## **Nice Expert Evidence International Criminal Justice:**

**Expert Evidence and International Criminal Justice** Artur Appazov, 2016-01-09 The book is a comprehensive narration of the use of expertise in international criminal trials offering reflection on standards concerning the quality and presentation of expert evidence It analyzes and critiques the rules governing expert evidence in international criminal trials and the strategies employed by counsel and courts relying upon expert evidence and challenges that courts face determining its reliability In particular the author considers how the procedural and evidentiary architecture of international criminal courts and tribunals influences the courts ability to meaningfully incorporate expert evidence into the rational fact finding process The book provides analysis of the unique properties of expert evidence as compared with other forms of evidence and the challenges that these properties present for fact finding in international criminal trials It draws conclusions about the extent to which particularized evidentiary rules for expert evidence in international criminal trials is wanting Based on comparative analyses of relevant national practices the book proposes procedural improvements to address some of the challenges associated with the use of expertise in international criminal trials

**International Criminal Justice** Michael Bohlander, 2007 Summary Written by seasoned scholars and practitioners this collection of essays provides a most comprehensive analysis of the institutional dynamics and political underpinnings of international criminal justice They explore and provide critical comment on the main institutional difficulties experienced by International Tribunals Publisher description

**Principles of Evidence in International Criminal Justice** Karim A. A. Khan, Caroline Buisman, Christopher Gosnell, 2010 Principles of Evidence in International Criminal Justice provides an overview of the procedure and practice concerning the admission and evaluation of evidence before the international criminal tribunals The book is both descriptive and critical and its emphasis is on day to day practice drawing on the experience of the Yugoslavia Rwanda and Sierra Leone Tribunals This book is an attempt to define and explain the core principles and rules that have developed at those ad hoc Tribunals the rationale and origin of those rules and to assess the suitability of those rules in the particular context of the International Criminal Court which is still at its early stages The ICC differs in structure from the ad hoc Tribunals and approaches the legal issues it has to resolve differently from its predecessors The ICC is however confronted with many of the same questions The book examines the differences between the ad hoc Tribunals and the ICC and seeks to offer insights as to how and in which circumstances the principles established over years of practice at the ICTY ICTR and SCSL may serve as guidance to the ICC practitioners of today and the future The contributors represent a cross section of the practising international criminal bar drawn from the ranks of the Bench the Prosecution and the Defence and bringing with them different legal domestic cultures Their mixed background underlines the recurring theme in this book which is the manner in which a legal culture has gradually taken shape in the international Tribunals drawing on the various traditions and experiences of its participants

**Expert Evidence and Scientific Proof in Criminal Trials** Paul Roberts, 2017-07-05 Forensic

science evidence and expert witness testimony play an increasingly prominent role in modern criminal proceedings Science produces powerful evidence of criminal offending but has also courted controversy and sometimes contributed towards miscarriages of justice The twenty six articles and essays reproduced in this volume explore the theoretical foundations of modern scientific proof and critically consider the practical issues to which expert evidence gives rise in contemporary criminal trials The essays are prefaced by a substantial new introduction which provides an overview and incisive commentary contextualising the key debates The volume begins by placing forensic science in interdisciplinary focus with contributions from historical sociological Science and Technology Studies STS philosophical and jurisprudential perspectives This is followed by closer examination of the role of forensic science and other expert evidence in criminal proceedings exposing enduring tensions and addressing recent controversies in the relationship between science and criminal law A third set of contributions considers the practical challenges of interpreting and communicating forensic science evidence This perennial battle continues to be fought at the intersection between the logic of scientific inference and the psychology of the fact finder s common sense reasoning Finally the volume s fourth group of essays evaluates the limited success of existing procedural reforms aimed at improving the reception of expert testimony in criminal adjudication and considers future prospects for institutional renewal with a keen eye to comparative law models and experiences success stories and cautionary tales

*The Defaulting State and the South China Sea Arbitration* Alfredo C. Robles Jr., 2023-05-27 This book focuses on the legal and procedural problems caused by China s default in the South China Sea Arbitration Many of these problems arose because in several respects China departed from the conduct of other defaulting States in cases before the International Court of Justice The book argues that the Tribunal confronted with the difficulties of maintaining the balance between two parties in a situation of default drew on the full range of its powers to ensure that neither China nor the Philippines would suffer from China s default Further the book describes the shortcomings of the

submissions of putative amicus curiae It refutes China's questioning of the independence and impartiality of the experts and of the judges In so doing it explains the expert opinions and the Tribunal's assessments of the latter in the areas of satellite imagery coral reef ecology and navigational safety while rebutting the half truths and counter truths disseminated by Chinese scholars about the proceedings The book compares China's threats to the independence of the Tribunal to its behavior towards Chinese judges It places China's accusations of bias against the Tribunal in the context of China's domestic situation and concludes that the Tribunal acting independently and impartially was able to perform the judicial function despite China's default

international criminal tribunals to understand how law and history are combined in the courtroom Historical testimony is now an integral part of international trials with prosecutors and defense teams using background testimony to pursue decidedly legal objectives In the Slobodan Milo evi trial the prosecution sought to demonstrate special intent to commit genocide by reference to a long standing animus nurtured within a nationalist mindset For their part the defense called historical witnesses to undermine charges of superior responsibility and to mitigate the sentence by representing crimes as reprisals Although legal ways of knowing are distinct from those of history the two are effectively combined in international trials in a way that challenges us to rethink the relationship between law and history

**The Arms Trade and International Criminal Law** Tomas Hamilton,2025-01-22 Despite the establishment of UN embargoes the Arms Trade Treaty ATT and the EU Common Position arms export regulation suffers from significant legal and practical limitations This book critically evaluates the existing body of Arms Trade Law highlighting its inadequacies in preventing weapons from reaching perpetrators of mass violence Drawing on interviews participant observation and empirical research to assess the perspectives of judges and lawyers it also explores the International Criminal Court s narrow focus on prosecuting political and military leaders Arguing that institutional attitudes and commitments contribute to a legal culture that obscures the potential for an arms trader case the book illustrates these dynamics through a case study of the UN Security Council s response to the Second Congo War and the ICC s investigations in the DRC Situation elucidating missed opportunities to enforce accountability against the entire spectrum of actors responsible for international crimes Through detailed examination of the arms trade s complexities The Arms Trade and International Criminal Law foregrounds the structural causes of atrocity and argues for broader accountability It investigates how individuals including corporate executives state officials and arms traffickers can be held directly accountable for atrocities under international law even when their actions are geographically or causally distant from the violence itself Furthermore by advancing a specific interpretation of the actus reus and mens rea elements of accomplice liability under Article 25 of the Rome Statute this book argues for a robust legal basis upon which the ICC can prosecute arms traders It therefore underscores how international criminal law can complement existing regulations by leveraging its expressive function to condemn all those who profit from atrocity

Library of Congress Subject Headings Library of Congress,2012 **Histories Written by International Criminal Courts and Tribunals** Aldo Zammit Borda,2020-12-18 This book argues for a more moderate approach to history writing in international criminal adjudication by articulating the elements of a responsible history normative framework The question of whether international criminal courts and tribunals ICTs ought to write historical narratives has gained renewed relevance in the context of the recent turn to history in international criminal law the growing attention to the historical legacies of the ad hoc Tribunals and the minimal attention paid to historical context in the first judgment of the International Criminal Court The starting point for this discussion is that in cases of mass atrocities prosecutors and judges are inevitably understood to

be engaged in writing history and influencing collective memory whether or not they so intend Therefore while writing history is an inescapable feature of ICTs there is still today a significant lack of consensus over the proper place of this function Since Hannah Arendt articulated her doctrine of strict legality in response to the prosecutor's expansive didactic approach in Eichmann the legal debate on the subject has been largely polarised between restrictive and expansive approaches to history writing in mass atrocity trials What has been noticeably missing from this debate is the middle ground The contribution this book seeks to make is precisely to articulate a framework that occupies that ground The book asks what are the lenses through which judges of ICTs interpret historical events what kind of histories do ICTs write and what kinds of histories should ICTs produce Its arguments for a more moderate approach to history writing are based on three distinct but interrelated grounds 1 Truth and Justice 2 Right to Truth and 3 Legal Epistemology Different target audiences may benefit from this book Court officials and legal practitioners may find the normative framework developed herein useful in addressing the tensions between the competing objectives of ICTs and in particular in assessing the value of the history writing function Lawyers historians and other academics may also find the analysis of the strengths constraints and blind spots of the historical narratives written by ICTs interesting This issue is particularly timely in view of current debates on the legacies of ICTs Aldo Zammit Borda is Director of the Centre for Access to Justice and Inclusion at Anglia Ruskin University Cambridge UK
