Principles Of Artificial Neural Networks (2nd Edition) Daniel Graupe, 2007-04-05 The book should serve as a text for a university graduate course or for an advanced undergraduate course on neural networks in engineering and computer science departments It should also serve as a self study course for engineers and computer scientists in the industry Covering major neural network approaches and architectures with the theories this text presents detailed case studies for each of the approaches accompanied with complete computer codes and the corresponding computed results The case studies are designed to allow easy comparison of network performance to illustrate strengths and weaknesses of the different networks

**Bio A.I. - From Embodied Cognition to Enactive Robotics** Adam Safron, Inês Hipólito, Andy Clark, 2023-12-08 Even before the deep learning revolution the landscape of artificial intelligence AI was already changing drastically in the 90s Embodied intelligence it was proposed must play a crucial role in the design of intelligent machines This new wave was inspired by what is today known as Embodied and Enactive Cognitive Science or E Cognition which considers that cognitive activity does not reduce to the intellectual capacities of agents being able to represent their environments E cognition set AI and robotics in a new direction in which intelligent machines are required to interact with the environment and where this interaction does not reduce to explicit representations or prespecified algorithms These ideas revolutionized the way we think about intelligent machines and cognition but these theoretical advances are only partially reflected in modern approaches to AI and machine learning ML Despite deeply impressive achievements AI ML still struggles to recapitulate the kinds of intelligence we find in natural systems whether we are considering individual insects e g simultaneous localization and mapping or swarm behaviour e g foraging sensing and ensemble inferences and especially the kinds of flexibility and high level reasoning characteristic of human cognition *The Directory of Graduate Studies*, 1999
