The horrific experience of Jews in the Holocaust added to worldwide support for a Jewish homeland. In 1947, the UN drew up a plan to divide Palestine into an Arab and a Jewish state. Jews accepted the plan, but Arabs rejected it. They felt that all of Palestine should belong to its longtime Arab residents. After Britain withdrew from Palestine in 1948, Jews proclaimed the independent state of Israel. Arab states launched the first of several wars against Israel but were defeated.

Use the excerpt to answer question 1.

1. Arab states launched a war against Israel in 1948 because —
 - A many Palestinians were forced from their homes.
 - B they felt that all of Palestine should belong to its Arab residents.**
 - C they did not want Holocaust survivors in Palestine.
 - D many Palestinians refused to leave Israel.

nations from the rise of totalitarian regimes in the twentieth century to contemporary challenges like Russia's democratic decline and hybrid warfare tactics in Poland and Estonia. It also highlights how certain democracies have successfully resisted these threats, offering valuable lessons for protecting democratic values and institutions in today's world. Going beyond historical analysis, the book provides a comprehensive theoretical framework for understanding and categorising the enemies of democracy, transforming the concept from a normative idea into a powerful analytical tool. This book will be of key interest to scholars and students of European history and politics, political theory, democracy, political systems, political philosophy, and comparative politics.

Building a New Nation Dan Connell, 2004. In April 1976, Dan Connell slipped into Eritrea's besieged capital Asmara, where he witnessed the assassination of a top-ranking Ethiopian official and its bloody aftermath: the summary execution of dozens of innocent civilians. His front-page account in *The Washington Post* broke Ethiopia's long-standing information blockade. Connell went on to write about the radical social transformation underway in guerrilla-held areas, the near defeat of Ethiopia's American-backed army, the

Community, Democracy, and the Environment Jane A. Grant, 2003-09-29. Insuring the continued integrity of the global environment may now be linked to the ability of humans to strengthen existing and develop new opportunities and institutions in which to democratically explore shared ethics about the future. The nature of the ties we have to one another in our communities, the quality of the attachments we have to our political institutions, and the presence or absence of public spaces within which to deliberate about our deepest concerns may have profound implications for the biosphere. *Community, Democracy, and the Environment* looks at the changing character of community and polity in the United States. The book proposes the development of a realm of civil ethics where citizens democratically deliberate about values, reviews the changing orientations of Americans to the environment, and environmental policy, and examines why a new direction in energy policy is critical to our environmental future. The book concludes with some directions for how humans may better learn to share the future with each other and the other species with whom we share the planet.

Material Imagination Natalie Adamson, Steven Harris, 2017-07-24. *Material Imagination* examines the interrelated concepts of matter, materialism, and materiality in postwar European art from 1946 to 1972. Provides a unique perspective on European art by prioritizing material dimensions over concept or context while also paying attention to theoretical and historical concerns. Explores artists' methods and materials in order to better understand the social and cultural environments in which their works of art were made. Demonstrates how materials can be harnessed to affect the critical interpretation of artwork. Brings together exceptional illustrations and new research in eight essays by art historians.
