News From Nowhere And Selected Writings And Designs English Library:

The Penguin Classics Book Henry Eliot, 2019-02-21 Shortlisted for Waterstones Book of the Year The Penguin Classics Book is a reader's companion to the largest library of classic literature in the world Spanning 4 000 years from the legends of Ancient Mesopotamia to the poetry of the First World War with Greek tragedies Icelandic sagas Japanese epics and much more in between it encompasses 500 authors and 1 200 books bringing these to life with lively descriptions literary connections and beautiful cover designs

Gustav Stickley's Craftsman Farms Mark Alan Hewitt, 2001-03-01 From 1911 to 1917 Craftsman Farms now a major museum was the home of Gustav Stickley one of the central figures in the American Arts and Crafts Movement This book unravels the rich and sometimes contradictory ideas that informed not only Stickley but many of the artists and literary figures of the progressive era in America The year 1900 was the fulcrum in a long arc of utopian ideals dating back to Thomas Carlyle John Ruskin and William Morris in England a movement which would eventually lead up to the art communes of the Guild of Handicraft Woodstock and the MacDowell colony Craftsman Farms was at the center of a large group of American experiments in living the artistic life With this book Mark Alan Hewitt provides a foil for a critical examination of the theories that guided many architects artists and craft artisans at the turn of the last century Illustrated with specially commissioned photographs as well as many archival photographs from the Winterthur Museum and Library this book provides both a visual and historical record of Stickley's life and work during his most fertile creative period

Romantic Ecology (Routledge Revivals) Jonathan Bate, 2013-10-31 First published in 1991 Romantic Ecology reassesses the poetry of William Wordsworth in the context of the abiding pastoral tradition in English Literature Jonathan Bate explores the politics of poetry and argues that contrary to critics who suggest that the Wordsworth was a reactionary who failed to represent the harsh economic reality of his native Lake District the poet's politics were fundamentally green As our first truly ecological poet Wordsworth articulated a powerful and enduring vision of human integration with nature which exercised a formative influence on later conservation movements and is of immediate relevance to great environmental issues today Challenging the orthodoxies of new historicist criticism Jonathan Bate sets a new agenda for the study of Romanticism in the 1990s

Books in Print, 1991

The Return of Nature John Bellamy Foster, 2020-06-16 Winner 2020 Isaac and Tamara Deutscher Memorial Prize A fascinating reinterpretation of the radical and socialist origins of ecology Twenty years ago John Bellamy Foster's Marx's Ecology Materialism and Nature introduced a new understanding of Karl Marx's revolutionary ecological materialism More than simply a study of Marx it commenced an intellectual and social history encompassing thinkers from Epicurus to Darwin who developed materialist and ecological ideas Now with The Return of Nature Socialism and Ecology Foster continues this narrative In so doing he uncovers a long history of the efforts to unite questions of social justice and environmental sustainability and helps us comprehend and counter today's unprecedented planetary emergencies The Return of Nature begins with the deaths of Darwin 1882 and Marx 1883 and

moves on until the rise of the ecological age in the 1960s and 1970s Foster explores how socialist analysts and materialist scientists of various stamps first in Britain then the United States from William Morris and Frederick Engels to Joseph Needham Rachel Carson and Stephen J Gould sought to develop a dialectical naturalism rooted in a critique of capitalism In the process he delivers a far reaching and fascinating reinterpretation of the radical and socialist origins of ecology Ultimately what this book asks for is nothing short of revolution a long ecological revolution aimed at making peace with the planet while meeting collective human needs **The Political Aesthetic of Victorian Travel** Inderpal Grewal,1987

Whitaker's Books in Print ,1990 William Morris and the Idea of Community Anna Vaninskaya,2010-10-12 The great polymath William Morris and his contemporaries and followers from H Rider Haggard to H G Wells are the focus of this study Anna Vaninskaya draws upon a wide array of primary sources from working class fiction and articles in fringe socialist newspapers to historical treatises autobiographies and diaries in order to explore the many ways Victorians and Edwardians talked about community and modernity Vaninskaya s narrative moves from the realm of romance bestsellers and sniggering reviews to debates in weighty historical tomes and then to the headquarters of revolutionary parties to street corners and shabby lecture halls She demonstrates how in each domain the dream of community clashed with the reality of the modern state and market **Home and Harem** Inderpal Grewal,1996-03-14 Moving across academic disciplines geographical boundaries and literary genres Home and Harem examines how travel shaped ideas about culture and nation in nineteenth century imperialist England and colonial India Inderpal Grewal s study of the narratives and discourses of travel reveals the ways in which the colonial encounter created linked yet distinct constructs of nation and gender and explores the impact of this encounter on both English and Indian men and women Reworking colonial discourse studies to include both sides of the colonial divide this work is also the first to discuss Indian women traveling West as well as English women touring the East In her look at England Grewal draws on nineteenth century aesthetics landscape art and debates about women s suffrage and working class education to show how all social classes not only the privileged were educated and influenced by imperialist travel narratives By examining diverse forms of Indian travel to the West and its colonies and focusing on forms of modernity offered by colonial notions of travel she explores how Indian men and women adopted and appropriated aspects of European travel discourse particularly the set of oppositions between self and other East and West home and abroad Rather than being simply comparative Home and Harem is a transnational cultural study of the interaction of ideas between two cultures Addressing theoretical and methodological developments across a wide range of fields this highly interdisciplinary work will interest scholars in the fields of postcolonial and cultural studies feminist studies English literature South Asian studies and comparative literature **The Social Design Reader** Elizabeth Resnick,2019-07-11 The Social Design Reader explores the ways in which design can be a catalyst for social change Bringing together key texts of the last fifty years editor Elizabeth Resnick traces the emergence of the notion of socially responsible design This volume represents the authentic voices of the

thinkers writers and designers who are helping to build a canon of informed literature which documents the development of the discipline The Social Design Reader is divided into three parts Section 1 Making a Stand includes an introduction to the term social design and features papers which explore its historical underpinnings Section 2 Creating the Future documents the emergence of social design as a concept as a nascent field of study and subsequently as a rapidly developing professional discipline and Section 3 A Sea Change is made up of papers acknowledging social design as a firmly established practice Contextualising section introductions are provided to aid readers in understanding the original source material while summary boxes clearly articulate how each text fits with the larger milieu of social design theory methods and practice

British Books in Print ,1985 *Yeats's Worlds* David Pierce,1995-01-01 A Short History of English Literature Harry Blamires,2013-02-28 First published in 2012 This work of introduction is designed to escort the reader through some six centuries of English literature It begins in the fourteenth century at the point at which the language written in our country is recognizably our own and ends in the 1950s It is a compact survey summing up the substance and quality of the individual achievements that make up our literature The aim is to leave the reader informed about each writer s main output sensitive to the special character of his gifts and aware of his place in the story of our literature as a whole □□□□□□□□□□
□□□□□,1986 Against the Machine Nicols Fox,2013-04-15 From the cars we drive to the instant messages we receive from debate about genetically modified foods to astonishing strides in cloning robotics and nanotechnology it would be hard to deny technology s powerful grip on our lives To stop and ask whether this digitized implanted reality is quite what we had in mind when we opted for progress or to ask if we might not be creating more problems than we solve is likely to peg us as hopelessly backward or suspiciously eccentric Yet not only questioning but challenging technology turns out to have a long and noble history In this timely and incisive work Nicols Fox examines contemporary resistance to technology and places it in a surprising historical context She brilliantly illuminates the rich but oftentimes unrecognized literary and philosophical tradition that has existed for nearly two centuries since the first Luddites the machine breaking followers of the mythical Ned Ludd lifted their sledgehammers in protest against the Industrial Revolution Tracing that current of thought through some of the great minds of the 19th and 20th centuries William Blake Mary Shelley Charles Dickens John Ruskin William Morris Henry David Thoreau Ralph Waldo Emerson Robert Graves Aldo Leopold Rachel Carson and many others Fox demonstrates that modern protests against consumptive lifestyles and misgivings about the relentless march of mechanization are part of a fascinating hidden history She shows as well that the Luddite tradition can yield important insights into how we might reshape both technology and modern life so that human community and environmental values take precedence over the demands of the machine In *Against the Machine* Nicols Fox writes with compelling immediacy bringing a new dimension and depth to the debate over what technology means both now and for our future **Books in Series** ,1985 Vols for 1980 issued in three parts Series Authors and Titles *Illustrated Editions of the Works of William Morris in English* Robert L. M.

Coupe,2002 This work presents a detailed description of the various editions of work by William Morris in which one or more artists have illustrated the text Each bibliographic entry emphasizes the artistic aspect of the particular book and pays special attention to the artists visual interpretation of Morris writing **British Paperbacks in Print** ,1984 *The Collected Letters of William Morris, Volume III* William Morris,2014-07-14 These volumes bring to a close the only comprehensive edition of the surviving correspondence of William Morris 1834-1896 a protean figure who exerted a major influence as poet craftsman master printer and designer Volumes III and IV taken together give in detail the comments and observations that articulate his problematic political and artistic stands and equally problematic position within the aesthetic movement as it developed in the 1890s Most eloquently voiced also are the complexities of his troubled marriage and his devotion to his epileptic daughter Jenny and his other daughter May But dominating all these themes organizing and structuring them are the Kelmscott Press and the building of Morris's important library of medieval manuscripts and early printed books The letters record the way in which the Press becomes not only the center of Morris's aesthetic ambitions and achievements but also the site for his closest human relations and for much of his connecting with the makers of early modernism The letters in Volumes III and IV are thoroughly annotated and through texts and notes provide a new assessment of Morris's career Included also as appendices to Volume IV are two important documents the first never before published is F S Ellis's Valuation List of Morris's library made after Morris's death and the second never before reprinted is the text of what was to be Morris's final essay on socialism published in April 1896 Originally published in 1995 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The British National Bibliography** Arthur James Wells,1968
