Ethics of Biodiversity Conservation Jayanta Kumar Mallick, 2023-11-25 In 1864 in India the British Raj established the Imperial Forest Department Social forestry got a major boost in the early 1980s initiating a new approach to deal with the problem of biotic interference on forest land A great change was made in forest and forestry management for the protection and development of forests where Forest Protection Committees FPCs were formed by villagers following the Arabari Model Community forest experiment in West Bengal for usufruct rights and revenue sharing which is unique in the history of forest management in the world Ethics of Biodiversity Conservation takes a unique longitudinal view of this important forestry management case study Today increasing human

population growing industrialization pollution and climate change creates the challenge of determining ways and means of ensuring that biodiversity conservation is an integral part of forest management
