Nice Preaching Prevention Born Again Christianity Perspectives:

Preaching Prevention Lydia Boyd, 2015-10-29 Preaching Prevention examines the controversial U S President s Emergency Plan for AIDS Relief PEPFAR initiative to abstain and be faithful as a primary prevention strategy in Africa This ethnography of the born again Christians who led the new anti AIDS push in Uganda provides insight into both what it means for foreign governments to export approaches to care and treatment and the ways communities respond to and repurpose such projects By examining born again Christians support of Uganda s controversial 2009 Anti Homosexuality Bill the book s final chapter explores the enduring tensions surrounding the message of personal accountability heralded by U S policy makers Preaching Prevention is the first to examine the cultural reception of PEPFAR in Africa Lydia Boyd asks What are the consequences when individual responsibility and autonomy are valorized in public health initiatives and those values are at odds with the existing cultural context Her book investigates the cultures of the U S and Ugandan evangelical communities and how the flow of U S directed monies influenced Ugandan discourses about sexuality and personal agency It is a pioneering examination of a global health policy whose legacies are still unfolding *The Essentials of Suicide Prevention*

Karen Mason, 2023-01-24 Suicide is a growing tragedy in the US and in the church We can stop the climbing numbers of suicide deaths but it is going to take everyone working together including the church Without the church suicidal people may not hear the life affirming messages they need to hear Without an informed church people who have lost loved ones to suicide may leave the church Too often the church watches from the sidelines not knowing what to do Why is it that the wider secular culture is more engaged in suicide prevention than God s people especially given that Christians care deeply about the sanctity of life The apostle Paul modeled suicide prevention for the church when he stopped the suicide of the Philippian jailer But pastors and congregants may not know how to follow his example The result is that people who struggle with suicide or who have lost loved ones to suicide wonder if the Bible or their church have anything relevant to say about suicide This book will provide the resources needed to help prevent suicide in a church even when a church does not want to start one more program **Christian Perspectives on Sexuality and Gender** Elizabeth Stuart, Adrian Thatcher, 1996 This collection of articles present a variety of broadly Christian responses to issues such as sexuality and gender sexuality and spirituality gay and lesbian sexuality sexuality and violence sexuality and singleness and the family *Global Christianity*

Vebjorn L. Horsfjord, Sven Thore Kloster, Gina Lende, Ole Jakob Loland, 2022-02-28 Over the last few decades Christianity s center of gravity has moved from the global north to the global south While church buildings in Western Europe are being closed or sold new megachurches are filled with believers in Africa and Latin America Charismatic movements practice the Christian religion in new ways challenging the established churches and society at large on all continents This scholarly examination of contemporary World Christianity takes a fresh perspective on Christianity as a cultural political and social force in our time It provides up to date regional surveys gives ample attention to the fastest growing branch of Christianity

the Pentecostal movement and focuses sharply on Catholicism which with a wide margin is the world's largest denomination. Furthermore, it explores how the Christian religion accommodates as well as challenges political, social, economic, and cultural developments. *Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding* Essien, Essien, 2020-03-20. The contemporary conflict scenarios are beyond the reach of standardized approaches to conflict resolution. Given the curious datum that culture is implicated in nearly every conflict in the world, culture can also be an important aspect of efforts to transform destructive conflicts into more constructive social processes. Yet what culture is and how culture matters in conflict scenarios is contested and regrettably unexplored. The *Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding* is a critical publication that examines cultural differences in conflict resolution based on various aspects of culture such as morals, traditions, and laws. Highlighting a wide range of topics such as criminal justice, politics, and technological development, this book is essential for educators, social scientists, sociologists, political leaders, government officials, academicians, conflict resolution practitioners, world peace organizations, researchers, and students.

Higher Powers China Scherz, George Mpanga, Sarah Namirembe, 2024-02-06. A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. *Higher Powers* draws on four years of collaborative fieldwork carried out with Ugandans working to reconstruct their lives after attempting to leave behind problematic alcohol use. Given the relatively recent introduction of biomedical ideas of alcoholism and addiction in Uganda, most of these people have used other therapeutic resources including herbal aversion therapies, engagements with balubaale spirits, and forms of deliverance and spiritual warfare practiced in Pentecostal churches. While these methods are at times severe, they contain within them understandings of the self and practices of sociality that point away from models of addiction as a chronic relapsing brain disease and towards the possibility of release. *Higher Powers* offers a reconceptualization of addiction and recovery that may prove relevant well beyond Uganda.

The Experiment Must Continue Melissa Graboyes, 2015-11-09. *The Experiment Must Continue* is a beautifully articulated ethnographic history of medical experimentation in East Africa from 1940 through 2014. In it, Melissa Graboyes combines her training in public health and in history to treat her subject with the dual sensitivities of a medical ethicist and a fine historian. She breathes life into the fascinating histories of research on human subjects, elucidating the hopes of the interventionists and the experiences of the putative beneficiaries. Historical case studies highlight failed attempts to eliminate tropical diseases, while modern examples delve into ongoing malaria and HIV/AIDS research. Collectively, these show how East Africans have perceived research differently than researchers do and that the active participation of subjects led to the creation of a hybrid ethical form. By writing an ethnography of the past and a history of the present, Graboyes casts medical experimentation in a new light and makes the resounding case that we must readjust our dominant ideas of consent, participation, and exploitation. With global implications, this lively book is as relevant for scholars as

it is for anyone invested in the place of medicine in society *The Histories of HIVs* William H. Schneider, 2021-08-17 This new collection of essays on HIV viruses spans disciplines to topple popular narratives about the origins of the AIDS pandemic and the impact of the disease on public health policy With a death toll in the tens of millions the AIDS pandemic was one of the worst medical disasters of the past century The disease was identified in 1981 at the height of miraculous postwar medical achievements including effective antibiotics breakthrough advances in heart surgery and transplantations and cheap safe vaccines smallpox had been eradicated just a few years earlier Arriving as they did during this era of confidence in modern medicine the HIV epidemics shook the public's faith in health science Despite subsequent success in identifying testing and treating AIDS the emergence of epidemics and outbreaks of Ebola Zika and the novel coronaviruses SARS and COVID 19 are stark reminders that such confidence in modern medicine is not likely to be restored until the emergence of these viruses is better understood This collection combines the work of major social science and humanities scholars with that of virologists and epidemiologists to provide a broader understanding of the historical social and cultural circumstances that produced the pandemic The authors argue that the emergence of the HIV viruses and their epidemic spread were not the result of a random mutation but rather broader new influences whose impact depended upon a combination of specific circumstances at different places and times The viruses emerged and were transmitted according to population movement and urbanization changes in sexual relations new medical procedures and war In this way the AIDS pandemic was not a chance natural occurrence but a human made disaster Essays by Ernest M Drucker Tamara Giles Vernick Ch Didier Gondola Guillaume Lachenal Amandine Lauro Preston A Marx Stephanie Rupp Francois Simon Jorge Varanda **Malaria on the Move** Kundai Manamere, 2025-04-01 Malaria on the Move explores the socioeconomic aspects of endemic malaria in the southeastern lowveld of Zimbabwe The book provides a historical analysis of malaria control and eradication programs in Rhodesia and independent Zimbabwe from the late nineteenth century to 2015 Kundai Manamere draws connections between malaria epidemiology and human mobility relating to large and small scale farming labor migration colonial displacement war and rural to urban movements She examines how circular labor migration and rural travel influence the risk of malaria for individuals and communities and shows how migration and travel have spread the disease and impeded control efforts More importantly the book demonstrates that the need to travel for work is an indicator of a local hierarchy of priorities It reaffirms the urgent need for partners in malaria control to consider local socioeconomic factors in the design and implementation of intervention programs The inclusion of local contexts perspectives and voices in formulating national and global public health policies and interventions is critical to addressing public noncooperation To date biomedical studies of malaria outnumber socioeconomic and political studies of the disease Manamere advocates for a multipronged approach that goes beyond standard scientific research methods Her approach incorporates how socioeconomic considerations of recipient communities influence malaria epidemiology local perceptions of the disease and responses to interventions This

context is particularly important for understanding why malaria has remained a global health challenge and why so many interventions have failed Scientifically malaria is a disease of the landscape and its ecological complexity poses challenges to its eradication Yet biological and ecological landscapes are not exclusive factors in the spread of disease as Manamere demonstrates the socioeconomic environment is equally important **The Riddle of Malnutrition** Jennifer

Tappan,2017-06-19 More than ten million children suffer from severe acute malnutrition globally each year In Uganda longstanding efforts to understand treat and then prevent the condition initially served to medicalize it in the eyes of both biomedical personnel and Ugandans who brought their children to the hospital for treatment and care Medicalization meant malnutrition came to be seen as a disease as a medical emergency not a preventable condition further compromising nutritional health in Uganda Rather than rely on a foreign led model physicians in Uganda responded to this failure by developing a novel public health program known as Mwanamugimu The new approach prioritized local expertise and empowering Ugandan women blending biomedical knowledge with African sensibilities and cultural competencies In *The Riddle of Malnutrition* Jennifer Tappan examines how over the course of half a century Mwanamugimu tackled the most fatal form of childhood malnutrition kwashiorkor and promoted nutritional health in the midst of postcolonial violence political upheaval and neoliberal resource constraints She draws on a diverse array of sources to illuminate the interplay between colonialism the production of scientific knowledge and the delivery of health services in contemporary Africa Preaching Hope in Darkness Scott M. Gibson,Karen E. Mason,2020-11-23 How can a preacher best address suicide from the pulpit Pastors face many challenges Suicide in a congregation is amongst the most heart rending and intimidating However the preacher has a unique capacity to engender gospel hope for preparing the congregation and comforting the bereaved To do so preachers need help understanding the challenges and opportunities presented by addressing suicide from the pulpit In *Preaching Hope in Darkness* two practitioners in fields that do not typically interact homiletics Scott M Gibson and psychology Karen Mason work together to support the preacher in this difficult task Gibson and Mason offer wise advice on a range of topics such as suicide prevention post crisis care and funeral sermon preparation With an appendix of sample sermons and a sample funeral liturgy *Preaching Hope in Darkness* is an essential go to guide for this difficult topic

Christian Citizens and the Moral Regeneration of the African State Barbara Bompani,Caroline Valois,2017-10-23 In recent years the rapid growth of Christian charismatic movements throughout sub Saharan Africa has drastically reconfigured the region s religious landscape As a result charismatic factions play an increasingly public role throughout Africa far beyond the religious sphere This book uses a multi disciplinary approach to consider the complex relationship between Pentecostal charismatic Christianity and the socio political transformation taking place throughout this region Each of this text s three main sections helps in understanding how discourses of moral regeneration emanating from these diverse Christian communities largely charismatic extend beyond religious bounds Part 1 covers politics political elites and elections

Part 2 explores society economies and the public sphere and Part 3 discusses values public beliefs and morality These sections also highlight how these discourses contribute to the transformation of three specific social milieus to reinforce visions of the Christian citizen Examining contemporary examples with high quality scholarly insight this book is vital reading for academics and students with an interest in the relationship between religion politics and development in Africa

Imagining Persecution Jason Bruner,2021-03-12 Many American Christians have come to understand their relationship to other Christian denominations and traditions through the lens of religious persecution This book provides a historical account of these developments showing the global theological and political changes that made it possible for contemporary Christians to claim that there is a global war on Christians This book however does not advocate on behalf of particular repressed Christian communities nor does it argue for the genuineness or lack thereof of certain Christians claims of persecution Instead this book is the first to examine the idea that there is a global war on Christians and its analytical implications It does so by giving a concise history of the categories like martyrs evidence statistics and metrics and theologies that have come together to produce a global Christian imagination premised upon the notion of shared suffering for one s faith The purpose in doing so is not to deny certain instances of suffering or death rather it is to reflect upon the consequences for thinking about religious violence and Christianity worldwide using terms such as a global war on Christians
