of home Israeli Jews settle in the West Bank and in depopulated Palestinian houses in Haifa or Jaffa White missionaries build their lives in Africa The descendants of European settlers in the Americas and Australia dwell and thrive on expropriated indigenous lands In *The Colonizing Self* Hagar Kotef traces the cultural political and spatial apparatuses that enable people and nations to settle on the ruins of other people's homes Kotef demonstrates how the mass and structural modes of violence that are necessary for the establishment and sustainment of the colony dwell within settler colonial homemaking and through it shape collective and individual identities She thus powerfully shows how the possibility to live amid the destruction one generates is not merely the possibility to turn one's gaze away from violence but also the possibility to develop an attachment to violence itself Kotef thereby offers a theoretical framework for understanding how settler colonial violence becomes inseparable from one's sense of self
